ETIQUETTE --- "FINISHED" YOUNG WOMEN CAN COOK, M'LISS DISCOVERS -- FASHION NEWS

SEEN IN THE SHOPS

FASHIONABLE SCHOOLS NOW TEACH COOKING, M'LISS SAYS

Civilized Man, Even as Meredith Has Told Us, Has Intimated That He Can Live Without Everything Except Cooks

a Goday's Lady's Book by the side of a hour. Now Helen was very handy with the needle, but she was not permitted to Atter of the shell of devilishness, both in its art and its literature, with which seamstress at so much an hour to darn it is incrusted. The ladies portrayed by the Godey fashion artists and those of ribbons through their lingerie. similarity that is striking.

But sartorial fashions are not the only ones that go 'round and 'round in a circle, coming back ultimately to the place where they started. Fashions in school curricula are likewise subject to a similar

Reading over the advertisements of fashionable schools in magazines the other night, I was amazed to find that a very considerable amount of valuable, high-priced space was devoted to showing that cooking was taught in those ultramodish establishments

Time was, only a little while ago, when syoung lady who went to be "finished" would have been indignant had she found out that a part of her day's work was to be spent in learning the difference between broiling a steak and boiling an egg. One of my own friends was so highly, so thoroughly finished in one of these schools that she has been a source of extreme unhappiness to her family and ago no young woman was considered finherself ever since.

Her people, who had acquired a great deal of money in a remarkably short time, as is the marvelous way with the men were concerned, if she couldn't money makers in this country, wanted to give her the best that the land offered. The school to which they wrote for information was so exorbitant in its prices that the fond father imagined it must be the ne plus ultra of what such a school should be.

Helen was enrolled. Helen had no voice, but an attempt was made to teach her to | ricula is an added means to this end? sing. The accompanist who played for

ried a poor man. But judging from the school ads of 1916, cooking is in again. You remember Owen Meredith's contribution to this

subject We may live without poetry, music and

art: We may live without conscience and live without heart; We may live without friends; we may live

without books; But civilized man cannot live without cooks.

He may live without books—what is knowledge but grieving? He may live without hope—what is hope but deceiving? He may live without love—what is passion

but pining? But where is the man that can live with-out dining?

The author of "Lucile" had the right

idea. Cooking is important. Fifty years ished unless she could launch a successful meal and manage an entire household. Indeed, she was finished, so far as do this.

Now many persons claim that the primary reason for the existence of the finishing school is that young women may be taught the fine art of charming young men and imbuing them with the desire to marry the charmers. Can it be that the inclusion of cooking in their cur-M'LISS.

Letters to the Editor of the Woman's Page

SPORTS AND EQUESTRIAN SUIT OF CRASH

THIS suit of cassock crash was designed to meet the needs of those who desire a practical sports suit and babit combined in a summer-weight fabric. Natural cassock crash, which is used for this combination suit of coat, breeches and skirt, gives excel-lent service, as it is very durable, does not muss readily and launders perfectly. For those who ride side-saddle, unencumbered by a skirt, the habit is priced at \$17.50, while the skirt is \$7.50 additional. As a three-piece sult it will serve equally well for town or country wear.

The sports or riding hat is of natural panama, with a square crown and rolled brim. It is trimmed with a grosgrain bard finished with a tailored bow in any desired color and is priced at \$6.95.

Puttees, which some people prefer to riding boots, come in tan or black. Price, \$3.50 The name of the shop where these articles may be purchased will be supplied by the Editor of the Woman's Page, EVENING LEDGER, 608 Chestnut street. The request must be accompanied by a stamped self-addressed envelope, and must mention the date on which the article appeared.

MARION HARLAND'S CORNER

Taking Fresh Air Cure

All communications addressed to Marian Mariand about inclose a stamped, self-addressed envelope and a clipping of the withing to aid in the charitable work of the M. H. C. should write Marian Hariand, in care of this paper, for addresses of those them would like to help, and, haring received them. A most worthy woman whose address I in-close would like an old hammock or tent, as she is a sufferer from tuberculosis and has no means of getting into the air. A. M. T. The appeal is indoreed by one in whose judgment and benevolence we may trust implicitly. Now is the season for putting the "fresh air cure" to the test. It has drawn hundreds of sufferers back from the edge of the grave and restored them to famstill doing duty and is heipful to him. I are always giad to hear from him. I notice many people ask for pieces for quilting, and if you will tell me where to send I think I may be able to supply some. My damkter is a teacher of home conomics in a large seminary. She tells me that in the sewing department there are many nice pieces of white and colored cloth which she will may and the second lies and the world, well and strong again. The dreaded disease to which this woman is a prey is no longer reckoned incurable. May we not give her a chance for life? nice pieces of white and colored cloth which she will maye, and teach the purpls to do so, ex-plaining the use to which they may be put. Please allow me to tell you how heartily I enjoy your always apt and timely answers and talks in the Helping Hand Corner and to wish it and your-self great harphness and continued success in the work, with all blessings upon your mis-sion. K. S. S.

Wants Silk Pieces

Tour correspondent, J. C. P., has slik pleces to offer to any one who will pay postage. I should like some silk pleces so I can make a hedapread. I have enough to begin with and cannot afford to buy new material. If I could get a few pleces from your kind correspondent, for which I will gladly pay postage. I shall be ever no slid. Ferhaps I may be able to do her a kindness in return. MARGARET F.

a kindness in return. MARGABET F. The stock of silk bits at our disposal by J. C. P. was passed into the eager hands of an earlier applicant. Most earnestly do I implore our beloved Cornerites not to weary of our oft-repeated calls for patch-work pieces. There is mournful signifi-cance in the increasing frequency of these. Bed coverings are becoming more expen-sive daily. The rage for patchwork re-minds us that, with the next winter there full and fervent thanks of the big family go out to the dear daughter, in whose mind the project was formed, and to the mother, whose worthy pupil she is. And allow me to tell you, dear heart, what a draft of refreshing appreciation your letter is to all who love the Corner and have the best interests of our mission at heart. It is like a wayside spring to the traveler over dusty roads under the noonday sun. Heaven minds us that, with the next winter there may be urgent need of domestic substitutes for blankets and duvets. Do not throw away a shred of calloo or ribbon.

To Keep Him Out of Doors

As I am a widow with four little ones I would maked free to ask for assistance from the H. H. C. I have a boy 7 years of age who is not well. The doctor has ordered him to be out of doors as mitch as possible. If there is any one who has a velocitede or express wagon he has no further use for and would like to dispose of it. I would be giad to have it for my son, and pay charges. I will send for it in necessary, as I cannot buy a new one. MRIS, P. M. E. What young fellow nearing his majority has a velocipede he can donate to the sickly lad? Or is there not an express wagon banished to the attle which the boys outgrew or outlived years ago? Either may bring health and recreation to the widow's

Too Heavy to Carry

I write to ask if any of the members have a coach or go-cart they no longer have use for. If so, I should be glad to get it. We have a haby 18 months old who cannot walk yet. In this nice weather I should like to take her out, but she is too heavy for me to carry. At present we cannot buy her one. I hope I have put my request in the right form and that I may hear from some member of the H. H. C. MRS. J. M. C.

We have not asked for a go-cart for so long that several bables must have dis-carded theirs in favor of locomotion upon carded theirs in layor of locomotion upon their own blessed feet. It is a tug at the heart strings to think of the mother lug-ging an 18-month-old baby along city streets in the perfervid heats that visit us at midsummer. Send to me for the panting woman's address and be a blessing to her and the bouncing baby. and the bouncing baby.

Several years ago you published a plea for a typewriter for an invalid boy, to which I had the pleasure of responding. I wish to tell you that this young man has shown a grateful apprecia-tion of the old typewriter and has never failed to send me postcards each holiday of the year. always using the machine, to show me that it is

of the desease the shrinking of the mus-cles is apparent to the eye. Electrical tests show that the degenerating changes in the muscles and nerves keep up for about six months.

about six months. The shrinking of the muscles may not be present at all. When present it does not start for several days after the dis-sease has started and proceeds slowly. By skilful manipulation begun in time the shrinking of the limbs can be entirely prevented. The time to begin is at ence when it is seen that danger to life has passed. As soon as the temperature re-turns to normal, manipulation of the af-fected limbs should be begun. In mild cases it is possible to begin mas-mage within two weeks of the onset of the disease. In more severe cases it should not be begun until later. May pathors

age within two weeks of the chast of the disease. In more severe cases it should not be begun until later. Many patients pass through a stage in convalescence when the paralyzed limbs are too tender to be handled with comfort. Most authorities hold that cases should not be manipulated during the "fander" stages it may he during the "tender" stages. It may be necessary to delay the beginning of massige and manipulation for two months, but it should not be delayed longer than three months.

Any tendency of the paralyzed limbi to Any tendency of the paralysed times to draw must be overcome by sandbagi or splints. Manipulation of the paralyzed limbs must be persisted in. There is no magic about it. Fatient, persistent work is necessary to accomplish results.

A few years ago it was thought that if the case had been neglected for six motths there was no hope of improvement. The teaching at the present time is that litel-ligent, persistent, patient, passive motion, manipulation, massage and muscle traising will greatly improve some cases that have been neglected for years.

been neglected for years. Of 205 persons attacked in the Buffalo epidamio, 25 per cent, showed no signs of wasting six months after their lliness. In not all the cases can muscle shrink-ing be prevented, but the proportion in which this after-effect can be prevented is large. Even after wasting has been in evi-dence for years improvement is possible, at heast in some cases. least in some cases.

Behind the disturbance in the sym-pathetic nervous system lies change in the secretion of some one of the ductless glands. These statements do not mean much to you or anybody else. The appearance does not indicate anything by which you need to be

disturbed. 3. Herpes, fever blisters or cold sores are requently due to infection with a cold. The bacillus generally responsible is the pneumococcus. They may be due to dis-turbance of digestion. The remedy is to take a purge and to eat very simply for several days.

GOOD FORM

Wedding Details

Dear Deburah Rush-I am to be married in the inte fall and would like your advice in re-gard to my wedding. It would have to be a noon or a 4 o'clock and. I think. Do you think hav-ing bridesmalds and maid of honor would in-rease my expenses very greatiy? Would it be in good form to ask a good many people to the wedding and only about 100 to the recep-tion? What do you think is the proper material of a wedding trees? Does the groom ask his ushers or do 1? CAROL.

A noon wedding is usually prettier than an afternoon ons, as about 4 or 5 o'clock in the late autumn the shadows begin to in a slow oven.

in the late autumn the shadows begin to fall and yet it is too early for many lights in the church, and, therefore, apt to be a tiny bit gloomy, and no bride wants a shade of gloom on her wedding day. Of course, if you give your bridesmaids and maid of honor presents your expenses would be materially increased, and the b.idegroom's would be also, as he must provide the bouquets for the bridal party. It is not only in good form but quite the usual thing to invite many friends to the usual thing to invite many friends to the wedding ceremony if it is to be in church and then to adapt the number of guests invited to the reception to the size of the house. Except at very large affairs it is not customary to ask more than 166

It is not customary to ask more than 100 or 200 guests to the reception. The preferred material for a wedding gown is generally creamy satin, but it is really a matter of personal taste. White should always be worn except when the bride is a widow. Heavily corded silk or creps de chine is sometimes selected, and during the last season a number of frocks during the last season a number of frocks have been fashioned almost entirely of tulle

r lace. The bridegroom always invites the ushers, who are chosen from among his intimate friends. Of course, he usually consults with his fiances on the matter, but it is he who does the choosing and asking. DEBORAH RUSH

Cake Without Eggs

A good cake can be made without the use of eggs. It is a good thing to know in these days of expensive rations. Here is the recipe: Put two cupfuls of bolling water, a cupful of raisins, a tablespoonful and a half of butter and two cupfuls of brown sugar in a pan. Let it all boil for about eight minutes. Cool, then add three cupfuls of flour, a teasponful of baking soda and a pinch of salt. Cock for an hour

For the Canary

His Royal Highness the canary need not suffer for want of fresh water dur-ing the hot weather. There's a new cage for him of extra fine brass wire, so that he can't throw his seed all around the veranda in an excess of summer joy, and a watertrough attached that supplies water —quite fresh—for two or three days. Of course, it's an expensive novelty.
