Councils Participate in Exercises Incident to Flag Presentation

Port Richmond Council No. 334 partici-pated in the flag presentation to the hall, wherein it meets, Saturday afternoon, and made an excellent showing. After a parade over the important streets of the vicinity, the various bodies meeting in the hall, in conjunction with 100 school children, halted in front of the stand erected for the band and speakers. After an appropriate pro-gram the Guards of Diligent Council No. 4 fired a salute that made all feel proud of Old Glory as it floated to the breeze,

The Good of the Order Association met Mon-day night with Union Council, No. 9, at 1958 Germantown avenue, and besides the usual im-portant order of business, reports were made by the Memorial, Parade and Excursion Com-mittese. The Excursion Committee expects to bave a large attendance on the trip to Wildwood, Saturday, July 22. All councils and members will be interested in making this a gale day.

The following baseball games will be played by the teams of the various councils Saturday attennoon next at St15: Integrity vs. Acolian, Add and Columbla avenue, Diligent vs. Fairview, Sath and Berks, and Loyal vs. Hamilton, 57d and Warrington avenue. Members are earn-estly lavited and urged to attend these games, which are played in the same maner as the pre-fessional league games.

DUT our opinion would not be of any particular importance to you if it did not coincide with the facts. We only want you to look the market over carefully. Then we absolutely know that you will agree with us.

In the first place there is the remarkable Maxwell engine. No four cylinder motor of its size has more "pep" or go to it regardless of the price of the car it drives. It will climb hills on high gear in a manner that will astonish you. It is quiet and works day in and day out with a sound, businesslike hum that is good to hear.

Any engineer will compliment the design of the chassis. And those who are not engineers cannot fail to note its simplicity and staunch construction. As for what it is made of, we can truthfully say that better material cannot be bought.

The operation of the car is simplicity itself-the brakes are powerfulthe springs are long and flexible-the axles are strong and the steering apparatus, like the rest of the chassis, is built to stand the most severe service the car may ever have to face, wherever or however it is used.

Then if you consider looks important, and most people do, you will not find a more attractive car than the Maxwell at anywhere near the price.

And it comes to you fully equipped with all the attachments you will ever want or need; electric starter and lights, demountable rims, one man top, self-ventilating, rain-vision windshield, etc. All for \$655 (five passenger, touring car) or \$635 (two passenger roadster).

We know you can't beat it.
