## FRENCH HURL **BACK TEUTONS NEAR LIHONS**

Germans Shift Assaults South of Somme, but in Vain

HEAVY FIRING ON MEUSE

Crown Prince Prepares for Another Great Stroke at Verdun

PARIS, Aug. 1. German attacks against the French in Picardy have been shifted south of the Somme in an effort to hold back the advance on Peronne. The communique issued by the War Office today reports that Teuton forces attacked at Lihons. The assault was repulsed, however.

Lihons is on the southern side of the salient which the French troops have driven toward Peronne and into the larger German salient which terminates at the junction of the Oise and the Alsne. Success for the Germans at that point might interfere with the French plans, but thus far the Germans have made no gain.

On the Verdun front the bombardment on the right bank of the Meuse has increased in violence, the communique states. Guns of the heaviest calibre are being used. It is understood that the Germans are preparing with their artillery for a great infantry assault.

The text of the official communique folfolsw:

North of the Somme the enemy did not renew his attacks during the night. North of Avre, after a violent bombard-ment, the Germans tried two surprise attacks on our positions in the region of Lihons, which were checked by our

On the right bank of the Meuse the artillery duel became extremely vio-lent in the course of the night in the region of Thiaumont work. The bom-bardment was carried on with shells of the heaviest caliber at Fumin wood and Laufee.

West of Pont-a-Mousson, in the sec-tor of Fleury, the enemy blew up three mines. We occupied the southern edge of the three craters before our trench.

The night was comparatively calm
on the rest of the front.

Adjutant Lenoir brought down an en-emy aeroplane, which fell within its lines north of Verdun. This is the fifteenth German machine brought to earth by this aviator. Another German aeroplane, attacked by one of ours, crashed to earth west of Etain.

### BRITISH HOLD NEW GAINS IN FACE OF FIERCE TEUTON ATTACKS, LONDON SAYS

LONDON, Aug. 1. Sir Douglas Haig's troops are holding the ground gained in the Somme campaign against severe attacks by the Germans. The official report issued today announced the repulse of a German assault at Bazen-

tin-le-Petit, between Pozieres and Longue-In general, according to the official state-

ment, the situation is unchanged. The War Office statement follows: The general situation is unchanged. North of Bazentin-le-Petit an attack against our line was repulsed. There was a heavy artillery duel throughout the night. Elsewhere there is nothing

### ALLIES WILL WIN; WAR WILL NOT END IN DRAW, SAYS LORD NEWTON

By LORD NEWTON

LONDON, Aug. 1.

THE Great War will not be a "drawn game." The Allies will surely win I the reward of their sacrifices—and those sacrifices will have been vain unless there shall result new world conditions of comity and better un-

derstanding. Entering the third year of the war one is struck by the fact that con-temporary events in France indicate the Allies' effort, which until now has been largely that of preparation, will not result in the depressing state of equilibrium which some have prophesied in using the metaphor "a drawn game." The sacrifice of our men and those of the great French republic and our other Allies on scattered gigantic fronts will

quite assuredly win their reward.
What is to be the reward of all this sacrifice and effort? It is not only punishment of the guilty, or new hope for the nations that have been victims of the Central Powers; new hope for Belgium Serbia and the Armenians and Syrians that those who planned such deeds of violence will assuredly meet just recompense; but beyond what is to be meted out there stands the possibility of the future, and our sacrifice and effort will have been in vain unless there shall arise from all this bloodshed new world conditions in which action between State and

### Hughes Makes Declaration for Suffrage Amendment

ALL FACTIONS PLEASED

NEW YORK, Aug. 1. CHARLES EVANS HUGHES, Republican candidate for President, today declared himself in favor of an amendment to the Constitution granting women the right to vote. He made his views known in a telegram answering an inquiry from Senator George Sutherland, of Utah.

Mr. Hughes says that the proposed amendment should be submitted and ratified, that the question of woman suffrage be removed from political discussion. The text of his message to Senator Sutherland fol-

NEW YORK, Aug. 1.—Charles Evans Hughes's "keynote" for the coming campaign pleased all Republicans today. Party chiefs who assembled to hear the former Justice formally accept the nomination last night were unanimous in praising the striking sentences with which the candidate outlined the issues on which the G. O. P. is to start eviction proceedings against Woodrow Wilson and the Democratic majority in the Senate and House.

The fact that 4000 men and women sat for nearly three hours in sweltering, sisnling heat to hear the nominee break another one of his famous silences in the meeting at Carnegie Hall was looked upon by Republicans as auguring well for success in November. Moreover, the same sticky, sweating auditors had enough enthusiasm left at the end of that session to cheer Hughes vociferously. They would have liked to have heard something from Colonel Roosevelt, but the former Moose, playing "second fiddle" at a political gathering for the first time in a great many years, hustled out of the hall.

A HARMONY SPEECH. Hughes's speech pleased because in the

view of his friends he supported his harmony plea with a selection of the issues for the campaign which combine views of Republican standpatters, Republican liberals and Progressives. The "old liners" were pleased with a ringing protection declaration on the tariff; the liberals with the labor, conservation and administrative efficiency sections in his upbraiding of the visit to his old teammates. Republicans and Democrats allice are convinced that Hughes's principal issue in his fight against Wilson will be the Mexican

situation. The second offensive will be bembardment along the lines of "adequate" preparedness and the tariff. Hughes's tariff attitude was clearly shown in his acceptance when he said: "Our opponents promised to reduce the cost of living. This they have failed to

# TEUTONS QUIT KOVEL, ROME REPORT SAYS

Heavy Artillery, Food and Munitions Are Withdrawn From Volhynia Fortress

VLADIMIR EVACUATED

General Von Bothmer Said to Have Been Already Outflanked by Leschitsky's Army

LONDON, Aug. 1 .- Wireless reports received at Rome and forwarded here today asserted that Germany is withdrawing her heavy artillery and her food and munitions depots from Kovel in the face of the Russian enveloping movement.

The same report stated that Vladimir-Volhynsky, in the same sector of the eastern front, has already been completely evacuated.

LONDON, Aug. 1 .- The irresistible advance of the Russians in northern Galicia ers and every class of trade patronized by and Volhynia continues, and yesterday drove the Teutons from the whole Stokhod line before Kovel. Driving forward in the face of destructive gusts of flame, as well as of the fire from the German and Austrian guns, Brusslioff's troops crossed the marshy stream along the whole bend between the Sarny-Kovel and the Kovel-Rojitche Railroads, a stretch of 33 miles.

The sector between the two roads and the river is now completely in their hands, and they are sweeping forward west of the Stokhod with such speed that the retreating Teutons are finding it impossible to hold the lines previously prepared for them or to construct new defenses able to with stand the furious charges of infantry and cavalry and incessant rain of shells poured

forth by the Russian guns. # MAYOR FIRM IN HIS DEMAND FOR CLEAN CITY

He Appears Before Grand Jury in Vice Raid Probe

RETICENT ON TESTIMONY

### Schedule of Witnesses for Today's Vice Probe

MAYOR SMITH took the stand and explained police activities. Members of Republican Commit-tees of Tenth, Thirteenth and Four-teenth Wards will testify today. Magistrate Pennock to testify. Superintendent Robinson to ex-plain his actions in ordering rein-

statement of gambling machines. Police lieutenants and detectives to be questioned regarding vice conditions.

Desire to have a clean city and learn who was actually responsible for the existence of vice and gambling was exercised by Mayor Smith today when he appeared before the Grand Jury in the vice investigation.

On leaving the jury room he declined to answer any questions relative to his testimony before the Grand Jury or to discuss what bearing the inquiry now under way might have upon his own plans for

purifying municipal conditions. It had been reported about City Hall today that the Mayor, independently of the police and Grand Jury, was conducting an investigation of charges that vice was permitted to flourish in certain parts of the

Upon returning to his office from the Grand Jury rooms the Mayor was asked pointblank if this report were true. He refused direct reply. "It would be inopportune for me to answer that question at this time," the Mayor responded.

"Will you regard any recommendations the Grand Jury may make? It is looked upon as probable that the dismissal of Superintendent Robinson will be asked," was suggested. "It would be discourteous for me to make

any statement at this time, or to discuss any question or answer forming part of my testimony while before the Grand Jury," replied the Mayor. "It is my serious intention to get to the bottom of facts in this matter, but I regard it as a discourtesy to the Grand Jury to do or say anything in connection with its proceedings until the jury itself has acted.

It is understood that the Grand Jury has traced the responsibility in several instances for conditions in the Tenderloin, and it is lieved that the furymen can en work this week by holding night sessions.

Permission to do this has been granted by Judge Rogers and the jurors are now considering the advisability of working overtime in order to clean up the investigation and have their presentment ready this

The appearance of the Mayor and numerous ward leaders and division workers of the Tenderioin, who will follow him today in the vice investigation, attracted an immense crowd to City Hall. Those who control the divisions in this district, small-fry political workers and

others whose faces are familiar in the central police courts are waiting anxiously to hear the outcome of today's session, which promises to be the most strenuous of any Many were apparently worried by the Mayor's announcement that he wanted the truth no matter whom it hurt or com-

Before entering the jury room the Mayor held a lengthy conference with District Attorney Rotan. The latter accompanied him before the jury. It was noticed that the Mayor carried a large bundle of papers,

many of which, it is said, were reports at

the various Tenderioin police stations. Politicians who profess to know predicted that the investigation would end Friday, and that many concerned would be let dicted that the investigation would be let down easily. Their prediction is based on yesterday's alibis made by Police Superintendent Robinson concerning the return of slot machines which had been returned by the police and the declaration of Captain McFadden that Robinson was not to blame for the delay in issuing warrants for gamblers.

Robinson is expected to go of Control today and will explain, it is said, that the slot machines seized in the house on Ridge avenue were returned because their owner had not used them in the last four years.

Despite this expected alibi, however, 'Isis pointed out by those who have been following the probe that there is a law which provides that the police shall retain possession of all gambling paraphernalia found in a place and seize such game or device with or without warrant and arrest without warrant any person setting up

This law shows, it is contended, that there was no necessity for warrants in the Ridge avenue case nor any excuse for returning the machines to the owner.
