

SLAYS ENGAGE FOE IN BATTLE ON MOUNTAINS

The Carpathians Again Scene of Struggle Between Russians and Teutons

TOWN OF KUTI OCCUPIED

PETROGRAD, June 24.—For the first time in a year fighting is once again in progress between Austro-Hungarian and Russian troops in the Carpathian Mountains.

The right wing of the Russian army, sweeping through Bukovina, has crossed the Galician frontier, capturing the important town of Kuti.

The Austrians evacuated Kuti, a city of about 10,000 inhabitants, immediately after the capture of Vinitza, across the river, by a strong Russian detachment.

Nearly all of the Austrian crown land of Bukovina is now in the hands of the Russians. All the agricultural sections of the rich province have been behind the Russian lines.

Official dispatches from the front state that Austro-Hungarian troops from the Italian theatre of war are being sent into southern Galicia to try to prevent the Russians from breaking through into the plains of Transylvania.

Three separate battles are in progress north of the Galician frontier in Russia. One is raging on the Vladimir Volynsk line in Volhynia; another is taking place along the Oginski canal, between Logichin and Lake Wygonok, and the third is in progress between the forces of Field Marshal von Hindenburg and those of General Kurapatkin along the Dvina River.

It is reported unofficially that Austria is making frantic efforts to bring Rumania in the war on the side of the Teutons, offering as a prize part of Bukovina containing Czernowitz, and the third is in progress here, that Czernowitz is not Austria's to offer. It is firmly in the possession of the Russians.

CROSS FOUR RIVERS

The Russians in their pursuit of the Austrians thus far have crossed four rivers—the Dniester, Pruth, Siret and Bucovina. Two days sufficed to cover the 15 miles between the Siret and the Bucovina. The objective of the Russians was Tadauta, where the Austrians were expected to offer stubborn resistance, owing to the fact that the river forms a natural defensive line to the north and northeast of the town. But it appears that the Austrians failed to make any serious stand here, inasmuch as no fighting is described in the official communications.

Radeutz is only five miles southwest of the important railway junction of Hadikfalva, close to the Rumanian frontier, which also is in Russian hands. Virtually the entire railway system of Galicia is now in the possession of the Russians.

THE RUSSIAN BULLETIN

The official announcement, issued yesterday by the War Office, follows: In several sectors south of Dvinsk the Germans, after artillery preparation, endeavored to resume the offensive. They were unsuccessful everywhere.

At 11 o'clock on Wednesday night an engagement began along the line of the Ostrovetz Canal region at Logichin. The fighting was still in progress on Thursday evening. Many attempts to cross the canal by locks and fords failed. In the course of the fighting the gallant General Stegelmann was wounded and Colonel Berghorst died from wounds he had received.

Enemy airmen dropped bombs on the Molodchno station yesterday. Over all the front occupied by the army of General Hindenburg, and especially at Radziviloff, the enemy continues to receive reinforcements from the French and Italian fronts.

Our offensive in Bukovina continued. We occupied the villages of Gurahumora, Straitia and Sarach, west of Radeutz, and Vinitza, near Kuti. Eight hundred prisoners were taken.

FRENCH REGAIN TRENCHES LOST AT THIAUMONT

Recapture Large Sector Between Hill 321 and 320 in Attack

RETAKE OTHER GROUND

PARIS, June 24. In an impetuous counter-attack last night French troops recaptured a large part of the positions lost to the Germans in yesterday's violent fighting on the northeastern front of Verdun, the War Office announced today.

A large sector of the trenches surrendered to the Germans between Hills 321 and 320 was recaptured. The Germans were thrown out of the edge of the Thiaumont work, which they took in yesterday's fighting.

In the same attack the French recaptured all the trenches lost to the Germans on the night of June 21.

French reports from the Verdun front today indicate that the Crown Prince has resumed the drive on the fortress with a powerful attack almost equaling some of his earlier efforts.

The German drive forward to within three and one-half miles of the heart of Verdun, reaching the village of Fleury. Had they maintained their gains at this point the whole French position on the eastern bank of the Meuse might have been seriously threatened.

An immediate counter-attack threw the enemy back from Fleury in the direction of the Callette woods. The French followed up this advantage last night. By powerful blows against the German flanks and center they forced the enemy line back on a wide front.

While this furious fighting was going on on the east bank of the Meuse, a violent battle began last night on the west bank of the Meuse. The Germans again attacked French positions on Hill 304.
