

CAMDEN'S BIG CIVIC EXPOSITION TO OPEN THIS AFTERNOON
 1000 Automobiles Will Parade as Inaugural Feature of Industrial Demonstration in New Jersey City
 MAYOR TO PRESS BUTTON

Camden's Civic Celebration and Exposition of Industries will be formally instituted today at 3 o'clock, when 1000 automobiles parade every section of the city in a demonstration the like of which has never been seen in Camden before.

The celebration, which begins today and will end May 27, for the purpose of bringing the attention of the industries of Camden to the outside world and in honor of the passing of the 100,000 mark in population. The city now has more than 100,000 people living within its limits, and is the fourth largest city in New Jersey.

The automobile demonstration will form at 3 o'clock and Cooper streets at 3 o'clock. The route will be down Cooper to 7th street, to Federal street, to Broadway, to Ferry avenue, countermarching to Kaighn's avenue, to Haddon avenue, to Federal street, to 22nd Camden, to the army, to the street, to East Camden, to the street, to 13 miles per hour and will consume 1 hour and 30 minutes in the trip.

City officials will review the parade from the Board of Trade rooms and award cash prizes to the best decorated machine, the best decorated machine driven by a woman and carrying women only, the machine presenting the most beautiful floral decorations, and the one best decorated in the city colors, blue and white. A general prize will be awarded the best decorated machine of the four winners.

At 8 o'clock tonight the Palace of Industries, in the 3d Regiment Armory, at Haddon avenue and Mickle street, will be formally opened. Many of the exhibits are moving exhibits, showing how Camden produces 90 per cent. of the world's supply of writing pens, the most paper boxes, the greatest number of gas mantles, over half of the whiting used in America, and many other industrial triumphs of which the city is justly proud.

Mayor Charles H. Ellis will officiate at the exercises in the Palace. He will press an electric button at 8 o'clock, which will light up the thousands of incandescent lamps strung out along the main streets of the city and which will at the same time light up the Exposition Palace and set all the machinery in motion. Following this ceremony the Mayor and city officials will inspect the various exhibits.

The celebration is being conducted under the auspices of the Camden Board of Trade and a committee of 200 business men. More than \$50,000 will be spent on the affair by the time it comes to a close.

Tomorrow there will be no street demonstrations, but on Saturday there will be a parade of fraternal organizations in which 4,000 men will march. Sunday will be observed as Civic Day in the Camden churches. May 23, 24 and 25 will be known as Exposition Sales Days, when merchants throughout the city affiliated with the movement will offer their merchandise to the general public at bargain prices. Thousands of papers published especially for the occasion have been sent throughout the county and State telling of the bargains offered and where they may be purchased. A special committee will protect the buyer as well as the seller and adjust any differences that may arise during those days.

DEMOCRATIC CONGRESSMEN TO DEFEND HEAVY BUDGETS

Leaders Prepare to Combat Charges of Extravagance

WASHINGTON, May 18.—Democratic leaders in Congress today began preparing a defense against the Republican charges of extravagance and waste of the public money. An effort to break down Senator Smoot's assertion that the appropriations of the fifth Congress will exceed \$2,700,000,000 will be made at once to offset the possibility of its becoming a potent issue in the Presidential campaign.

Senator Stone, ranking Democratic member of the Finance Committee, has served notice on his colleagues that hereafter "all appropriations must be cut to the bone." It is realized, however, that economy now will not materially affect the grand total and that it will be necessary to defend the enormous expenditure as a necessary incident to the war and other unusual circumstances.

AD SEEKS ELOPING WIFE

Deserted Husband Wants Divorce So He Can Remarry

NEW YORK, May 18.—Deserted by his wife and betrayed by his friend, Isaac Schlicht's faith in friendship, love and humanity has vanished. But, since his faith in advertising remains unshaken, he has inserted this comprehensive advertisement in the Yiddish newspapers:

Rosie, my wife, left me on the 4th of March with Louis Hochman, a ladies' tailor, who came originally from Grodno. He is of a dark complexion, medium height, clean shaven and has thick lips. The woman works at cigarettes. She is also of medium weight and height, of dark complexion and wears a beauty mark on her face. She wears a brown suit trimmed with velvet. I promise to give \$10 for information as to her whereabouts.

Rosie, I believe you have made me suffer enough. Why do you plague me? Write to your brother and I will send you a divorce. Please do this for me, Rosie, because I want to get married again.

Isaac wants to remarry that he may establish another woman at his home, at 10 Essex street, to care for two little daughters, who do not appear to thrive under his care.

WORKER SET UPON AND BEATEN

Assailants Believed to Be Strike Sympathizers

The police of the Park and Lehigh avenue station are searching for a gang of 12 men, who attacked and severely beat Adolph Lawrence, 3333 West Somerset street, a molder employed by the American Engineering Company, who refused to work. Lawrence was walking with Superintendent Marcor, of the company, and two other men last night, when they were attacked on 24th street near Lehigh avenue. All escaped except Lawrence, who was beaten so severely he is receiving medical treatment at his home. The assailants are believed to be strike sympathizers, as none of them was recognized.

Since March 13, 25 molder and core makers have been on strike for a strictly union shop. About 80 men remained at work.

BADLY INJURED BY AUTO

Joseph Girard, Run Down on Broad Street, Is in Serious Condition

Joseph Girard, 60 years old, of 5644 Personal avenue, was run down and seriously injured by an automobile last night on Broad street in front of the Union League. The car was driven by Charles J. Hoban, Jr., who is the son of the well-known physician at 1609 South Broad street. Hoban placed the injured man in his machine and took him to Hahnemann Hospital, where it was found that Girard had suffered possibly a fractured skull in addition to bruises and lacerations.

Hoban went to the City Hall and surrendered to the police. He was released on his own recognizance for a hearing today.

GERMAN TROOPS ON FRONTIER ASK THE SWISS FOR FOOD

Say They Have Not Eaten Meat for Weeks

GENEVA, May 18.—German soldiers along the Swiss-Alsatian frontier, chiefly elderly men of the Landsturm, have begun to ask food from the Swiss soldiers. The Germans say they have not eaten meat for weeks.

Five German soldiers in uniform, although fired upon, escaped across the Swiss frontier at Rodersdorf, near Basel, yesterday. They were interned at Berne. The Neue Stuttgarter Zeitung says the food situation in Rhine towns is becoming intolerable. The newspaper advised the Government to take drastic measures to change the mode of living of the people. It suggests that cooking in private families be prohibited and that the population be ordered to eat at common restaurants, where meat would be served once daily, at noon, and only vegetables in the evening.

Eighteen German cattle dealers arrived in Basel yesterday, hoping to buy cattle, which are becoming scarce.

'OLD FOLKS' DAY TO REVEAL MARVELS AT CIVIC EXPOSITION

Modern Inventions Will Interest Visitors From Institutions for the Aged as Well as Young Folk

OTHER SPECIAL PROGRAMS

Women's clubs and temperance societies have had their day at the Philadelphia Today and Tomorrow Civic Exposition, which is being held at the Commercial Museum, 34th and Spruce streets. Today will be dedicated to the "Old Folks." The special days to come are as follows:

- Friday, May 19—Church Day.
- Saturday, May 20—Boy Scouts' Day.
- Monday, May 22—Young People's Society Day.
- Tuesday, May 23—State Editors and Publishers' Day.
- Wednesday, May 24—Suffrage Day.
- Thursday, May 25—Good Roads Day.
- Friday, May 26—Walnut Street Day.
- Monday, May 29—Adult Bible-Class Day.
- Thursday, June 1—City Day.

Institutions for the aged will send their memberships today, and the old folk will mingle with the young folk of whom there will be, as usual, 10,000 from the public and parochial schools of Philadelphia. Thus far the attendance during the day has been chiefly of children, with women second in numbers, although at night the exposition building is crowded with both sexes of all ages.

Everybody is greatly interested in the army and navy exhibits, since these are the days of preparedness. The process of manufacturing munitions is shown by machinery under the banner of the Frankford arsenal. Shrapnel is exhibited in glass jars. The different kinds of rifles used by the army since the days of the Civil War also prove interesting.

Perhaps, however, the navy exhibit is the greater of the two attractions, for torpedoed steamships have recently been quite numerous, and the navy displays a torpedo that can go through the water at 42 knots

of about 52 miles an hour. It weighs 2577 pounds.

"If it misses its mark they will be wanting a lot of brass," said one man today. "But, oh, if it hits!" sighed another.

A Hotchkiss revolving cannon, not now in general use, having been succeeded by a smaller and much lighter gun of higher velocity, is also included in the exhibit, as well as an automatic machine gun with the ability to fire between 400 and 500 shots a minute.

Uncle Sam has another "machine gun" in a booth near the 34th street side of the hall that is attracting considerable attention. It is the canceling machine, electrically connected to cancel letters at the rate of 233 per minute. This and the parcel post are the chief exhibits of the postoffice, which, at the booth, transacts postal business at present transacted by any substitution.

One of the commercial exhibits is that of the United Gas Improvement Company, which gives the interior room of a home in which gas lighting is used exclusively. This exhibit, naturally, shows to best advantage at night. The miniature house occupies a space of 29 by 38 feet and contains a laundry, kitchen, dining room and living room.

Theatre Manager Buys Property

Announcement was made in Camden yesterday that Abe Greenberg, owner and

manager of the Grand Theatre, Broadway near Mickle street, has purchased the property of Charles Poulon, 305 Broadway, adjoining the Grand Theatre. It was stated that plans are under way to rebuild the Grand Theatre and make it larger. The new building will have a frontage on Broadway of 62 feet and a depth of 125 feet. The seating capacity of the house when completed will be about 1600.

Hold Bottlers for License Violation

CHESTER, Pa., May 18.—Six Philadelphia men were held last night in jail for court by Alderman Berry on charges of selling liquor without a license. They are Frederick Roebuck, Charles Cubbler, Joseph Straubmiller, Frank Ross, Charles Knorr and Albert Bolk. It is alleged the bottlers allowed their drivers to come into Delaware County and sell intoxicants from their wagons without taking out a license in Delaware County.

This Six-40 Seven-Passenger Chalmers—\$1450 Detroit

\$9,000,000 of these Six-40 Chalmers have been bought by persons who had intended paying \$2,000 for a car

They took one look; were surprised a car of such size could be obtained for the money; drove around 10 miles in her—and bought.

They laid down the astonishingly small sum of \$1450 plus the freight, and mentally noted a saving of \$550.

For the men who are driving the Six-40 Chalmers today are the kind who have been thinking motor cars in terms of \$2,000.

They have had more surprises than the price, too. They have found the Six-40 Chalmers to possess more room than any seven-passenger car of the day under \$2500.

Most persons are pretty particular about room. I do not know just how to express the ROOM in this car.

Dimensions in inches do not tell the story. I simply spell the word in capital letters. Then you find later I have understated the case.

Surprise No. 8 that will stir your emotions is the great big subject of color options.

Now in these days when most cars resemble hearses in their soberness, or the "back drop" in a new musical comedy in their color excitement, here comes something refreshing.

You can get a Six-40 Chalmers in any of these colors:

Oriford maroon or Valentine green with hoods to match.

Meteor blue with black hood.

Just think that over. And remember this is the only car under \$2,000, so far as I have ever learned, that provides for you a color range like this.

Colors are getting just a little more important every day. I find most men, and particularly most women, have their own ideas about color—just like the decorations in a library or a living room.

Now there's one more big item about the Six-40 Chalmers. It's too bad I can't set that down as Surprise No. 4.

Some secrets cannot be kept. Nearly everyone knows what a fine beast she is on the road. She certainly can perform.

They know that her real name is Six-40 Performance Chalmers. She has a reputation on a hill like Caesar had with his armies. She has a reputation for responsiveness that every traffic cop in America is well aware of.

She has, like a great baseball pitcher, "everything on the ball." She is good at low speeds, good at high speeds, good on the hill, good on the long march, good on the short haul.

She's a fine animal. As fine as any you'll ever run across in 10 parangs.

I drive her myself. She's my preference. But the big thing, of course, is that men with clear minds and rare judgment have laid down \$9,000,000 on her. If you are wise you'll never question success—a success like the Six-40 Chalmers.

Ask me about Chalmers service inspection coupons, negotiable at all Chalmers dealers everywhere. This system is a most important consideration in buying your car.
