

PHILADELPHIANS WIN MOST OF THE PRIZES IN PHARMACY CONTEST

State Association Ends Its Convention After Announcing Awards in Various Competitions

WOULD ENFORCE DRUG LAW

READING, Pa., June 23.—After being in session here since Tuesday, the 139th annual convention of the State Pharmaceutical Association closed today with the awarding of prizes won in various competitions.

The new president, Adolph P. Schmidt, of McKeesport, appointed these committees: Entertainment—Peter G. Walter, of Pittsburgh; D. M. McMurtrei, of Altoona; Carl Saalbach, of Pittsburgh; A. H. McFerrin, of Philadelphia.

Publicity—Louis Stahlbach, of Pittsburgh; Edgar F. Hoffman, of Lock Haven; Charles H. Lawall, of Philadelphia.

The association adopted important resolutions affecting the Harrison law, the State cocaine law and the Stevens bill. Under the Harrison drug law the State druggists will hereafter work in conjunction with the local authorities in determining who are illegal users of drugs.

Under the Stevens bill the State druggists will hereafter work in conjunction with the local authorities in determining who are illegal users of drugs.

The contest which aroused greatest interest was that for the best paper presented at this session. Thirty-five pharmacists took part in the competition, which was won by Professor Charles H. Lawall, of Philadelphia, who was awarded a prize of \$20 for a paper on "What is Rice Powder?"

The first prize in the observation contest for ladies conducted on the Mount Penn tower on what they had seen from that prominence was awarded to Mrs. John Wrigley, of Philadelphia. The prize was a mourning watch.

The contest which aroused greatest interest was that for the best paper presented at this session. Thirty-five pharmacists took part in the competition, which was won by Professor Charles H. Lawall, of Philadelphia, who was awarded a prize of \$20 for a paper on "What is Rice Powder?"

The men's shooting contest was won by Mrs. Swartz, of Reading. Mrs. Henry Ditler, of Reading, was second. Mrs. Walcott, of Philadelphia, and Mrs. Potts, of Philadelphia, were awarded third and fourth prizes. Mrs. Boyer, of Reading, won fifth prize.

The men's shooting contest was won by H. F. Barlow, of Philadelphia. His prize was a gold knife. Second prize went to E. H. Krauss, of Philadelphia. Third prize went to Turner, of Philadelphia.

LEDGER BALLOON DEFIES DESTROYING FLAMES

Will Float Over Philadelphia in Ad Convention Week Despite Fire in Aerodrome

The EVENING LEDGER and Public Ledger dirigible balloon will float over Philadelphia every day during ad convention week in spite of a fire which swept the aerodrome of A. Leo Stevens in North 5th street Wednesday, destroying the dirigible which Stevens planned to bring to Philadelphia.

With his characteristic resourcefulness, Stevens enlisted a corps of mechanics and seamstresses and began the reconstruction of another dirigible. Today all of the framework was finished and the envelope consisting of 300 separate pieces of silk is nearly completed.

The fire will set Stevens behind only one day in his plans. Instead of beginning the Ledger flights on Monday as scheduled, they will begin Tuesday. An express car has been chartered to bring the dirigible to this city, where it will arrive tomorrow afternoon. It will be taken to Fairmount Park where it will be inflated.

The dirigible will be inflated. For the inflation of the envelope, Stevens ordinarily generates his own gas, using 17,000 pounds of sulphuric acid and seven tons of iron filings. To expedite the filling of the bag, however, a contract has been let to a local firm for the generation of the gas before his arrival. The gas will be compressed into tanks and will be awaiting him when he reaches Fairmount Park.

The big bag will bear on either side advertisements of the EVENING LEDGER and the Public Ledger. Stevens will fly over the city on Tuesday and will drop copies of both papers as bombs filled with confetti and talcum powder. Tuesday night the big dirigible will be seen over Franklin Field, where the aeronaut will take part in a military and naval spectacle. He will fly over the city again Wednesday afternoon and on Thursday afternoon and on Thursday night will take part in the marine pageant over the Schuylkill River.

WM. A. GLASGOW URGED FOR SUPREME COURT

Prominent Philadelphia Lawyer, Instead of Attorney General, Likely to Succeed Hughes

WASHINGTON, June 23.—There appears to have been a sudden and unexpected change in the announced plans to make Attorney General Gregory an Associate Supreme Court Justice. Following closely upon the news that Mr. Gregory had been decided upon by the President as the successor of Charles E. Hughes, the statement was made upon high authority today that Gregory had been eliminated.

President Wilson has been urged and is reported to be seriously considering the suggestion to appoint a Philadelphian to the Supreme bench. This Philadelphian is William A. Glasgow, Jr., of this city.

Mr. Glasgow is not a native of Philadelphia, although a leader of the Philadelphia bar. He is a son of Virginia and began the practice of law in Roanoke.

He early became counsel for the Norfolk and Western Railway Company, and his mastery of the intricacies of corporation law soon extended his fame beyond the confines of his native State.

He was still a young man—he is only 51 years old today—when he was appointed special counsel for the Interstate Commerce Commission, and in the investigations before that body he achieved a prominence and reputation that astonished the eminent counsel arrayed against him. He came to Philadelphia in 1904.

NEW STORE OPENS

Suburbanites Attracted by Latest Link in Robinson & Crawford Chain

The 69th store of the Robinson & Crawford system—the newest and greatest link in the rapidly growing chain of the "House That Quality Built"—was opened this morning at 3001 North Broad street, Fern Rock.

The store will be the Fern Rock headquarters for the Gold Seal brand of goods carried in the other 68 Robinson & Crawford stores.

Seek Assaults of Driver

Two unidentified men who dragged Morris Basen, 19 years old, of 807 North 5th street, from a wagon at Ridge avenue and School lane, are being sought today by the Manassas police. Basen is in St. Timothy's Hospital, suffering from injuries. Basen was driving a wagon owned by Koenig & Kinderman, of 421-423 North 2d street, when two men who were hiding in a vacant lot stopped the horse. They then pulled Basen to the ground and beat him into insensibility. The police believe that the motive was robbery.

This very smart new English model, distinctive and superior in every way, is the class for this season's stylish men.

At \$4, \$4.50 and \$5—except the Cordovan. We carry a great variety of leathers and styles whose smartness and value are beyond any.

ONE DEAD, THREE ILL; MYSTERIOUS POISONINGS PUZZLE TO PHYSICIANS

Little Girl Dies in Convulsions Without Throwing Any Light on Cause of Her Strange Illness

SPECIALISTS CALLED IN

Poison taken accidentally is believed to have caused the death of 6-year-old Katherine Robinson, of 6111 Elmwood avenue, and the serious illness of three other children in the family.

Katherine was taken ill on Wednesday. Her father, William Robinson, sent for Dr. B. Frank Wentz, of 6502 Woodland avenue. He said the child was suffering from gastro-enteritis, probably superinduced by poison.

The other children, whose illness is believed to be due to the same cause, are Charles, 2 years old; Lillian, 3 years old, and Florence, 7 years old.

Charles was taken ill Sunday and Doctor Wentz expressed the belief that he was suffering from the same illness that caused the death of Katherine.

The physician is being assisted by two specialists, who say the case is puzzling. There are indications that Charles is steadily growing weaker.

Directly across the street from the Robinson home is a truck patch on which strawberries are raised by Italians. A few days ago the plants were sprayed with paris green. As the Robinson children played around the plants there is a possibility that they ate some of the berries and fed them to the baby.

Examination of the children showed symptoms of arsenic poisoning, which may be attributed to paris green. Another theory is that the children drank from a spring near the home which has not been used for some time.

It also was learned that the children bought candy at a nearby store on Sunday. Detectives Giquley and Prinz obtained some of the candy last night and will have it analyzed.

The food eaten at the Robinson home is believed to be in no way responsible for the trouble, as none of the other members of the family were taken ill.

An inquest will be held today by the Coroner.

Biscuit Firm Pays Its Guardsmen

Officials of the National Biscuit Company announced today that all National Guardsmen who are called to the colors will be continued on the payroll, regardless of matrimonial status. When they return from service they will resume work at their positions.

Three Million Auto Tires made—by GOODRICH, in year 1915

The more Tires WE make, —the LESS they cost You!

THREE Million Auto Tires, made by Goodrich, in latest fiscal year of 1915! —With a huge increase, thus far, for 1916. Three Million Tires for Pleasure Cars, and Trucks, combined—exclusive of all Motor-Cycle, Bicycle, and Carriage Tires. A million more of such Tires than were made, sold, or even claimed, by any other Rubber Concern in America, during its latest fiscal year. A Fifty Per Cent greater VOLUME than the next greatest. One-fourth of ALL the Pleasure Car, and Truck, Tires made in America. Deduct that Goodrich 3,000,000 from the total American Tire production of about 12,000,000 Tires in 1915. Then divide the 190 (approximate) Makes and Brands, that compete with Goodrich, into the 9,000,000 residue. You will thus find the average Volume of all competing Makes and Brands to be about 45,000 Tires Yearly, per Make or Brand. Double that if you wish! Treble it!—QUADRUPE it! Even then you would have an IMPRESSIVE Comparison of Volume,—and all that Volume means to Cost-of-production, per Tire.

How this Concerns YOU!

STUDY the Price-List publicly printed to left of this,—and See! Compare with the List-Prices of other Tires made in LESSER Volume,—and See! Observe that competing Prices are higher in almost the exact proportion that VOLUME of production is smaller. This, when Quality approaches the Goodrich Standard. Cut our present Tire Output to One-third, and it would still far exceed the Average of all Competing Makes or Brands. But, that huge reduction in Volume MIGHT result in every Tire we made costing you One-third MORE than present prices. They would not,—and could not,—be BETTER Tires, at this necessarily higher-cost to us, and higher-price to you. Because,—Goodrich Tires are not made "up to a price,"—nor "down to a price."

WE, first of all, make the BEST Fabric Tires that our 47-year Experience in Rubber-Working,—our huge Purchasing-Power, and the most Advanced Equipment, renders possible.

Table with columns for tire sizes (e.g., 30 x 3, 32 x 3 1/2, 33 x 4), Ford Sizes, and prices ranging from \$13.40 to \$37.35.

GOODRICH Black "Barefoot" Tires

"TEXTAN" —Does for your SHOE Soles what black "Barefoot-Rubber" does for Goodrich Tire Soles. Wears longer than Leather! —Is Non-Slippery! —Is more Flexible than Leather! Is Waterproof! —Is Lighter than Leather! —Is EASIER on your Feet! Ask your Shoe Dealer, or Shoe Repairer, for Textan Soles on your next pair of Shoes.

PINKERTON HARDWOOD FLOORS. Nearly every modern home has hardwood floors. It may be "the fashion," but that's because it is the fashion to have the most artistic, the most sanitary and the most comfortable elements in the home it is possible to obtain.
