

Red Sox Still Confident They Will Win Flag

the king of managers, at least so far as handling pitchers is concerned.

sisted mostly of double-headers. We must take our hat off to Moran. He is

THE Boston Red Sox, now Speakerless and Barryless, believe that they are I going to win the American League championship again and that they will ultimately come through victors for the second time in succession for the world's championship. The way the players figure this out is probably the same as the may Manager Bill Carrigan figured it out yesterday when he thus, as Spartacus, ddressed his listeners:

"I know that we have a hard trip before us in the West, but I figure that of the clubs, with the exception of Detroit, have virtually given up the race. St. Louis made a great showing and one that the owners and manager ought to be proud of, but at that they fell down in the pinch and now they are not coners. The same thing may be said of the Cleveland team. They played fine ball during the greater part of the season, but when the test came they were not there. Now, as for the Detroit club I haven't very much to say. They have played consistent ball all season, and while they are not leading the league at the at time, it may be that they will be leading it before long, although I figure that our club is strong enough to keep in the lead. Naturally we were pleased that the Browns beat the Detroit club yesterday and that we were able to beat the Athletics; but that, of course, is not winning the pennant. "We have not had the best of pitching, but we have the team work that is ial to the success of any team, and when we are going up against teams that have no more of this team work than we have, I calculate that we have better than an even chance to win when we are leading."

STATE COLLEGE, Pa., Sept. 8.—Penn State's clan of gridiron gladiators have officially unhered in the local football sea-son with two practice periods. Under the watchful eyes of Head Coach Harlow and three assistants, twenty-five candidates for the State team went through two house of experienced pair of pacemakers the task of Carman and Wiley was greatly lessened, and they seldon lost their pace long enough to threaten or endanger their lead. he State team went through two hours of Five-mile professional motorcycle race-Won by Herman Vedita; second, Will Vanderberry third, Billy Armstrong, Time, 3 minutes 44 3-5 ight exercise Sues Coast League as Trust

Boston Pitchers in Shape for the Sprint

"I KNOW that a great deal depends on our pitching staff," remarked Carrigan, "and I also know that the pitchers that we have to go up against are not as d as ours if our men are in shape. Of course, you never can tell what will m, but I am sure that Shore, Leonard and Foster will be able to do their of the work from now on, and that means that we will have just as good ching as there is in either league, not even excepting your great Alexander.

When we begin the western trip I believe there is only one club-Detroithas not shot its bolt. As I said before, St. Louis is not in it. Chicago is not from the lead, but it is not the kind of team that will fight. Some of the rs are game to the core, but the club as a whole will not make the showing ght to. Such players as Eddie Collins and Buck Weaver will do their best der all circumstances, but some of the rest of them will not if they think that there is no chance of their winning the pennant, and that is the idea that most

of them have. Cleveland made a good race for a while, but it is not able to keep up the the second made a good race for a while, but it is not able to keep up the use. It is really a pity that it cannot win a pennant, for it has a lot of wat players. It used to be a wonderful thing to see Harry Bay beat out those unts to first and to see Larry and Flick drive in the runs. But those days are ser, and the days of the team for this year are over, too, for that matter. That ub is through. So I figure that the only thing we have to do to win the pennant while is to best Detroit and do as well with the other clubs as they do, and while I am not predicting anything at all, I don't see why we shouldn't be able to do it."

The Kid's Clever, and No Mistake About It!

BOBBY JONES, JR., the child wonder of the South, is through as far as any-thing he might be able to help out with in the play for the national solf cham-pionship of the United States is concerned. But his fame will linger wherever

ord "golf" is in the vocabulary of the citizens for many a long day. ever in the history of American golf has a youth of his age qualified for a nal tournament in the midst of a field of the very cream of the country. Never has a youth of fourteen years ever been given a thought before in such a event. It is likely that his following feats, of ousting a former national cham-on and one of the steadlest match players in America. Ed Byors, and after that ng Frank Dyer, metropolitan wizard and Pennsylvania State champion, next day, will never be equaled.

The boy's nevre is almost superhuman. Nothing worries him in the least, keeps plugging along, utterly unconscious of the way he is upsetting the and of the reputation of the man he is playing. Against Gardner, the upion, he was just as unconcerned as on other days. He joked with Gardner a yaddied along beside him from tee to green; looking like a child indeed is the giant champion.

the grant champion. In a finished goifer. He knows the signs and plays them in a manner ding for one of his youth. His golf is hid on solid rock and he will grow as he goes along. Ten years from now he will only be in his early twenties, the to have something large in the way of a title by that time. At present may his State champion. But this week has made him famous.
