Gli Austriaci Portano Rinforzi ad Est di Gorizia, Ma Non Riescono ad Arrestare gli Italiani

Ecco il testo del bollettino odierno del generale Cadorna appena pubblicato dal Ministero della Guerra;

Sull'altoplane del Carso nol abbiamo continuato a pramere il nemico. Ab-biamo sfondato una fortissima linea di trinceramenti nemici ad est di Nadiogem (Quota 212) ed abbiamo catturato 800 prigionierri tra cui 12 umi-

Le forze italiane impegnate nella zona di Tolmino hanno guadagnato una prima vit-toria riuscende a penetrare nel subborghi della citta'. Un dispaccio dalla fronte all'Idea Nazionale dice che i subborghi di Tolmino sono stati occupati e sono ora fer-mamente tenuti dalle truppe italiane. Nella regione ad est di Gorizia gli italiani

ontinuano ad avanzare, nonostante i grandi continuano ad avanzare, nonostante i grandi rinforzi portati su quella zona dagli au-striaci ed il fatto che questi hanno stabilito una nuova linea di difesa. Ne' rinforzi ne' altro hanno potuto arrestare le truppe della terza armata comandata dal duca d'Aosta. Il generale Cadorna, che entro' nella citta' di Gorizia subito dopo che essa fu occupata dalle forze italiane, ha pubblicato un manifesto nel quale minaccia di far fucliare sommariamente tutti prigionieri aus-triaci che sono sorpresi con una divisa ital-

inna 9 con pallottole esplosive.

Alcuni critici militari italiani dicono di credere che il generale Cadorna, dopo aver-cacciato gli austriaci dalla parte settentionale del Carso, arrestera' la sua marcia su Trieste fino alla caduta di Tolmino, quando egli iniziera' una invasione generale

dell'Austria, su tutta la fronte orientale. Mentre tutta l'attenzione degli italiani e' concentrata sugli avvenimenti che da poco piu' di una settimana si vanno verificando sull'Isonzo, importanti combattimenti si sono avuti anche su altri settori della vasta fronte di battaglia italo-austriaca. Gli aus-triaci hanno infatti tentato un po' dap-pertutto di raggiare la resistenza italiana allo scopo di fare diversioni che valessero ad alleggerire la pressione delle forze italiane sull'Isonzo, ma hanno incontrato dappertutto una resistenza che non hanno potuto superara

GERMANS FORCE FRESH ATTACKS ON VERDUN FRONT; ALLIES GAIN ALONG SOMME

PARIS, Aug. 14.—Fighting was in prog-ess on both banks of the Meuse in the sec-tor of Verdun during the night, while on the omme front the French extended their

positions. North of the Somme River, says the French War Office in its official communique, there was a violent cannonade in the

egion of Maurepas. South of the river the French enlarged their positions and captured elements of trenches at Fay and Denicourt. On the Verdun front the fighting was

forced by the Germans. French positions in the region of Hill No. 304, west of the Meuse, and at Fleury, east of the river, were vigorously attacked by the troops of the German Crown Prince three times, but all the assaults were repulsed.

Between the Oise and the Alsne a vio-lent artillery struggle occurred on the sector of Moulins and Sou St. Ouvent. The success of the new French turust north of the Somme in Saturday's and Sunday's fighting increases the peril of the German line from Combles to Peronne. The capture of the villages of Maurepas and

Clery, necessary to an advance against Peronne from the north, is believed certain under the next great blow on this front. The Germans bombarded the French lin around Maurepas heavily last night. are expected to launch a heavy counter-attack to batter in the wedge thrust into their lines, and it is possible this cannonad-ing preceded a strong infantry attack.

ITALIANS GAIN FRESH GROUND ON CARSO PLATEAU AND EAST OF GORIZIA; TAKE CAPTIVES

ROME, Aug. 14.-Further progress for the Italians east of Gorinia and the capture of Austro-Hungarian entrenchments were reported by the War Office today. Eight hundred more Austro-Hungarian

risoners have been captured.

The official statement says that eastward of Nadlogem (Hill No. 212) Austro-Hun-garian intrenchments were pierced. On the remainder of the front the Austro-Hungarians made attacks, but all were repulsed

Italian forces engaged with the Austrians at the northern end of the Isongo front have won a victory, penetrating the suburbs of Tolmino. A dispatch to the Ida Nazionale from the front reports that the outer suburbs of Tolmino are now firmly in the hands of the Italians. In the region east of Gorizia the Italians

continue their advance and have captured everal more important Austro-Hungarian sitions making many prisoners. Although the Austro-Hungarians were they have been unable to check the progress

of the Duke of Aosta's army. Lieutenant General Cadorna, chief of th Italian General Staff, who went to the aptured city of Gorizia after it fell, has published a proclamation threatening to shoot all Austro-Hungarian prisoners caught wearing Italian uniforms possessing explosive bullets.

The vigorous efforts General Cadorna i making east of the Doberdo Basin, on the northwestern section of the Carso plateau, has a double and equally important ob-jective. This section of the Carso is crossed by three roads, which are now all controlled by the Italians. The most important of them is the one which, through Oppac-

Heavy road runs the Vippacco River, the valley gus were bombarding the Bulgar works at road runs the Vippacco River, the valley of which is followed by the most important road and the railroad from Gorizia to Trieste. It is in this valley that General Cadorna strives to debouch to cut the most direct communications with Trieste and to envelop the hills east of Gorizia, which are still in the hands of the Austrians and are quite strongly fortified.

Once the rough crests forming the orthern edge of the Carso are overcome the Italian right wing can easily debouch in the Vippacco Valley at Prebacina or Dornberg, cut the railroad there and bring its heavy callbers against the San Marco hill east of Gorigia, which is siready under fire from the Italian batteries on the fourth summit of the San Michele and near Aissovizza.

Operations which the Italians are reported to have started in the Plava sector, some seven miles north of Gorizia, on the east bank of the Isonzo, have also the character of a maneuver for the envelopment of the Monte Santo positions, which are under fire from the Italian batteries on the Sabotino, just across the river, but are still strongly held by the Austrians, and of the San Daniele Heights, also held by the Austrians.

A battle is reported to be in progress in the Tolmino sector, and Italian detachments are said to have already occupied the suburbs of the fortified town, which is eight miles north of Piava. The Isonzo front must necessarily be smashed here also, if the whole line is to be securely in the hands of the Italians and General Cadorna is to start his march eastward to Laibach, and southward to Triests. Tolmino, however, cannot resist long, its defensive value havng been greatly impaired by the fall of

This is a 65-mile LONDON, Aug. 14. - Fresh indications that the long-awaited Balkan offensive of the Allies is about to begin comes in the news today from Vienna that the Italians also have started active operations there No mention is made of this in the official statements from any Allied source, but the

Vienna communique says that there was "skirmishing along the lower Voyusa, in Albania. Military experts here attached the greatest importance to this news. The Voyusa, or Viosa, empties into the Adriatic a lit-tle north of Valona, where the Italians had an army of around 100,000 men at last accounts. This is, of course, the extreme left of the allied line across northern Greece and southern Albania.
