Three deaths and two new cases of infantile paralysis have been reported to the Bureau of Health in the last 34 hours. The third death was reported this morning. Edward Condon, 10 years old, 2505 East Auburn street, died at his home without medical attention. The health department knew nothing of the case until the death report came in.

The new cases were those of Charles Cook, months old, 8917 Frankford avenue, Fortyfirst Ward, and Louis Dripps, 7 months old, 3344 Reese street, Forty-third Ward.

SYSTEMATIZING REPORTS. Efforts are being made at the Bureau of Health in City Hall to tabulate the new cases and the deaths as they are reported. There is said to have been so much carelessness on the part of inspectors and investigators sending in reports, and failures en the part of physicians to obtain the correct names and addresses of the victims that the records are incomplete and inaccurate. Names are being duplicated, it is said, and addresses of victims interchanged in the records, so that accurate information on the situation in the city is difficult to obtain.

Girls employed in Medical Inspector Cairn's office to do this work, it is said, are making no efforts to verify the names Many calls for information about health

### **NEW YORK CARMEN** ACCEPT PEACE TERMS; **BIG STRIKE NEARS END**

Mayor Mitchel and Public Service Commissioner Oscar S. Straus Win Their Acquiescence

FOODSTUFF "CLEAN - UP" COMPANY DEFERS ACTION

NEW YORK, Aug. 7 .- The striking employes of the New York City Railways Company at a meefing this afternoon indorsed the agreement which was brought about through the efforts of Mayor Mitchel and Public Service Commissioner Oscar S. Strauss. William D. Mahon, president of the Electric Railway Men, immediately left the meeting place to notify Mayor Mitchel of the action taken.

Up to that time the meeting of the diectors of the company which was called o accept or reject the agreement had not reported taking any decisive action.

The general principles of the agreement, It was reported, are these:

First. The right of the employes to organize.

Second. A reasonable wage increase, Third. Employes shall not be dismissed for belonging to the union, and all strikers shall be accorded the same treatment they got before the strike

Fourth. There is to be no formal recognition of the union as such, nor any "signed-up" agreement between the union and employers for the present. Both Theodore P. Shonts, president of the New York Railways Company, and W. D. Mahon, president of the union, expressed

satisfaction over the terms of the agree-

ment. The understanding between the company and the men was brought about through the efforts of Mayor Mitchel and Oscar Straus, of the Public Service Commission. While the basis of settlement affects only the New York Railways Company, it is believed that it will be accepted by the Third Avenue Railways Company as well. The area covered by the agreement lies in the borough of Manhattan and does not extend to the borough of Richmond (Staten Island), the borough of the Bronx nor the

borough of Queens. Secretary Wilson, of the Federal Departnent of Labor, who came here from Washington to help bring about an adjustment, arrived too late to be of any material as-

stance. Figures compiled by the police show that here was a slight improvement in the surface car service on Sunday. There has also been a marked absence of disorderly

scenes. Only about half a dozen arrests have been made in the city since the strike be-

gan. The tie-up of surface lines led to an extra rush of passenger traffic in the sub-

way. Following a conference between Man ager Frank Hedley, of the Interboyough Rapid Transit Company, and Mr. Shonts, the following notice was posted in the

aubway: "Traffic in the subway and on the elevated lines being temporarily increased by disturbed surface railway conditions, thereby putting extra burdens on the em ployes, it is announced that all interborough employes, numbering 12,000, and including every department, will receive \$1

per day extra pay until further notice.

One death and a number of heat prestrations were reported up to noon today as the result of the rapidly rising temperature, which promises to surpass by many degrees the record of yesterday. The Weather Bureau announced that the day would in all probability prove a record breaker.

The first victim was Frank Donahue, 27 years old, of 2674 Martha street. He was stricken while working about his home this morning. A nearby physician, who was summoned to the house, found the man beyond medical aid.

A number of prostrations were reported this morning. They are Alexander Johnson, 32 years, sailor from the steamship Scaclanian, anchored off Chestnut street wharf, Pennsylvania Hospital; Solomon Diamond, 60 years, of 525 South Second street, Pennsylvania Hospital, and Frederick Porter, 58 years, of 527 South Second

The hourly rise in temperature, which shows an increase of several points over yesterday, has caused the local weather man to admit that today would be a 'scorcher," and that it would be well to 'make the best of it." The excessive humidity, recorded at 92, coupled with the ligh temperature, answers for the intense

suffering. A bulletin from Washington, D. C., reads temporary relief from the excessive heat wave that has again come over the Middle West was promised by the United States weather foregaster today. Showers late to day or tomorrow will force the temperature down slightly in all the lower lake region States. By Wednesday, however, the showers will cease and temperatures will crawl higher." It is hoped that the predicted relief will apply to the eastern States. Heat caused two deaths here yesterday, which, by the way, was not at all the hot-test of the year. It was only the third

LONDON, Aug. 7. There was another night of violent fighting north of Pozieres, along the ridge which the British captured from the Germans last

Friday night. The British War Office, in an official report issued early this afternoon, stated that the Germans renewed their counterattacks against the British positions, but that all were repulsed.

The situation on the section of the Somme front held by the British is unchanged, it was said.

The ground captured by the English and Australian soldiers along the German-second line, between the Ancre and Somme Rivers, has been strongly consolidated and fully organized and the German attacks, although driven home viciously, broke to pleces against the British defense. In some of the attacks Germans used liquid fire, but the British soldiers, although unused to this form of weapon, stood their ground like veterans.

text of the official report follows: The situation is unchanged has been strong artillery activity on the part of the enemy between the Ancre and Somme, both against our lines and

the areas in the rear of the front. Small counter-attacks east of Pozieres were all repulsed with loss to the en We retained the ground won yesterday.

#### TO RETAKE GROUND LOST TO FRENCH AT VERDUN

PARIS, Aug. 7 Another powerful effort was made by the Germans last night to win back the ground they had lost to the French on the Verdun front, but all of the attacks were repulsed, the French War Office announced n its official communique today.

The Germans assaulted French positions at Thiaumont work, in Vaux Wood and in Chapitre Wood, but were unable to gain any advantage. There was violent artillery activity north

of the Somme River and in the sector of Chaulnes. Cannonading around Chaulnes indicates that the area of fighting on the mme front is being extended southward.

More Than 6000 Trolleymen Stick to Jobs With P. R. T.

MOVE CALLED FAILURE

Union Leaders, However, Say Walk-out of Employes Will Be "Gradual"

Early Developments of Trolley Strike

THREE arrests, but virtually no disorder today.

Thomas E. Mitten, president of Philadelphia Rapid Transit Company, announces that every car is running, manned by regular employees

Officials of Carmen's Union deny this and say only half of the regu-lar runs from the Eleventh and Lu-zerne streets car barn alone were

taken out.

Striking motorman says that only
10 per cent of union men have answered call to walk out. Union leaders say that 60 per cent of 6200 P. R. T. employs belong to union; transit officials say that union has only 400 members, of whom only half have paid their dues in full

The trifling importance attached to strike in the stock market indicated this afternoon when P. R. T. stock certificates jumped to 18% from 18%, the figure the market opened at this morning.

President Flynn, of union, and P. J. Shea, organizer, say strike is "a gradual movement," which will require several day,

quire several days to grow to full proportions. Police Department announces that

Reports received by the police department from all sections of the city this afternoon gave 125 as the maximum number of metermen and conductors who, up until 1 o'colck, had obeyed the union order to

number of men out at noon.

As the total number of carmen in the employ of the Philadelphia Rapid Transit Company is approximately 6200, the police officials made it plain that they considered

the strike thus far a failure. The sigures of the police department were virtually confirmed by Thomas E. Mitten. president of the transit company, when asked how many men he thought were out.

He replied: "If I said 150, I would be exaggerating." Mr. Mitten shortly before noon began a tour of the various carbarns in the city to see conditions first-hand and to map out the company's course of action. At several of the barns he made short addresses

to the men. At the Eleventh and Luzerne streets barn, where more than 1100 men are employed, Mr. Mitten was introduced by M. L. Gorden, division superintendent, to a group of about 50 motormen and conductors who were waiting to go out on their runs.

MITTEN ADDRESSES MEN. The president of the Transit Company remarked that this was the first time he had ever addressed any of his men personally. He spoke only a few minutes, thanking them for their loyalty to the company. He made no direct promise of an increase in wages, but he assured the men that they would gain more by working along with the Co-operative Plan than they ever would by striking.

The strike which was officially called for 3:30 o'clock this morning by President H. P. Flynn, of Division 477, Amalgamated Asociation of Street and Electric Railway Employes, up to the present time resulted in little besides verbal claims of the union leaders regarding the scope of the ovement and counter-claims of the Philadelphia Rapid Transit Company officials ninimizing the importance of the walkout.

added that the public need not worry. DENY STRIKE FAILURE Mr. Flynn, while stoutly denying that the strike was a failure, has thus far refused to give out any figures as to the number of men who responded to his call. He predicted that the number would be greatly

increased this afternoon, when the crews

change shifts. In this contention he was supported by P. J. Shea, a national organizer, who has been working among the union men here. Mr. Shea characterized the strike as " gradual movement," the full effects of which wil not be realized for two or three days. The claim of Mr. Mitten thut all the cars went out on schedule time was statty denied by Shea, who referred to a report
