FEDERAL CONTROL OF NARCOTICS FAVORED BY "DOPE" EXPERT

Dr. Frederick S. Baldi, Physician at Moyamensing, Believes It Only Way to Conquer Evil

VICTIMS OF ASSOCIATION M'CORMICK MAY LURE

Expert's Views Regarding Treatment of Drug Users

Hamfacture and output of all narcotles should be under Federal control. Fighty rer cent. of dope flends are below to reach aid. Spare aid. First flends should be treated symptomatinarcotics of any sort must be given tents while under treatment.

Federal control of the manufacture and sciput of all narcotics, according to Dr. Frderick S. Baldi, physician at Moyamensus Prison, is the quickest solution for the arg evil. Doctor Baldi is a son of Chevature evil. Doctor Baldi is a son of Chevature evil. For years Doctor Baldi is been treating drug flends in this city. He is known to hundreds of "cokers." Some of the drug flends whom he has treated at the county prison were once prominent so-cally and also widely known in the business world.

Doctor Baldi believes that something must be done to amend the Harrison nar-ede act the way it stands now. He is also a firm believer in the complete eliminaton of all narcotics from patients while

ther are under treatment.

"A 'dope," " said Doctor Baldi, "must be losked upon as an individual whose moral resistance powers are nil. He cannot resist the environment in which he has fallen. I say fallen, because I believe 90 per cent. of all cases are accidental or through environment. The victim has fallen under the influence of an already habitual drug user.

"As to the kind or quality of drug used, that is much like the current styles or fashion. It depends upon which drug is the easiest to obtain and perhaps the cheap-at, because money is a great factor in this

without money he can't obtain the drug without money he can't obtain the drug to be a steady user. The price of the drug is of such a fluctuating nature, depending ugen the locality, and at present very high sad necessarily beyond the reach of not a few habitual users. The result of this is that the user or habitual has a craving; he must have the drug at any cost; but he has no money and consequently no friends, which is a natural course of events in this

The drug fiend must resort to means to set such money as is necessary to purchase. He is forced to steal, commit burgiary or highway robbery, and his life new becomes that of a liar and thief.

"After a careful study of the general make-up of patients who are addicted to the use of cocaine, morphine, heroin and other parcotics, it is found that 80 per cent. are below 30 years of age.

BELIEVES IN WITHDRAWING DRUG. "I believe in the absolute withdrawal of the drug at once from the patient, and not to substitute another drug, but resort to hydrotherapy and elimination of the drug, reasoning with patients and treating symp-tomatically, but absolutely under no cir-cumstances whatsoever should any narcotto be given.

"The proof of this treatment is that ex-cellent results are shown in no less than 24 hours for mild cases and not more than five

days for the most severe cases.
"I do not put much faith and do not be-lieve in so-called cures. I feel that the so-called suffering of the 'dope' after the drug le withdrawn is an ingenious device to arouse pity and sympathy of a tender-hearted friend, relative, nurse or even a FOR FEDERAL CONTROL.

"In my opinion one of the quickest so-lations for this 20th century grave problem a Federal control of the output and manu-facture of all narcotics. If the Federal athorities choose to put the responsibility con the State, then the State could help coulder the burden, with the Federal Gov-sument primarily responsible.

Something must be done to amend the son narcotic act, for it must be fully drug evil is growing rapidly, steadily and like cancer, because what we see on the surface does not begin to compare in quantities or quality with what lies hidden in this vast population of sura as yet undisturbed."

"NAVY DAY" TO BE STAGED TOMORROW

U.S. Transport to Be Launched and Many Other Interesting Features Promised

The fourth anual Navy Day will be staged at the Philadelphia Navy Yard tomorrow from sun-up until midnight.

With everything in readines for the occasion, which will assuredly eclipse previous similar occasions, the verdict of the weatherman is all that originators of the affair swait.

The launching of the new United States transport Henderson, a big 10,000-ton ship, will be the big event of the day to many brisons because of the fact that it marks a new era in the work of the navy yard hera. The transeport has ben built at a saving of more than \$200,000 to the Government.

Athletic events will be numerous. Pro-taion has been made for an appeal to every tas of visitor expected to throng the yard. A track meet, a baseball game, relay rices and contests form the athletic side of the celebration, while a sham battle between opposing companies of marines will rove, it is said, as popular as has been the said during the last three years.

A new departure in maneuvers will be the flight of three hydroaeroplanes, which will circle around the yard and perform convolutions. The flight has been arranged with the co-operation of the Pennsylvania asso Club and the Essington School of Flysig.

"VANCE M'CORMICK IN 1920"

Revenue Collector Lederer, Elated Ove Selection of National Chairman, "Nominates" Him for Presidency

Vance McCormick for Democratic Presidential candidate in 1820.

This was predicted today by Collector of Internal Revenue Ephraim Lederer. He was jubilant over the selection of Mr. McCormick by President Wilson to direct the campaign for the President and predicted that he would prove a national figure through his aggressive leadership.

PENNSYLVANIA MOOSE TO VOTE FOR WILSON

Editorial in North American Arouses Suspicion of Attempt to Throw Washington Party to Democrats

HUGHES' COURSE ASSAILED

An editorial published in today's issue of the North American, the Progressive organ in this sity, under the caption "The Em-barrassment of Mr. Hughes," gave rise to widespread speculation in political circles an to whether the position of the North American might mean an attempt to throw the Washington party vote in this city to President Wilson and the Democratic ticket Instead of to Mr. Hughes. In this connection it was pointed out that

President Wilson and the Democratic ticket Instead of to Mr. Hughes.

In this connection it was pointed out that Vance C. McCormick had been named to conduct Mr. Wilson's campaign. In the last gubernatorial campaign in Pennsylvania the Progressives nominated William Draper Lewis, of the University of Pennsylvania, to lead their standard, and later, after a series of conferences with the Democrata, Mr. Lewis withdrew in favor of Mr. McCormick. The Democratic nominee was then given the strongest support by the Progressive leaders, and late in the campaign Colonel Roosevelt made a whirlwind tour of the State, speaking in his interest as well as that of the rest of the ticket.

The Washington party men in this city and throughout the State, it was declared, therefore, might logically be expected to follow Mr. McCormick in the presidential campaign and throw their vote to President Wilson.

Considerable color is lent to the rumor of an alliance between the Democrats and the Progressives by the efforts of the leaders n the Democratic Convention at St. Louis to frame a platform which will be acceptable to the Progressives. While the platform will not include such radical legislation as the initiative, referendum and recall, it is likely that it will contain certain planks which have been indorsed by the Progressives. The editorial in the North American cores Mr. Hughes for his failure to make t clear to the American people that Ameri-canism is his overshadowing ideal, and coints out that the German-American hychenated element in the country is jubilan

phenated element in the country is jubilant over his nomination.

E. A. Van Valkenburg, editor of the North American, and one of the State Progressive leaders, when asked regarding the significance of the editorial, denied that it had any political meaning.

"The editorial," he said, "is merely a plain discussion of facts. What Progressive Progressive

plain discussion of facts. What Progressives will do no one will know until the National Committee meets in Chicago on

PHILADELPHIA ELECTRIC TO ERECT AN IMMENSE PLANT AT CHESTER

Purchases Plot of 22 Acres on the Delaware River From National Tube Com-

LARGEST IN THE COUNTRY

The Philadelphia Electric Company has just completed the purchase of 22 acres at Chester, Pa., on which it proposes to erect what will likely be, when completed, the largest and most modern power plant in the

The site was purchased from the Nationa Tube Company, a subsidiary of the United States Steel Corporation. It is located in South Chester, on the Delaware River, be-tween the plants of the Delaware Steel Company and the Seaboard Steel Company. T. Woodward Trainer, the secretary of

T. Woodward Trainer, the secretary of the Chester Chamber of Commerce, who was largely instrumental in bringing about the sale, says the negotiations were completed about 10 days ago and that the Philadelphia Electric Company's engineers and men are at present on the ground arranging for the erection of the huge plant. The negotiations, he said, were in progress for fully two months before they were concluded. The National Tube Company had never erected any plant on the ground, so the work will not be impeded by costly removals and can be begun at once.

Mr. Trainer says the crection of the new

Mr. Trainer says the crection of the new tructure will give employment to from 500 to 700 men, and the completed plant will probably employ about 300 high-grade men permanently.

At the executive offices of the Philadel-phia Electric Company, 10th and Chestnut streets, A. V. R. Coe, the secretary of the company, acknowledged the purchase, but company, scanowinged the putchase, outsaid all the arrangements were not quite
complete as yet. Its intention, he said,
was to erect a plant on the site and to increase its size from time to time by the addition of large units somewhat similar to
the most recent unit which it added to its
plant at 22d and Christian streets, which is the largest in America, if not in the world. The Philadelphia Electric Company, Mr. Coe explained, is merely a "holding" com-

pany for subsidiary companies which it controls, the principal of which are the Beacon Light Company, of Chester, which Beacon Light Company, or Chester, which supplies light and power to Chester, and the Delaware County Electric Company. The new plant, said Mr. Coe, will be a part of the Beacon Company. All the plants will be connected and will work in harmony with each other.

Besides supplying light and power to Philadelphia and suburbs, including Ches-ter, the Philadelphia Electric Company has contracts to supply power for a long term of years to the Philadelphia Rapid Transit Company and also to supply the necessary current for the electric lines of the Penn-sylvania Railroad between Broad Street Station and Paoli.

SEA CAPTAIN GETS D. S. C.

King Honors Officer For Services in Dardanelles

According to advices received from London, the King has approved the award of a number of decorations in connection with operations of the British at the Dardanelles. Captain H. J. Young, who is now in this port, was among those mentioned. He received the Distinguished Service Cross for good work off the Peninsula, where his ship was set ablase by enemy shell fire. Captain Young has traded between London and Philadelphia for a number of years on the Philadelphia Transatlantic Line in command of the British steamship Line in command of the British steamship East Point. For almost a year his vessel has been under charter to the British Admiralty as a transport.

AVIATION SCHOOL LOSES PLEA River a Public Highway, Ruling on Anchorages

Robert Glendinning, president of the Philadelphia School of Aviation, has been informed by George F. Sproule, secretary of the Commissioners of Newigation, the board could not grant him a clear frontage on the Delaware river, at the aviation camp at Easington

Easington.

Some time ago Mr. Glendinning sent a complaint to Director Webster, of the Department of Wharves, Docks and Ferries, that vessels anchoring in front of the camp made it difficult to handle flying machines. He asked to have this place cleared. Director Webster turned this matter over to the Commissioners of Navigation, who ruled that the Delaware river was a public highway,

MINERS RETURN TO WORK Reading Company Men's Differences Up to Conciliation Board

POTTSVILLE, Pa., June 16.—After having been out on strike for several days, the greater part of the 8800 employes of the Knickerbocker, Maple Hill and Ellangowan collieries of the Philadelphia and Reading Coal and Iron Company returned to work today pending a settlement of the differences by the Anthracite Conciliation Board. The grievances arose out of the effort to put in operation the eight-hour-a-day clause of the agreement adopted by the conferces of the miners and operators.

A few of the strikers refused to return.

LUTHERANS ADJOURN WITH ORDINATION OF 11 MEN TO MINISTRY

Convention Closes Annual Session After Transaction of Much Important Business by Ministerium

WILL MEET HERE IN 1917

READING, Pa., June 16 .- Eleven young men who have chosen the ministry of the Gospel as their vocation were ordained at an elaborate service in Trinity Lutheran Church here last night, marking the close of the 185th annual convention of the Evangelical Lutheran Ministerium of Pennsylvania and adjacent States, which had been in progress during the last week. been in progress during the last week.

A very touching point in the address of
the Rev. Dr. Jacob Fry. of Mount Airy
Seminary, to the newly ordained ministers
caused a tremor to be felt in many hearts. Doctor Fry said:

"You are entering the ministry of Christ, as I am nearing its close. You have your life before you; mine is entirely behind me. Sixty-three years ago I was ordained a minister in this very church."

The officers of the Synod presided over the ordination. The Rev. Dr. J. A. W. Haas, who does not retire as president until September, headed them. The others were the Rev. W. L. Stough, the Rev. H. D. E. Stebott and the Rev. H. A. Weller, the newly elected president. The rite of ordination was conferred impressively. ordination was conferred impressively.

Those ordained were: Harvey P. C. Cressman, Eimer R. Deibert, David H. Frederick, Robert H. Ischinger, Otto C. F. Janke, William K. Katz. Charles E. Keim, Wallace R. Knerr, Robert H. Krause, Michael M. Kipps and John I. Meck.

The newly ordained ministers received communion administered by the minister-lum officers.

At the close of the services many friends and relatives of the newly ordained min-isters extended congratulations. All have answered calls and several will go to for-eign missionary fields.

Doctor Fry was the beloved pastor of present. One of the last acts of the cioning Trinity for more than 10 years. pession was to choose Philadelphia as the present. The of the last acre of the about mession was to choose Philadelphia as the place for holding the convention next rent. A recommendation was passed for the crecifor of a monument to cost not more than \$10,000 to Henry Malchor Muhlenberg, founder of the Lutheran Church in America. The monument is to be placed in some conspicuous place in Philadelphia, and the conversations and their organizes. and the congregations and their organisa-tions of this ministerium are asked to con-

The final business session of the min-interium was a busy one. A great amount of detailed routine business occupied every moment of time. Several times during the course of the proceedings sharp discus-sions arose but no serious disagreements

Darby to Have Animal Pound Isters extended congratulations. All have answered calls and several will go to foreign missionary fields.

The convention just closed was one of the missionary fields the most important ever held by the mining isterium. There were about 500 ministers branch are interested in the project.
