Go down to the Woman's Hospital clinic, at 335 Washington avenue, any day, and you will see a sweet-faced, white-haired doctor there, working among children of all nationallities, teaching mothers and students the proper way to keep the youngstern well. Dr. Maria P. Ryan has taught students at the Woman's College and has handled youngsters for many years. She knows all about what to give them to eat. Here is what she tells the mothers who come.

NO TEA OR COFFEE.

"And don't give your baby raw cow's milk unless he's over 18 months old. Pas-

Old Books Wanted I am a reader of your Corner and have re-ceived many good hints. I should like to know if any kind reader has ald novels or books to spare?

We are putting old books, including novels, into lively circulation all the year round. We register your name and petition, and remind house and home keepers who buy books when they like that newer volumes push the old out of sight and thought. The book shelves should be overhauled periodically, with an eye to doing a kind action by filling shelves which yawn pitifully in less favored homes. It is a mistake to hoard current literature. Keep standard works if you will, but pass the novels gaily down the "waiting line."
