Considerable damage was done on the eastern and southeastern coasts, but the loss of two big, new-styled Zeppelins more than offsets the losses from a military standpoint.

The charred remains of the airmen killed in the destauction of the Zeppelin near Mangold have been collected for an inquest. They probably will be buried with military honors, as was the case with the Germans killed when the L-21 was burned. The sailors on the other Zeppelin brought down in the same county are expected to be treated as honorable prisoners of war, despite the intense public feeling against them. There are twenty-one of them.

Reports received early today stated that about 150 persons were killed or wounded n the southern and southeastern districts of London. Fires were started, but were on extinguished.

Military officials declare that the air defenses of London have stood the supreme test in repulsing the fleets of raiders which attacked the city recently and on Saturday night. In the first instance an acroplane brought one of the super-Zeppelins tumbling to the ground in flames. Latest reports indicate that anti-aircraft guns scored the hits with which the two airships were destroyed Saturday night. The intest estimate of casualties put the number of men, women and children killed in the raid at thirty. One hundred and ten were injured. Of this number twenty-eight were killed and ninety-nine injured in the metro-

of the airships that took part in the metro-politan district of London. Of the airships that took part in the big raid Saturday night, only three of the Zeppelins approached London for an attack, and they were driven off by the anti-air-craft guas. The two airships brought down fell uear the little village of Mangold. Bodies of the crew of one of the air cruis-Bodies of the crew of one of the air cruis-efg were found scattered about their burned craft, badly charred. of attacks by the Ailled troops at numerous points. It follows:

On the Struma River front British troops continued their raids and have reached Kritsograd. Northeast of Florina the French captured the first of the outlying houses of Petoraka after a vio-lent conflict and advanced north of Florina. West of the town the Russians took the offensive and made an assault on Hill 916, which had been powerfully fortified by the enemy. In this region a counter-attack was checked by our artillery fire and rolled back by Franco-Russian soldiers, who used the bayonet.

South of Lake Presba there has been a lively engagement. A detachment of Bulgarians reached Bitlista.

BUCHAREST, Sept. 25 .- Rumanian and Russian troops, who launched a countereffensive against the German Allies in Debrudja province, have made further progress, the statement announced. More than 300 Austro-Hungarians have been captured in Transylvania. The official report leaued today follows:

Near Hermannstadt (Transylvania), we have captured four more officers and 200 men as well as five machine guns. Further progress has been made in Dobrudja.

LONDON, Sept. 25 .- Six thousand Greek soldiers from the Athens garrison are suarding King Constantine's palace at Tatol, says a wireless dispatch received here today.

"The Philadelphia Ranid Transit Com pany knows nothing of the Stonemen's Fellowship officially," said C. R. Fairchild, Jr. one of the executive secretaries of the company. "No doubt a number of our men belong to the fellowship, but this statement seems to be only something to smile at, as everybody else seems to be smilling at it this morning."

LAWYER HAS LAUGH

When Ellis Ames Ballard, counsel for the Rapid Transit Company, was told of Mr. Stone's claim, he laughed and said he had never known Mr. Stone's name to be connected with the strike or the settlement thereof.

"The idea that Stone ever settled or had anything to do with the strike is a huge joke," said Harry Flynn, local organizer of the Amalgamated Association of Street and Electric Railway Operators of America. "I never saw Stone about anything and I never want to. He never had anything to do with the strike settlement, so far as I know, nor did he ever discuss terms of revances with any union men. They were the only ones who struck, so this statement that he settled the strike is a very good joke indeed."

Harry T. Baxter, leader of that branch of the Stonemen's Fellowship which is in revolt against the Rev. Mr. Stone, said today:

"The only thing I ever neard Mr. Stone say in conection with that, and the only thing I ever knew any Stonemen to hear from him in regard to that, was his announcement at a meeting that he had settled the strike. As far as I know he never made any reference to it while the strike was on." Mr. Baxter was asked if Mr. Stone could

BIGGEST DAY'S TRADING IN STOCKS SINCE 1907

NEW YORK, Sept. 25 .- In the greatest bull market in the history of the New York Stock Exchange today steel, copper and railroad shares advanced to new high records, while frantic brokers crowded and fought to execute orders that poured in from every section of the country. At 2 o'clock 1,847,000 shares had been traded This figure exceeded the total sales of any previous day ten years except March 14, 1907, the panic year, when two and a half million shares were turned over in the five hours. Coming on top of more than two weeks of million-share days, to day's market surpassed anything heretofore known in that standard shares replaced the war stocks of record bull movements of recent months. United States Steel common jumped \$3 a share to \$120, a record price, on the sale of 447,000 shares in four hours, while Wall street discussed reports that Europe is clamoring for steel. which the mills cannot deliver. Late in the afternoon railroad shares were swept into the whirl of bullish activity, Union Pacific selling a new record at 149%, while Erie equaled its best previous performance by crossing 40. Before 2:30 the 2,000,000share mark had been passed, making today the heaviest sales day since 1907.
