The time has not been that clothes have not in the minds of the many been kers and Puritans owe their reputation for modesty and womanliness as much, doubtless, to their unestentatious garb as to their characteristic repression of demeanor, just as the Oriental woman is unjustly celebrated as a seductive minx because her harem trousers and abbreviated bodice shocked at one time, at least, the occidental notion of what a woman's sartorial equipment should be.

If we except Doctor Farabee's native Indians, Lady Godiva was about the only woman, so far as history relates, who could disregard clothes and keep her reputation intact. But, apart from the moral aspect, the sheer joy that woman derives from the corsideration and nurchase of the apparel with which she decks her body and stimulates her soul is assurance enough that the twentieth century damsel of North America is in no danger of following in the footsteps of the South American Indian, who manages to be cool, modest and undressed at one and the same time.

I must, above all things, been you in fouch with all of my things, keep you in touch with all of my activities. I do this and then I am made the object of a furiously jealous onslaught. Your total lack of sympathy for me after a serious hurt has given me cause for reflection, and I am quite sure, after much consideration, that a man so unfeeling, so deliberately cruel, is not the man to make me happy for the rest of my life.

I thought we had threshed out ad nause am the subject of an engaged girl giving up her men friends. I assure you, Richard Harrison, that when I told you I regarded this as an archaic procedure, a relic of the day when a woman was a man's property and not his companion, I was never more in earnest in my life.

Did you expect Paul Watson to let me lie out on the golf course with a sprained ankle simply because you, thousands of miles away from me, object to him permiles away from me, object to him per-forming a service that you judge to be yours? Do you expect me to be ungrateful to him because he has put his car and his time at my service? ### CITIZENS' ARMY HELPS KEEP STREETS CLEAN

Director Datesman Well Pleased Over Success of War on Dirt

Responses from corporations, business men and citizens generally to the city's appeal to aid the campaign for "clean streets," Director Datesman says, have been so numerous that the entire citizenship has been enrolled into a great army to help the Bureau of Highways in the work. The Director's circular letter to presidents of railroad companies, public service corporations, department stores, merchants and others, emphasized the aim in the campaign for co-operative work for in the campaign for co-operative work for the elimination of practices that result in the littering of streets with waste paper, rubbish, store and sidewalk sweepings. The Director said that residents have not been urged hitherto to live up to exist-ing laws for the regulation and disposal of

waste and rubbish. He said he felt that non-compliance with these laws comes from habit rather than through intention to dis-obeying them and for this reason the Deobeying them and for this reason the De-partment had resolved to carry on a wide-spread educational campaign to instruct the people how to help keep streets clean. "With this object in view," Director Dates-man said, "cards containing the laws and 12 "Dont's" which cover the principal mat-ters that being given proper recognition by

We have, in addition, printed pla-cards, 14 by 18 inches in size, that also con-tain these 'Don'ts,' which we are arranging to have displayed in all conspicuous places throughout the city, and we are going to ask that they be placed in the main corridors and other conspicuous places in offices, stores and other buildings where they will be seen and can be read by employes and We are also going to ask employers to

instruct employes to refrain in the future from sweeping the sidewalks sweepings into the street and to sweep them into a pile and put them into rubbish receptacles. It would be put them into rabbian receptacies. It would be very desirable and very much appreciated and add very materially to our efforts if they would arrange to place rubbish receptacles in front of the offices and other buildings under their control. These receptacles will be emptied by the street cleaning department if they will advise us of their locations."

PRACTICAL CAKE BOX.

The newest cake box is the last word in efficiency. It has a round tray, with handles at the side that fits inside of the box. The idea, according to the Popular Science Monthly, is to lift the cake out without breaking any of it, as is likely to be the case if you have to turn the cake over to get it out of a deep-set box. Instead, you simply take hold of the handles, and your cake comes out as shapely as it went in

Children's Prayer Meetings

Children's Prayer Meetings

As to your question addressed to the little stri who asked how to condust a prayer meeting. I think you do not understand the situation, perhaps. Yes, little girls both conduct and take part in prayer meetings. They are not composed of grown people, however; only superintended by one or two adults. The hymn is true that says; "Prayer is the simplest form of apsech, which infants' lips can try." If one were to wait for years to come to learn to pray, I am afraid it would never be a part of one sife. There are many good prayers in the Bible to begin with, such as Pasims. It, 1-10, 11 and 12, 15 and 18 and 19-24. An excellent benediction, and one which is often used is Genesia, xxxi, 49, called the "Mispah" honediction. No doubt the little sirl thought the Corner told so many things that it would give her just what she wanted ing the conduct of a religious meeting to mere children, let me exculpate mysolf from the implied suspicion that I would defer for any one the duty and privilege of prayer until years to come bring maturity and ease of expression. The line you quote is true and the truth conveyed precious beyond the power of human speech to describe. Every child should be made to comprehend that God la as really his Father in heaven as she

can express physical wants to his mother; should be made to comprehend that God is as really his Father in heaven as she is his earthly parent. Let this be comprehended in all its richness of meaning before we go further. The modus operandi of praying for the edification of others is quite another matter. This is not the place in which to debate the subordinate question.

## TWO REMEDIES FOR ECZEMA GIVEN FOR THOSE WORKING IN CHEMICALS

WE get a fair number of letters from men who work in chemicals complaining of eczema of the hands. What they call eczema is an inflammation of the skin-a dermatitis.

We sent one of these letters to Dr. George Apfeibach, of the Illinois Factory Inspection Service. He sent us a letter and two pre-scriptions. We think several groups of peo-ple will be interested in the letter. The prescriptions are in one instance a wash and in the other an ointment to be used for the purpose of protecting the hands against chemicals.

If the hands of the worker are kept in any solution which washes out the grease, the distinct (No. 2) should be used. While Doctor Apfelbach specifies that it is good to prevent turpentine eczema, he does not If the skin of the worker's hands con-

I am an interested reader of your column and would like to ask a few questions, also. What caused a harelip? Will my undern baby be so marked from seeing a person so afficied? I try so hard not to think of it, but it seems almost impossible.

Harelip is the result of a failure of the different parts of the lip to grow together. The lip of a just forming child is made up of several separate pieces. Why do these fail to grow together? Usually because a tooth gels in the way or the pieces of lip tissue are pushed apart by something eise. The fact that the mother has seen a harelipped person while she was pregnant tains enough grease, but they roughen or inflame from the chemicals, frequent wash-ing with the lotion (No. 1) will be useful.
