WILMINGTON, Del., May 4.—By order of the new Board of Health which will be sworn in today, every public, parochial and private school, every church, every saloon, every politoom and every place of amusement, including outdoor athletic games, will be ordered closed as a result of the smallpox epidemic. They will remain closed until such time as the board thinks it safe to the public health that they should be open.

Fully 18,000 persons were vaccinated yesterday and thousands more are baring their arms for treatment today. It is further probable that virtually all churches and Sunday schools in the city will be closed next Sunday.

There is a possibility, also, of a clash between the Board of Health and the Board of Education, as the latter believes the 18,000 pupils in the city are safer from contagion in school than on the streets. The Health Board, however, has ample authority to make imperative order to close the school buildings.

### WARNING TO VOTERS

Continued from Page One high-speed lines which have been designed for the proper service of the people, and the elimination of the illegal and discriminatory exchange ticket.

The transit question is not a political issue: it is a business issue, in which you and every citizen of Philadelphia are vitally interested. I, therefore, urge you to disregard any political or other influence which may be brought to bear to lead you to vote with the obstructionists against the Transit Loan and against YOUR OWN BEST INTERESTS.

In this fight against the corporate and private interests which for selfish reasons are opposing transit development and against the efforts of their political allies, who are loaded up with traction securities, YOUR VOTES ARE THE ONLY WEAPONS WHICH WILL COUNT.

Those interests which are working through stealthy and political emissaries to lead you by false information and promises to turn against the welfare of the city and against your own best interests, and to join them in firing on the Flag of Philadelphia on election day must be dealt a crushing defeat by your united vote in favor of the Transit Loan.
