Teuton Counter - Attacks Check Russian March on Lemberg

ITALIANS NEARING GOAL

War Moves on All Fronts Outlined for Quick Reading

1. Russian front—The Russian advance on Lemberg has been temporarily checked by von Bothmer's flerce counter - attacks. Petrograd, however, advices state that these have been repulsed.

2. Italian front—General Ca-dorna's forces are steadily making dorna's forces are steadily making headway east and southeast of Go-rizia. Italian advance guards are reported to be only 11 miles from

Triecte.
3. West front—Beaten back by the heavy French assault on both banks of the Somme, the Germans have made no counter-attack against the newly conquered French posi-tions. Violent artillerying, espe-cially near Maurepas and Belloy-en-Santerre, where the French ad-vanced yesterday. Berlin admits certain Allied progress, but claims regaining some ground.

4. Balkan front—Allies from Sa-

lonica base are prosecuting drive to regain Serbia along 100-mile front,

PETROGRAD, Aug. 17. The capture of nearly \$000 additional Austro-Germans, including 198 officers, was announced today by the Russian War Office. This brings the total number of Germans and Austro-Hungarians captured in the Russian drive since June 4 up to 166,108 officers and men. Of this total 7955 are officers. Moreover, Brussiloff's army captured recently 36 guns and 14,000

Artillery and rifle duels are continued along the front, the official report states, and it also announces the repulse of counter-attacks.

Kemmern, west of Riga, has been bomharded by a Zeppelin.

General von Bothmer's Austro-German army which retreated from the Stripa River is making a strong stand north of the Dniester between the Zlota Lipa and the Narajowka Rivers, and furious fighting is in progress in that district.

The Austro-German counter-attacks, coupled with intense artillery fire, brought about a temporary check of the Russian advance in that region, but it is believed that the drive will soon be in full swing again. artillery fire.

the Russians continue their steady progress; notably west of the upper Sereth and on the line stretching south from the Dniester to the lower ranges of the Carpathians.

In the Carpathians the Russians have captured more dominating heights and are fighting hard to get control of Jablonitza law." Pass, known as the key to the Carpathians. The appointment of General Nicholas

Russky to command the northern group of armies facing von Hindenburg is believed here to be the prelude to great activity in Poland. Military critics expect the Russians to launch a strong offensive from the Baltic to the Pinsk district.

BERLIN, Aug. 17 .- German troops have repulsed Russian attacks at many points on the eastern front and captured the Staraobezyna Hill in the Carpathians, it was officially announced this afternoon. Near Toustobaby and Konozani, Russian attacks were fruitless. In the region of Batkow and Harburzew, Russian night attacks also were repulsed.

ITALIAN VANGUARD SAID TO BE ONLY ELEVEN MILES FROM ITS TRIESTE GOAL

ROME, Aug. 17. A dispatch from Udine, the Italian base, mys that the advance guard of the Italians la only about eleven miles from Trieste.

While the Austro-Hungarians are attreats a diversion, the steady progress of the way through the mountain defenses of the their usual corners.

The strongly built trenches on the Carso plateau, southeast of Gorizia, are falling toto the hands of the Italians one by one. The battle in that district never ceases day or night. When the infantry is not attack-

ing the artillery is bombarding.

The report that Germans are being sent to the defense of this sector is credited here, although no formal declaration of war exists between Italy and Germany. Austria-Hungary is in a desperate situation and her beation is getting more serious daily. The Italians are driving forward in two directions from Trieste, one force cutting directly tions from Trieste, one force cutting directly sastward against the high positions that lie at the base of the Istria peninsula and the

TAKE SALOONS OUT OF POLITICS ORDER TO SEASHORE POLICE

Director Sooy, of Atlantic City, Threatens Licenses

ATLANTIC CITY, Aug. 17.-Director of Public Safety Sooy, who has made threats to revoke the licenses of three of the largest cafes on the Boardwalk, admitted today that it was a move to take shore saloons out of politics. Ability to deliver votes has long been an important consideration in the license game here.

"Some people who hold licenses seem to think they can go as far as they like with the law and then have everything squared by going to some politician," Director Scoy "I think it is time to convince some of them that that sort of thing will not work any longer in Atlantic City. My theory is that a license holder here enters into a contract with the city. If he doesn't abide by the terms of his contract, we'll have to take his license away from him."

KRUSEN PLACES SUNDAY SCHOOLS IN QUARANTINE

Health Director Requests Closing in Effort to Check Plague

WIDENS PROTECTION RING

Infantile Paralysis Since Midnight

Deaths in New York.....
New cases in Pennsylvania... New cases in New Jersey

A rigid ring of regulations to prevent nass movements of children was formulated today by the health officials and police in an effort to check the spread of infantile paralysis in the city.

All Sunday schools will be closed beginning next Sunday, following a request issued at noon by Director Krusen, of the Department of Public Health and Charities. All block parties, street carnivals, perch parties and hay and automobile rides connected with such gatherings are prohibited after Saturday night in an order issued by Superintendent of Police Robinson at the request of Director Krusen. At the same time a warning to parents to keep children off boats and cars was issued by Dr. J. M. Campbell, chief of the State medical inspectors in Philadelphia. Many Boy Scout troops voluntarily have postponed meetings for an indefinite period.

DIRECTOR KRUSEN'S REQUEST. Director Krusen's request, which is addressed to all pastors of churches and superintendents of Sunday schools, reads as

In view of the fact that cases of infantile paralysis are being reported daily, you are requested to at once close all churches and Sunday schools to children under 16 years of age until further notice. This is done in order to prevent the extension of this disease. May we have your hearty co-operation? Street and porch parties already planned for tonight, tomorrow night and Saturday night will be permitted providing they are

given in no block where a case of the dis-

ease is present. Four deaths and only two new cases reported since midnight give rise to the hope that the epidemic is on the wane and that the specter of infantile paralysis will disappear. The number of deaths today probably would have been below normal were it not for the record-breaking number of new cases yesterday, health officials pointed

The two additional cases of the plague oday are Philip Zimbardo, 11 months old, 1108 Halls treet, and Tony Vitanelli, 2 years old, 2850 North Twenty-first street. The record now is 232 cases and 62 deaths. The Pasqualla baby died after being

brought to this city from Lenni, Delaware County, over the Pennsylvania Railread August 10. At that time it was sick, but paralysis did not develop until later. This case was used by Doctor Campbell as an example of the danger attending taking children on trips. Doctor Campbell today sent 15 inspectors to Chester to examine boats and trains arriving in that city.

A scattering of the epidemic into the suburbs was noticeable today, a death occurring in Abington township and a new case, that of three-year-old Bessie Siskin, of 779 Kaighn avenue, appearing in Camden.

MELIEVE CAR HIT GIRL FOUND NEAR ROADSIDE

Motorman Thought He Struck Dog; Discovered Umbrella in Fender-Victim May Die

Miss Maud Pagdin, 22 years old, who was found lying unceracious from a double fracture of the skull and other injuries beside the car tracks in Ogontz road, near Washington lane, last night, is believed by the police to have been struck by a Willow Grove car. But they have not been able to answer the question why, if she was struck by a car, motormen passed the spot for nearly two hours without seeing her, and she was finally discovered because she lay directly in the light from a car.

Henry Jones, motorman of the Willow Grove car, went to the Branchtown police station after Miss Pagdin had been sen to the Germantown Hospital and told how he had found an umbrella in the fender of the car when he reached the end of the line. He said that he had felt his car bump, but thought he had struck a dog which had been running along the side of the car at that point. He had not stopped. he said, to investigate. He was released after he had given the statement. The conductor of the car was not questioned, nor was his name obtained by the police. He has not been arrested.

Dr. C. F. Andrew, who is attending Miss Pagdin at the hospital, said today that her skull was broken in two places, her collarbone was fractured and she was bruised and cut in many places about the body. He said her injuries showed she might have been struck by a street car and knocked off the track. Her condition improved this morning, the physician said, but she still is in a critical condition. Miss Pugdin is the daughter of Mrs. Eliza

both Pagdin, a widow, who lives at the northeast corner of Washington lane and Limekiln pike, Pittvilie. She is a sister of William Pagdin, former tenor soloist in Holy Trinity Church, Nineteenth and Walnut streets, who is now at his summer home at Spring Lake, N. J.

GRAIN EMBARGO CONTINUES; BIG SUPPLY ON HAND

The embargo on grain for export through Philadelphia is still in force, the Penn sylvania railroad has announced. The railroad's elevator at Girard Point is full and there are from 200 t. 300 cars waiting to be unloaded. Because of the accumulation an embargo has been placed on all grain shipments through Locust Point terminals in Baltimore of the Paltimore and Ohio Railroad, covering shipments on boat lines or railroads, irrespective of origin, consigned, reconsigned or to be reconsigned for ex. ing this afternoon with the big general comport. It is said that 15,000,000 bushels are stored in the Locust Point elevators without tonnage available for its removal.

Facts in Railway Tangle Faced Today by President

DRESIDENT WILSON calls presto Washington for a conference.

Employes' committee of six hundred will hear outline of the President's plan of settlement this after-

Railway managers submit fur-ther facts and figures in opposition to demands of employes.

The threatened strike, involving 400,000 men, millions in money and the entire United States hinges

largely upon two points: AN EIGHT-HOUR DAY Managers say "good railroading cannot be done under an arbitrary eight-hour schedule."

Employes promised to "speed up" so 10 hours' work will be done in OVERTIME-Pay and a half. Managers want to arbitrate this.

Men say, "needed to enforce eight-working-hours schedule." By ROBERT J. BENDER WASHINGTON, Aug. 17 .- Events in the most dramatic industrial conflict the coun-

try has seen in many years moved swiftly today. Afternoon found President Wilson in his library completing a proposal he was to make this afternoon to 640 representatives of the railway brotherhoods, while the presidents of the country's largest railroads were hurrying to Washington at his re-

quest to hear the same proposal tomorrow afternoon. It became known that the President, in calling by telegraph today for the railroad presidents, did not consider he had yet appealed to the "ultimate authority."

That the President is prepared to go beyond the railroad presidents and, perhaps, seyond the employes' general co 640, was indicated by Judge W. L. Chambers, of the United States Board of Mediation and Conciliation, following a long session with the President, in which the exact proposal to be made to the 640 was outlined. Chambers left the President drafting the final text of his proposal.

THE "ULTIMATE AUTHORITY."

Whom the President has in mind as "ultimate authority"-this is Chambers's expression-could not be learned. One theory is that the President purposes to put the final responsibility for refusal by the railroads to accept his suggestions, on the interests that cwn the railroads as distinct from the railroad presidents. Whom he could name as final authority in the case of the employes, under the same circumstances, could not be said. A request for a referendum by the employes on his proposal was suggested. Judge Chambers refused any enlightenment.

At the White House efforts to obtain an outline of the President's proposal were unavailing, but the attempt revealed the fact the managers and the employes' subcommittee had asked that all their discussions with the President be kept absolutely secret. This was to be true of the President's meetmittee in the East Room of the White

PRESIDENT'S SUMMONS. The President summoned to Washington all presidents of the railroads involved in the wage and labor hours' dispute with the big four brotherhoods. He requests they come to Washington at once.
