"I WILL BE DICTATOR OF MEXICO IN 30 DAYS," WARNS PANCHO VILLA

Outlaw Chief Reported to Be Gathering Forces Readily as Carranzistas Desert - De Facto Troops Beaten

TREVINO QUITS CHIEF

EL PASO, Tex., July 13.—"Within 30 days, I, Francisco Villa, will be dictator of Mexico with a victorious army at my back. "Don Venustiano Carranza, stripped of his power and descried by his generals, will be deposed."

This defiant boast of the Mexican bandit This defiant boast of the Mexican bandit leader was transmited today to his agents on the border. Through them it reached American officials and was regarded of sufficient importance to be forwarded to Washington. It was a flat defiance of the United States Government. General Persh-ing's punitive expedition was sent into Mexico to 'get' Villa. Its work was balked by the attack on American soldiers at

Mexico to 'get' Villa. Its work was balked by the attack on American soldiers at Parral. Now Villa proclaims his strength. Every report that has reached El Paso and other points along the border during the last twenty-four hours indicated that Villa had been succensful in all engage-ments with the Carranzista army since he began his latest activities. With the fear that he seems to be able to inspire in the heart of the Maxiean peon he has gathered heart of the Mexican peon he has gathered around him an army that is estimated to number between 5000 and 8000 men. A Inte report is that 2000 Yaqui Indians from the Sonora district are on their way to join the outlaw's forces.

Testerday the Mexican officials reported that General Ernesto Garcia had sallied from Parral to drive back the Villistas. Today the Mcxican officials maintained a discret silence and this was taken as a sure sign that Garcia had been whipped. The same thing occurred within the last week when 3000 Carranzista cavalry were sent against General Calixto Contreras. So far as official information is concerned that forca complately disappeared.

American government agents came into possession of additional evidence that seems to prove that Villa is being aided by the treason of Carranza officers. One uncon-firmed rumor that came to the border was that General Jacinto Trevino had been ordered relieved of his command at Chi-hunhua City, had bargained with rebel leaders and had gone over to Villa's army.

RED CROSS PLANS TO AID PENNSYLVANIA TROOPS

Special Representatives of State Chapter Will Be Detailed to

Border Duty

That the campaign for 50,000 additional members of the Southeastern Pennsylvania Chapter of the American Red Cross is more than a movement to increase membership was evidenced today, when steps were taken to detail special representatives on the Mexi-

can border. They will ascertain the wants of the Pennsylvania troops in Mexico and along the Mexican border. They will make a report of their findings to the Southeastern Chapter of the American Red Cross, so that Immediate action may be taken to provide relief.

Richard E. Wilson, executive secretary of the Southeastern Pennsylvania Chapter, and The Southeastern Fennsylvatia Chapter, and Dr. Richard H. Harte, chairman of the Ex-ecutive Committee, today received from Col-onel Jefferson R. Kean, Medical Corpa, U. S. A., director general of military re-lief at Washington, a telegram inform-ing them that an arrangement will be made for encedual representatives on the Mexican for special representatives on the Mexican border to look after the needs of Pennsyl-vania guardsmen.

The men who probably will be designated to undertake this work for the Southeastern Chapter are Robert Bacon and Dr. Richard P. Strong, of Harvard University, who are Texas under the auspices of the American Red Cross.

Two Battalions May See Lively Service in Big Bend Country

EL PASO, Tex., July 13.—Parts of the 24 Battalion, 24 Pennaylvania Infantry, including the Philadelphia command, and the 3d Battalion, 10th Pennsylvania in-fantry, made a guiet departure last night for the "Big Bend" country. The start was made at night to give the men rest on board the train to prepare them for a whole day's marching south of Marfa, Tex., where they will detrain will detrain.

The 6th Pennsylvania Infantry, 4th Bri gade, arrived at El Paso yesterday at noon, and the 4th and 8th Regiments are expected to arrive this morning.

to arrive this morning. Only a few persons greeted the soldiers who marched to the train last night and propared to leave El Pauo after only a few days camping here. Those who were at the depot to see the men off only nonchalantly inquired where they were going. There was no cheering or other patriotic demonstration ever the departure of the first national guardamen assigned to active disty on the border since the militia movement began. Marfa is the destination of the two battal-ions, but how far south they will march to permanent headquarters is not known. The placing of the Pennsylvania troops close to the scene of possibile activities is considered quite a tribute to Pennsylvania National Guardsmen. It perhaps means they were the best fitted for active service on the border among the militia of other

they were the best fitted for active service on the border among the militia of other Eastern and Northern States. This group of guardsmen from Pennsyl-vania is being sent to the "Big Bend" coun-try, ostensibly to be ready for a possible attack by Villa's forces in that section. In the past the wasteless "Big Bend" country had been the scene of more than one raid by Mexicana. The movement of the 2d and 3d Hattallons is significant in connection with the warning of Carranza to the United States to be prepared for an attack by the States to be prepared for an attack by the Villistas on the border of the "Big Bend" untry. The 2d Battallon, 2d Regiment, is in com-

mand of Major John Handy Hall. The 3d Battalion of the 10th is commanded by Major Henry W. Coulter.

The Pennsylvania Engineers' Battalion, ompany A, of Scranton, and B, of Phila-elphia, completed their task of laying out the new camp. Stewart, on Tuesday. Camp Stewart is now prepared to care for 12,000 men. It is a second Mount Gretna. The First Pennsylvania Cavalry was the first settle in Camp Stewart. Wind has raised a small havor in Camp

Pershing and Camp Stewart, both in the vicinity of Fort Bliss. A windstorm blew down several tents in the Eighteenth Pennsylvania Infantry encampment. The Pennsylvania engineers claim to be the best-drilled guardsmen of the Pennsylvania delegation at Camp Pershing and Camp Stewart. They have been having drills of four hours in the morning and two urs in the afternoon dally.

FOREIGN TRADE OF U.S. SIX BILLIONS LAST YEAR

Increase in Exports Up to June 30 One and One-half Billions

WASHINGTON, July 13. — The foreign rade of the United States for the facal car ended June 30, 1916, reached the un-recedented amount of \$6,525,000,000. This precedented amount of \$6,525,000,000. This is \$2,108,025,000 greater than the foreign trade of the country last year. The in-crease is greater than the entire foreign trade of the United States in 1900, when we first crossed the two billion mark. The increase in exports for the year ended June 30 was \$1,576,411,000. The increase in imports was \$541,025,000. No other year in the history of the country shows such huge totals.

Exports for the fiscal year just ended mounted to \$4,345,000,000 and the im-orts were valued at \$2,180,000,000. These ports were valued at \$2,180,000,000. These figures were announced today by the Bur-eau of Foreign and Domentic Commerce of the Department of Commerce, with the explanation that the figures included for June are an estimate based on the final May statistics. It was in 1872 that our foreign trade

rst exceeded \$1,000,000,000. By 1900 it ad crossed the \$2,000,000,000 mark; by 907 it had exceeded \$3,000,000,000 and by 1913 it had risen above \$4,000,000,000, re-maining around that level until the year just ended, when the \$6,000,000,000 mark was exceeded.

Imports first exceeded \$1,000,000,000 in 1903 and are now a little more than twice as much as at that time. Exports first rose bove \$1,000,000,000 value in 1892 and are w four times as much as in that year,

A statement prepared in the Bureau of Foreign and Domestic Commerce analyzes the trade figures as follows:

Thirteen great classes of exported articles yield a total estimated at \$3,624,000,000 for 1916, as against \$1,321,000,000 for all other irticles. The following table shows the rearticles. narkable increases which have occurred in exports of this group daring the last two

There is a lad in the 2d Regiment of the list Brigade who is having the time of his life trying to wash with mosquito net-ting. It seems that some kind soul, with intentions of the best decided to send him a present. The "K S." decided on a wash-rag, and went forth to purchase one Mos-quito netting was the first thing said per-son found and sent it to the youth who now washes "behind the bars." border.

When the 2d Regiment left Mount Gretna for the front, Company F had the only motorcycle dispatcher in the 2d Regi-ment. He was a Philadelphian, Leo A. Armstrong, 2711 French street.

Company I, of the 2d, has been con-gratulating himmelf ever since its arrival in Mount Gretna, on its way to the border, and now that it is actually in action at the ront, on its cook. The men are proud be ause they have a "real" cook, a man who as had experience before he wont into the National Guard service. He is Edwin Nearns, of 2551 North 2d street, who has a restaurant in this city. He refuses to take all the credit of the success of the mess tent, saying that part of it is due to Albert Robinson, 1338 East Rittenhouse, who aided in the culinary art.

In spite of the heat in camp, the men of Company 1, of the 2d, enjoy boxing— of course, in friendly bouts. One of the feature bouts of this company was the double-header between four Philadelphians. John (Kid) Bergin stopped William (Bill) Murray in the fourth round, and "Bob" Coyle, 727 Butler street, stopped the "Texas Kid"—Frank Conway, 3712 South Still street, in the third.

Another amusement of Company I. of the ld, is watching dancing demonstration given by William Murray and Walter (Dutch) McClaire. When the regimental band plays in the evening these young men. even after a hard day's work, have enough energy left to give cancing demonstrations. The applause they receive is ample payment, they say, for their work.

Two Philadelphia lads who are sending interesting messages from the front are William Moore, son of Mrs. Mary C. Grocers and Importers Launch Plan to Make Philadelphia

The Grocers and Importers' Exchange in the Bourse, representing the wholesale grocery interests of this city and its vicinity, has begun a "preparedness" movement to make Philadelphia and other large cities the centres for the distribution of food sup-plies for troops in the event of war.
