## M'LISS DISCOVERS EPIDEMIC OF PERFECT EYEBROWS

The Wave of Superciliary Beauty Sweeping Over City Is Traced to Its Lair-The **Beauty Parlor** 

the large crop of delicately arched, e-perfect eyebrown that characterize the faces of so many Philadelphia girls. whose physiognomies would wise be lacking in all that goes to make a face distinctive take on a patrician air that would do credit to a princess, because they have eyebrows of wonderful grace and beauty. Upon analysis of these otherwise commonplace faces, the importance of the seemingly unimportant eyebrow is impressed upon one.

Belleve it or not, eyebrows-the marity of the kind I have described-are ade, not born. You see I have made an investigation and I know whereof I speak. Riding on the subway, I became envious of eyebrows. It seemed to me that every second woman who boarded for office or shopping was gifted with a pair of perfect evebrows.

"Perhaps," I communed with myself "there's a colony located somewhere in West Philadelphia for the perpetuation of the perfect eyebrow."

But no one whom I consulted had heard of such a place. But where did they all come from? I

oudgeled my brain. And then when Mary Blank grew a

pair of perfect evebrows over night, as it were, the end of my quest for knowledge was in sight.

"Eyebrows?" said she quizzically, in answer to my question. This in itself was a surprise, because on account of the former bushiness of her brows, Mary had never been able to say anything guizzically. "Oh," she continued nonchalantly, "they're bought and paid for."

Yes, it's quite true; given a few dollars and a pair of any old kind of eyebrowsbut you must have some-you can achieve a set of supercillary adornments characterized to make Madame Recamier turn over in her grave with envy.

You go to a beauty parlor. There you make known your wishes. "I would have eyebrows," you say to

the svelte dame who approaches you, "eyebrows worthy of the name, and not these furze bushes that my face now wears. With a soft swish she disappears be-

hind a pair of maroon curtains into her magical cabinet, compared to which Herr- of eyebrows is achieved.

With infinite precision and with a lingering slowness that would have lisen worthy of a Spanish inquisitor, the svelte beauty culturist plucks out the tiny hair according to a tortuous and torturing system known only to her kind. Ten minutes pass. Fifteen. A half hour. You have borne much. You are on the verge of tears. You are wondering why you didn't make your will before you came, Also if this is a free country, and other disconcerting things.

"Ouch! I can't stand much more of this!" The words are finally wrung from you despite your resolutions to be brave. "Never mind, it'll soon be over." she who has you in her power murmurs in the frigid tone of professional aympathy. You cast pride to the winds and let the tears flow. You are sobbing as though your own mother had died.

"You will have to stop," you murmur weakly, "I can't stand any more."

"But I can't let you go now," the slim sylph replies in the voice of a trained nurse dealing with a weak-minded patient, "you'd look moth-eaten if I stopped now." She is holding on to you by an eyebrow. You snivel, beaten and humiliated, Finally, after an eternity, when all hope has fled, she shows signs of letting up. She puts down those devilish little tweezers and helps your limp carcass out of its recumbent position. She hands you the mirror with the air of one who says, "Behold the wonders that are to be seen.' You are afraid to look. You are sure your face is bald of eyebrows. And then you gaze and the storm blows c wr and the day clears. You are beautiful. You have eyebrows that can express the supercilious disdain of an empress, or the bread and butter innocence of an ingenue. Your face is different. The pain is forgotten. You pay your erstwhile captor and leave the shop with blithe happiness. You go forth to contribute to the epidemic of perfect eyebrows that now sweeps over the city.

It is thus that the wholesale perfection M'LISS.

Newest Candles

Have you seen them? They're just one more thing to buy that will carry out the color scheme of your boudoir, only one. They're colored candles. Of course, no room is quite complete without a pair of stunning mahogany candlesticks, if your room is furnished in mahogany, or ivory white ones, if your room is French ivory. Anyhow, the candelabra are not the main attraction many women found it necessary to buy the candelabra to accompany the candles. If your room has rose slik hangings and

pretty cretonne pillows, you just choose the prettiest of rose candles. They don't look any different from the white candles when they're lighted, but they certainly are novel.

It's easy to make them, too. They may be painted with oil paints, or melted up with dyes. They are cheap enough in the shops, though. And the colors are stunning. Soft mauve, gold, pink, blue, rose, bayberry green, and brilliant, futuristic black and white stripes are some of the styles. Some even have pale colored grounds with roses and foliage painted on them. Can you wonder that they are irresistible?

If You Care to Know The reason that rhubarb is said to be such a help in toning up the system is because it contains a goodly amount of exalic acid. This acts as a stimulant and aid to the digestive processes.
