Lusty-Lunged Guardsmen Take Old Tunes and Fit Words to Tell Their Opinion of Army Life and of Mexico

CAMP BRUMBAUGH, MT. GRETNA, Bands play and cheers sound when recruits June 28.—There's music in the air here. Some of it is martial, and some of it is just music-the sort of music which a group of lusty-lunged Pennsylvania National Guardsmen can make ring out over the Blue Ridge mountains. And the songs-well, they would bring

laughter and smiles even to the most solemn face, at this critical time. The boys have been having the times of their lives "making up" songs.

The favorite old ones are "America, I Love You" and "Pennsylvania, That Grand Old Keystone State."

P. men are mustered into the Federal service when they take their Day and hight, whenever the boys gather in groups, they sing "America I Love You." We'll hang old glory to the top of a tree

Many Tragic Scenes Staged at Mt. Gretna

Hundreds of telegrams pour into camp from anxious mothers, begging commanders not to send their sons

One widow came to camp to see her son who enlisted without her consent. She became hysterical. After sending his son to a military college, father appeared at camp and wept at the sight of his boy prepar-ing to depart for border.

A musician who enlisted in the National Guard of Pennsylvania three years ago has dependent upon him his aged mother and father, each past the four-score mark. Now that he has gone they have no one to care for them.

Babies by the score are brought to camp to kiss "Daddy" good-by. Strong hearts melt when these parting scenes are enacted.

There are heart throbs a plenty at the big camp, but most of them

will never be known.

Evening Ledger Staff Correspondent CAMP BRUMBAUGH. Mount Gretna June 28.—Heart throbs of a great camp would fill a book if one had the time to write them all.

Some of them are so glaring, however, that they are the talk of the camp. For instance, the telegrams that pour to

One father told with tears in his eyes of the little boy he left behind. The father is a captain in the 15th Regiment. Each summer for years he has been taking the lad to summer encampment to instill patriotism in him. When mobilization orders came there was a family circle of farewell bidders—the mother, five children, all under 15 and the father. The "little under 15, and the father. The "little soldier" and his father had been in-separable chums. Suddenly the lad bolted from the room. Soon afterward the father found him on the kitchen table, his head buried in his arms and sobbing as though his heart would break.

With Spartan pride and courage, the captain gulped down a lump in his throat and "Son, stand up and salute the cap-

And he did. With the tears streaming down over his chubby cheeks, for he is only about 10 years old, the boy stood at attention, saluted and then disappeared to control his pent-up feelings.

There is one man, a musician, who listed in a band some years ago. He him self is anxious to go to the front, but back home there is an aged couple close to the fourscore mark, who are absolutely de-pendent on him. When he stops working they have no one to care for them. When he enlisted his younger brother was still unmarried. Now the musician is the sole support of the parents.

"But I am not yellow-and I must go," said the young man, when talking of the heart throbs at his home.

Then there are the little babies, brought in the arms of their mothers, who come to kiss "Daddy" good-by. Strong men look on with moist eyes as they watch the touching "good-bys" or else turn their heads to hide their emotions.

Truly, those who have not seen a mobili-sation camp little realize the heart throbs it affords. They may read. They may hear. But they will never quite comprehend until they see.

'The present war has demonstrated that existing international institutions are unable to restrain the rush of national ambition bent upon realising its ends by an ap-peal to arms.
