COMPANIES DECLARED OFF John N. Willys Says Complications Made It Impossible

NEW YORK, June 14.—John N. Willys, president of Willys-Overland Company, this morning issued the following statement: Because of complications the proposed mo-tor consolidation has been abandoned. Therefore, the Willys-Overland Company, the Hudson Motor Car Company, the Chal-mers Motorcar Company and the Autolite Company will continue to operate inde-

pendently.

In official circles it was impossible to obtain any further details regarding the abandonment of the proposed automobile merger, extreme reticence being shown on the part of all of those who have been ac-tively identified with the negotiations.

From a source well informed regarding the situation it was learned that the law yers handling the matter discovered cer-tain obstacles which appeared to be in-surmountable, and as a result they strongly

recommended the abandonment It was also learned that the bankers im-posed certain obligations on the manufac-turers, which the latter would not agree to and vice versa. The statement also was made that the question of personality played a riore or less important part in connection with the disagreement.

connection with the disagreement.

Obviously, failure to carry through plans
outlined, was not due to lack of participation on the part of the public to the offering, because the underwriting was more than twice subscribed and the subscriptions at \$60 per share, together with the withdrawals from the underwriting syndicate, were considerably more than the entire 1,300,000 shares that were to be syn-
