DEVON, Pa., June 1 .--- Breeding classes in which horses from the biggest stables in the country were shown made up the greater part of the third day's offering at the Devon Horse Show here today. But the day was not without the possibility of day was not without the possibility of thrills. Spectators who have gasped at the sight of two horses rising abreast, a few inches apart over four-foot jumps, will have a view of three, and late in the after-noon, four animals running abreast, put at four jumps. The possibility of injury, ever-present in the jumping events, will be heightened to a degree. The smallest crowd seen yet filled a few seats in the stand during the early hours of the show. Eleanor Sears, of Boston; Mrs. Dobson Altemus, who arrived early in a limousine; Miss Amy du Pont and Wil-liam du Pont, Jr., were almost the only spectators during the showing of three jumping classes.

The weather is the finest yet. No one complained about it the first two days, but this, the third, is perfect. A gentle south-weat breeze blowing across the field and the stand brilliant under a cloudless sky made a picture lacking only bright costumes and the stirring of a crowd for perfection. The morning opened with the abowing of five classes of saddle, harness and draft horses, entered in the names of the Uni-versity of Pennsylvania, Rutgers College, Delaware College, and the Williamson School, by students attending the institu-tions. Bronze medals were the prizes. The entry list was pretty well filled in each class. The "students' judging contest," as the college events are known, was run off in the second ring, at the east end of the field, where most of the pony classes have goods have been steadily displacing European wares on the Brazilian markets until this country leads both Great Britain and Germany, where but a few years ago she was a poor third to them. field, where most of the pony classes have been shown.

Mary Garden, who has just returned from hospital duty in France, 30 pounds thinner than when she went there, was the honor guest at a dinner given last night by Mr. and Mrs. A. J. Drexel Biddle at their home, 2104 Wainut street.

**RADIANT MARY GARDEN** 

2104 Wainut street. In a gown of pink chiffon, which had a bodice cut extremely decollete, and a short skirt with a marvelous pannier effect, she looked more like a debutante at her "coming-out" tea than the singer whose name has been a synonym for all the glories of the human throat for years and years.

of the human throat for years and years. The loss of the 30 pounds, it was ad-mitted, no doubt had its part in her radi-ancy. What may have contributed to it also, it was thought, was the knowledge that she had just signed a contract to sing for the largest salary ever paid a woman. Two thousand dollars a night, she said, is what she will get next season. The con-tract hes been signed with the Philadelphia-Chicago Opera Company as the party of the first part and the Titian-haired beauty as the party of the second part.

She had another announcement, which she made quite casually. It is that her premier next season will be in the title role of Aphrodite. She seemed to take it for granted that her Venus makes up in its su-preme artistry for any daring in its costum-ing, posing and phrasing.

ing, posing and phrasing. Miss Garden came over from New York especially for the dinner. She is the house guest of Mr. and Mrs. Biddle, and will leave late this afternoon to return to that city. She wore jewels which are estimated to be worth all the way from a quarter to a half million dollars. Her left arm from wrist to shoulder was entwined in a spiral of pearls. Her throat was encircled with a "dog-col-lar" of the same gems. A double rope of the same jewels was suspended as a neck-lace to below her waist. Her fingers flashed and sparkled with a multitude of diamonds and sparkled with a multitude of diamonds dinner rings. She wore three diamond bracelets.

In one word the prima donna gave her ecipe for eliminating annoying avoirdupois. It was "work."

It was "work." "To nothing but work can I attribute the loss of 30 pounds while in France," she said. "I didn't diet at all. Any woman who is too fat to suit her ideas can reduce by resisting all temptations to be lazy." Miss Garden in France conducted one hospital at Versailles for soldiers and an-

other on the outskirts of Paris for refugees. She sang at the Opera Comique in Paris a number of times during her absence from this country and contributed all her earn-ings to her hospitals. She returned to New York two weeks ago.

Among the guests at the dinner in her honor last night were Bishop Darlington, of Harrisburg; Dr. and Mrs. James M. Anders, Captain Robert Lee Russell, U. S. N., commandant of the Philadelphia Navy Yard at League Island, and Mrs. Russell Captain Logan Feland, U. S. N., and Mrs. Feland, Lleutenant Keyper, U. S. M. C. Mrs. Harrison Smith, William H.
