# \$2 WHEAT SEEN BY END OF YEAR,

Western Grain Men Mark Crop Shortage and Allies' Demands

CHICAGO REPORT

BAD ARGENTINA NEWS

Situation Rendered Worse by Word From South American Farmers

CHICAGO, Oct. 5 .- Two dollar wheat be fore the first of January was predicted by Chicago grain men today. Prices today. both cash and futures, ranged about 10 cents lower than the record price established in January, 1915, immediately after the outbreak of the European war. The heavy decrease in this year's crop, discouraging conditions in Argentina, and the demand of the Aliles for available Australian and Canadian wheat, were pointed to as factors in the present high price.

FARMERS WAIT FOR ADVANCE Dealers in cash wheat say that virtually all the northwestern farmers are adhering to the decision not to sell wheat at less than two dollars a bushel, while the receipts of grain from other primary shipping points are extremely light. December wheat has reached \$1.59%, as against \$1.06 one year ago. May is \$1.58%, against \$1.07% a year ago. Cash wheat is selling around \$1.65, depending on the grade, while the millers are cagerly snapping up all available milling wheat,

As a result of wheat conditions, millers say, flour continues its steady rise. Special brands were quoted today in Chicago at \$9.10 a barrel wholesale. Millers say that if the wheat advance continues flour prices will have to keep pace.

Members of the Board of Trade said the present high prices could not be blamed on speculation. They said that were it not for open trading on the Board of Trade big elevator men long ago would have cornered the supply and wheat would have been much higher than at persent.

PRODUCE PRICES UP. Produce prices are trailing close behind grain. Potatoes are \$1.45 a bushel wholesale, compared to 48 cents a year ago. Eggs, butter, poultry and other supplies are correspondingly high in most cases. Dealers blame bad weather for the potato shortage and say the hot summer damaged poultry and accounts for high egg prices. With poor crops goes the heavy demand of warring countries for food, and dealers said lower prices were not to be expected this winter unless an embargo was established to keep foodstuffs in this coun-
