"And atill she don't answer my question,"
declared the wife hunter as he was led
sway to the police station.
"I'll appear and better the policy station."

away to the police station.
"I'll appear against him in the morning,"
said the woman.
But when the prisoner, who said his
name was Frank Herms, of Tamaqua, was
arraigned before Magistrate Baker his fair
accuser did not appear.

name was Frank Herms, of Lamaqua, was aralgaed before Magistrate Baker his fair accuser did not appear.

Herms said if he was in the wrong he would gladly apologize. He admitted that he asked the woman if she was his wife. "Tou see," he said, "I've been corresponding with a woman by mail. I never saw her. But she got to like me through correspondence. She said she would meet me at 5th street and Snyder avenue. She described what she looked like and when this woman I spoke to come along I thought she was my sweetheart of the mails. It was agreed that I was to say, "Are you my wife?" and I did. Now that the woman didn't show up I really believe she was the right woman. She was probably disappointed when she saw what I looked like." "Well, you'll have to get a better clue to your mysterious sweetheart," said the judge. "You cannot go about the streets asking each woman if she's your wife for your liable to land in a hospital and perhaps the morgue."

On promising to get more definite information concerning his loved one, Herms was discharged.

The price of the new

"Handy Volume" Issue of the

New Fncyclopaedia Britannica (11th Ed.)

will be increased by \$11 to \$19 per set

War

The great bargain we offer-the new Encyclopaedia Britannica, unabridged, complete, in a new handy form at an unprecedentedly low price-was all created before the war, the preparations, contracts and purchases made. We could offer this bargain, we could make these prices, only because of huge purchases at very low prices and great economies in manufacture. We could not do it now; nor can we obtain any more sets at anything like present prices.

After next Saturday you will have to pay from \$11 per set to \$19 per set more (according to the binding) for identically the same work.

If you are thrifty, you will save this money; if you are careless, hesitating, you will lose it,

-because you need the Encyclopaedia Britannica in your home. Your family needs it; the children especially. And if it is the right kind of a home you will

Remember, after you receive the complete set of 29 volumes you have three full weeks in which to make up your mind whether you want to keep them.

only paid now brings you this splendid reference library

The Tremendous Cost of the New Eleventh Edition

seems almost unbelievable to say that a million and a half dollars could be spent on any single set of books (especially if these books were to be sold for a total of fifty or sixty dollars). Only one work in the whole history of publishing has ever cost so much and that is the new Eleventh Edition of the Encyclopaedia Britannica.

It cost this enormous sum first of all because it is a work of the highest authorities in every field of human knowledge. It could have been compiled by hack writers for a tenth this sum; but it would not have been the Encyclopaedia Britannica. The contributing staff includes representatives from 81 different universities in 21 different countries, and from 65

other colleges, a total of over 700 university and college experts. And all of these have won distinction in their especial fields. The 1500 contributors furnished a total of over 40,000 articles. Every one of these 40,000 articles had to be verified, edited, compressed and trimmed into its allotted space. Thousands of these articles were submitted to two or more experts for

It is this sort of patience and thoroughness and prodigal outlay which has made the Encyclopaedia Britannica the one work of its kind in all the world. If you buy anything else you buy something inferior—something cheaply made, just to sell. revision and criticism.

A Library To Be Proud Of

If you have a taste for a smartly kept home—whether large or small if in that home you have a well-selected collection of books—whether it be large or small—

if in your conversation you reveal a knowledge of books and events and history and it your children are bright and well-informed—

you inevitably gain distinction in the eyes of your neighbors and your friends.

Towards all this the possession of the Encyclopaedia Britannica contributes immensely. Everyone knows that it is the greatest reference work in the world— the highest authority—the last word.

From it you can cultivate as richly stored a mind as most people get from the finest university training (and the odd thing to it is that the 41,000 articles of the Britannica form a mine of interesting reading as well).

dollar, with the order form adjoining, brings you the complete work.

What Every Woman Should Know

In these days of Woman's Clubs, Suffrage meetings, Better Mothers, Better Babies, and Better Homes, the modern woman must be far better "prepared" than the woman of former times. But very few women have any real chance to gain a

But very few women have any real chance to gain a thorough education or really to learn much. Not one woman in 200 in the United States goes to college.

This is just why the Encyclopaedia Britannica has been such a splendid uplift and aid to many brilliant women, and to lots of others who just want to know a little more than they do. Mrs. Kate Waller Barrett, President of the National Council of Women, says that her children were very largely brought up on the Encyclopaedia Britannica and that she herself owes to it an immense debt.

In hydreds of women's clube it has already become known.

In hundreds of women's clubs it has already become known as an unfailing source of reference in debates and discussions. Actually many women's clubs have purchased it.

Almost every woman in the land can now own the newest edition of the Britannica in the daintiest and most attractive form in which this or any other encyclopaedia was ever issued. And the volumes of the Britannica lend an unusual stamp of distinction and refinement to every home in which they are

A Miracle of Compactness

If you are familiar with the older issue of the Encyclopaedia Britannica, you instinctively think of it as a huge work in 25 to 35 volumes, occupying eight feet or so on your bookshelves.

The 29 volumes of the new "Handy Volume" Issue take up only 32 inches on the bookshelf and weigh only about 50 pounds.

Yet every one of the 30,000 pages of the great Cambridge University issue is here, without the abridgment of a line or a word. In the handsome bookcase here shown you can pick it up and move it anywhere you like (or put it in your trunk and take it off to the country with you if you like).

And each volume, printed on the beautiful India paper, is so light that you can hold it in your hand and read for an hour with no sense of fatigue.

Never was any great work of reference issued in such a compact and handy form. And the amazing thing of it is that it actually costs you only one-third the price charged for the larger-sized Cambridge University issue of identically the

See our guarantee below. An order form is in the adjoining circle.

Our Absolute Guarantee

We Guarantee that the "Handy Volume" Issue is authorized by the publishers of the new Encyclopaedia Britannica; that its contents are identical, page for page (including every map and illustration), with the Cambridge University issue now selling at three times the price; that it is manufactured by the same printers and hinders as the more expensive book that tits printed on the same quality of India paper, from newly made plates; and that, because it is smaller, it is easier to handle than the Cambridge issue.

We Guarantee complete and entire satisfaction with the contents of the Eccyclopeedia Britancies and with the form of our "Handy Volume" Issue To sayone, who for any reason is not estimated and returns the set within three weeks, we guarantee to return all he has paid limiteding shipping
