#### WRS. CAROLINE E. WHITE CAMDEN JAIL SLAYER IN WILL GIVES LARGELY TO ANIMAL SOCIETIES

S. P. C. A. and Associated Branches Get Most of \$81,000 Left to Various Charities

ANTI-VIVISECTION GAINS

A total of \$81,000 is left to charitable institutions, including humane and anti-vivisection societies, dispensaries for horses and a home for smaller animals, by the previsions of the will of Mrs. Caroline Earle White, founder and president of the Women's Branch of the Pennsylvania Society for the Prevention of Crueity to Animals, probated today by Register Sheehan.

Sheehan.

The Little Sisters of the Poor, maternity hespitals, children's societies and homes for homeless and industrious boys were included among beneficiaries in the will.

Mrs. White died at her summer home at Nantucket, Mass., on September 6, leaving an estate valued by the executor, Thomas Earle White, a son of the testatrix, as personalty "\$125,000 and upward" and "real tate, \$25,000." The actual value of the estate is said to be far in advance of these figures.

### HIRES NEGRO LAWYER

Thompson, Made Fatalist by His Hindoo Wife, Engages Ex-Harvard Athlete

William C. Matthews, former negro foot-ball star of Harvard University, known as "Black Bill," now an attorney, will defend George E. Thompson, alias McCormick, who, with Wilson Ashbridge, escaped from the Camden County jail July 17, killing Keeper Isnac Hibbs and wounding Joseph Ellis, an-other keeper.

Matthews reached Camden today and went to the jall, where Thompson, in a murderer's cell, is guarded by nine jailers, for a conference with his client.

Thompson believes he will be convicted and will die in the electric chair at Trenton. He is a fatallat, who has become secure in a Hindoo faith taught him by his third wife, Win Soo. She was born in China, of Hindoo parents, and was raised to believe that "what will be will be."

Her faith, taken by Thompson, has freed him from worry. Against the advice of some friends and cellmates, he has retained Matthews, the negro lawyer, his friend to defend him, believing that he will be convicted or freed, according to what the fates may have decreed for him.

Extra precautions have been taken at the Camden County jail to hold Thompson and Ashbridge. Thompson is in a small cell within a large one. He is allowed only one hour each day for exercise outside and that hour is at a time when all other prisoners are in their cells. Ashbridge occupies a cell fifty feet away. There are no means for them to communicate with each other.

Thompson was in jall on a charge of forgery when he and Ashbridge escaped. Ashbridge was arrested the next day in Chester, where he had gone to meet his wife. Thompson was arrested ten days ago in Boston and brought to Camden washarded.

#### FIFTY KANSAS MEN LYNCH MURDERER

Armed Olathe Mob Forces Sheriff and Firemen to Surrender Convicted Man

OLATHE, Kan., Sept. 31.—Storming the jail, fifty armed men early today lynched Bert Dudiey, avenging the murder of Mr. and Mrs. Henry Miller, for which he was convicted Tuesday.

The mob called on Sheriff Carroll about midnight and demanded that Dudley be released to them. He refused.

"Better let us have him," said the leader. We are prepared to take him."

"We are prepared to take him."

The men cut loose with a volley of shots and the officer yielded.

But Mrs. Caroli had fied in the meantime with the jail keys. Determined to get their man, the mob battered in two jail doors, and when the fire department attacked the crowd with streams of water they forced the firemen to retreat at gun points.

Beizing Dudley, the mob hurried with him to waiting motorcars, threw a rope around his neck, sped a quarter of a mile to the Frisco depot and hanged him to a telephone pole.

Dudley, an ex-convict and white, was con victed of first-degree murder, which carries a sentence of life imprisonment.

The farmers planted more grain than they did cabbage, he says. That seems place the blame rather definitely.

Director Wilmer Krusen, of the Department of Public Health and Charities, in

ment of Public Health and Charities, in a communication today will ask Councils for an additional appropriation of approximately \$73,000 for extra expenses incurred in fighting the infantile paralysis epidemic in this city.

The request, it was said, would be for not more than \$75,000 and not less than \$70,000. The expenses incurred in fighting the plague have been unusually heavy and money which now is being spent by the Department is being taken from the expense funds appropriated for the months of November and December. The additional appropriation, Director Krusen said, is needed virtually to put the Department on its feet, as far as running expenses are concerned.

concerned.

In asking Councils for the appropriation, it will be explained that the expenses of the Department have been largely increased. the Department have been largely increased owing to the cost of operating the Philadelphia Hospital for Contagious Diseases, especially while the epidemic was at its height. In average years, during the month of August, not more than 100 patients are treated there. In August of this year the number was 485. Two ambulances, needed to transfer the young victims, also were purchased by the Department.

Cesspools, stables and refuse piles are blamed for the prevalence of infantile paralysis by James F. McCrudden, chief of the Division of Housing and Sanitation. The chief of the Burcau of Sanitation says he has been hampered in his investiga-

Philadelphia has more than 20,000 of these breeding places of disease, he stated.

Policeman Defeats Challenger Who Doubted His Running Ability

"You're too fat, you can't run; you couldn't catch me if you tried."

These remarks were addressed to Policeman Hendrickson, of the Nineteenth and Oxford streets station, who weighs 250 pounds, by a fifty-year-old woman he was about to arrest for disorderly conduct at Sixteenth and Thompson streets late yesterday. Thereupon she picked up her skirts and ran for two blocks, while Hendrickson, puffing like a steam engine, followed. He puffing like a steam engine, followed. He

The prisoner gave her name as Mrs. Anna Wells, 904 North Thirteenth street. She begged so hard for her freedom today that Magistrate Collins released her. According to the testimony she was loitering on a street corner, became abusive when ordered to move on, and topped it off with the afore-

said taunt. Incidentally Policeman Hendrickson has won watches, medals and other parapher-nalia for winning 100-yard dashes for fat men at all the recent police carnivals. Mrs. Wells evidently was not aware of that fact.

LAST OF GRADE CROSSINGS ON READING BEING REMOVED

Dangerous Highway at Fernwood to Run Under Tracks

The work of removing the last grade crossing on the New York division of the Philadelphia and Reading Railway in Philadelphia began this morning when Edwin M. Abbott, president of the Oak Lane Park Improvement Association, raised the first shovelful of dirt from Green lane, just south of Fernwood station.

It was largely through the efforts of the association, coupled with the assistance of the late Ex-Governor Pennypacker and William Webster, present director of the Department of Docks, Wharves and Ferries, that the Public Service Commission ordered the removal of the dangerous crossing at this point.

Councils recently appropriated \$125,000 and the railroad \$40,000 for the work. Green lane will be widened and depressed under the tracks. After completion it will be called Godfrey avenue and a magnificent boulevard extending from York road to Second street pike is planned. A new station to cost \$40,000 will also be erected by the Philadelphia and Reading Railway. Mr. Abbott this morning spoke of the work done by the association, the aid re-

Denver Men Launch Movement to Protect Our Maids After War

DENVER, Col., Sept. 21.- "Marry American women first" is the fatest me inaugurated by Clarence Cobb, Denver clety man, who says that patriotic motives and not others inspired the idea.

"Maybe you've read about the husband famine in Europe," said Cobb today. "The women there outnumber the men two to one. After the war the proportion may be three to one. What does this portend? The most terrible struggle for men the world has ever seen. No woman will be able to relax her vigilance for a moment. Once she pauses in the struggle some other. Once she pauses in the struggle some other woman may grab her one and last matrimental chance."

## AWar On Fire!

Fire is everyone's enemy.

Fire last year destroyed nearly \$250,000,000 worth of property in the United States. Fire last year killed 3,000 persons.

Somewhere a fire breaks out every two minutes and some home, some factory, some school, some theatre, some hospital, some store is doomed.

Yours may be next-who knows? Your wife, your children, your parents, may be in peril.

There is danger ahead. Heed it. Are you prepared? If fire comes tonight, what would you do?

The first five minutes in any fire are the vital ones.

There is a fire extinguisher called Pyrene. We make it. It bears our name.

It is fourteen inches long. Weighs 6 pounds. Works by hand like a pump. A boy of ten can use it.

You can hang it anywhere. It never deteriorates. And it kills quickly all kinds of fire. A few pumps smothers out any kind of fire before it gets big.

Sold by leading hardware, auto supply and elec-

trical dealers.

Former agency relations having expired, we, the makers of the Pyrene Fire Extinguisher, have opened in Philadelphia a direct factory branch to render better service to the public.
