PHILADELPHIA OPENS ATTACK ON KINGDOM OF DIRT AND DANGER

Battle of Clean-up Week Will Rage Without Interruption During Next Six Days

Philadelphia's army of 1,600,000 men, women and children, having been mobilized during the last three weeks, today began its long-expected move upon the forces of the Triple Alliance, Germs, Microbes and Bacteria, which, under the command of General Rubbish, Waste and Careless, have been strongly entrenched for nearly a year in back yards, ash heaps, cellways and sties.

That punishment was effective for a while, but for months past the recuperative powers of the enemy have been apparent, until today the situation is again acute.

VOTE FROM 20 COUNTIES FOR DELEGATES MISSING

Latest Totals Show W. S. Aaron, Brumbaugh Man, Has Replaced W. Freeland Kendrick

Returns from 20 of the 47 counties in the State on the vote cast at the primary election last Tuesday for delegates-at-large to the Republican National Convention are still missing. The totals so far available show little change in the list of those who were elected, except that William S. Aaron, of Altoona, Brumbaugh candidate, who headed the list on the ballot, has replaced W. Freeland Kendrick, of Philadelphia, and apparently has been elected. Mayor Smith is 14th on the list, but is less than 2000 votes behind Guy W. Moore, of Wilkes-Barre, who is 12th.

'A Mistake in the Policy of the Bethlehem Steel Company To the People: The Senate of the United States has passed a bill to spend \$11,000,000 of the People's money to build a government armor plant. The measure is now before the House of Representatives. It is said that manufacturers of armor have "gouged" the country in the past, and that a government plant is necessary to secure armor more cheaply. The mistake of the Bethlehem Steel Company has been that it has kept quiet. We have allowed irresponsible assertions to be made for so long without denial, that many people now believe them to be proven facts. We shall make the mistake of silence no longer. Henceforth we shall pursue a policy of publicity. Misinformation will not be permitted to go uncorrected. It is and has been the policy of our Company to deal with the American Government fairly and squarely. We shall henceforth place the details of our relations with the Government before the American People. The United States has for twenty years obtained the highest grade of armor and has paid a lower price for it than has any other great naval power. Figures officially compiled for the Senate Committee on Naval Affairs from the Naval Year Book show that under conditions prevailing just before the European war, the chief naval powers of the world were paying the following prices for armor: England, \$563 per ton; France, \$460; Germany, \$490; Japan, \$490; UNITED STATES, \$425. A government plant cannot make armor any cheaper than we can do it; and— We are prepared to manufacture armor at any price which the Government itself shall name as fair. THAT BEING SO, SHOULD \$11,000,000 OF THE PEOPLE'S MONEY BE WASTED TO BUILD A GOVERNMENT PLANT? CHAS. M. SCHWAB, Chairman. EUGENE G. GRACE, President. Bethlehem Steel Company'.
