Compagnie General Transatlantique Pays Nearly Half-Million Dividend

By YVES GUYOT

Special Cable to Evening Ledger. PARIS, July 5 .- The French 5 per cent.

PARIS, July 5.—The French 6 per cent. Ioan holds its price well. It is a great quees-tion whether it will be possible to put out a new loan of the same type. The report of the Compagnia Generale Transatiantique shows total receipts for 1915 of 109,400,000 frances and, despite the fact that its passenger business was almost mothing, it also set aside 2,485,000 frances (\$497,000) for a dividend after all expenses had been paid and a sinking fund provided for.

Pig Iron Output Smaller in June

CLEVELAND, July 5.-The Iron Trade Review wil say tomorrow: "Hot weather had the effect of slightly decreasing the production of pig iron. The output in June fell 110,766 tons, compared with May. The production at six months was 19,381,954, against 12,043,503 tons in the same period against 12,043,503 tons in the same period in 1915. Very extensive construction plans of the Navy Department will require fully 150,000 tons of steel for hull material and about 75,000 tons additional for armor plate and portective deck plate. The demand for new war vessels, coming on top of a very heavy business already on the books, will present a serious problem to plate manu-facturers and ship builders.

Want Receiver for Ohio Trolley Co.

POULTRY LIVE—The market was quiet but steady under moderate offseings. The trust company in its petition says that it has been re-quested by holders of \$2,200,000 of the \$2,700,000 bonds outstanding to take fore-closure proceedings.

Zinc and Lead Production Jumps

WASHINGTON, D. C., July 5.—Prelimi-mary figures compiled by the Geological Survey indicate that the country's pro-duction of lead and sinc ores during the first half of 1916 far exceeded that of put of sinc is estimated in a survey statement at 25 to 30 per cent. greater than that of the same months last year. This method is sphalerite concentrates from the Joplin district alone amounted to 180, 000 tons, compared to 296,000 tons during the entire 12 months of 1915. Spot Wheat Strong in Liverpool first half of 1916 far exceeded that of any previous six-months' period. The out-put of zinc is estimated in a survey statement at 25 to 30 per cent. greater than that of the same months last year. Shipments of sphalerite concentrates from the Joplin district alone amounted to 180, 600 tons, compared to 296,000 tons during the entire 12 months of 1915.

Ruling in Illinois Grain Rates

WASHINGTON, July 5 .--- Grain originating in Illinois and moving over railroads doing interstate business through Chicago and then shipped via lake lines to various points was held by the Interstate Commerce Commission today to be subject to local intrastate rates from points of origin to Chicago.

Ask Statements of State Banks

HARRISBURG, Pa., July 5.—The State Commissioner of Banking today issued a call for a statement of the condition of State banks and trust companies as of Dues 26 June 30.

National Bank Call Issued

WASHINGTON, July 5 .- The Comptroller of the Currency today issued a call for the condition of national banks as of the close of business on Friday June 30.

THE WEATHER

Official Forecast

WASHINGTON, July 5, For eastern Pennsylvania and New Jer-

sey: Fair tonight and Thursday; moderate north and northeast winds.

Light rains covered New York and New England during the last 24 hours from a disturbance that was central off the coast. The tropical disturbance has apparently moved north across the Gulf of Mexico and is nearing the coast between New Orleans and Fensacola. It is causing rains all along the Gulf and south Atlantic coasts. Fair weather is reported from the re-mainder of the country. The temperatures are pomewhat below the normal in the mortheastern portion of the country, while seminable conditions prevail elsewhere. U. S. Weather Bureau Bulletin Observations taken at 5 a. m.
