#### EVENING LEDGER-PHILADELPHIA, FRIDAY, OCTOBER 6, 1916

New Corset Model With Front Lacing. Center, Slightly Boned Corset for a Young Girl. Right, Model for Stout Figures.

Is amazing how few women know how a select a corset. They huy a partic-model, whether it is suited to their declar figure or not. The slender, will-woman will wear as heavily boned a woman will wear as heavily boned a of stays as her stouter sister, while The slender woman should wear only a lightly boned corset or a girdle. She has no superfluous liesh that must be molded into lines of beauty, and only requires a certain amount of support. The corset made entirely of silk elastic or the corset of lightweight material with just sufficient boning to keep it in shape is the right model for her.

Is amazing how few women know how to select a corset. They huy a partic-treated whether it is suited to their ricular flaure or not. The slender, wil-cy woman will wear as heavily boned a of stars as her stouter sister, while patte wohan will choose as long a at as the tail one. In would not think of buying a hat wit was becoming. Why select a set that does not improve the lines of r faure. When you go to the milliner's a new hat you try on the different mod-and fically purchase the one that ap-tic your most. He just as careful in mission of your stays. Try on the to go most and when you find the one is perfectly comfortable, and heat ied to the proportions of your figure. than it.

We are all aware that the nipped-in We are all aware that the nipped-in mistine is with us again. At present it may be recognized morely by the graceful curve now permited at the sides of the waist but who can tell, as the season ad-vances, if ruffled skirts, panniers and other features of long-ago fashions continue to remain in favor, that the hour-glass figure of our grandmothers will not become more pronounced. It is to be hoped, however, for the sake of health and beauty as well, the tightsen-inch waist and incidental-ies the sightsen-inch waist and incidental-te the sightsen-inch waist and incidentaling will never be countenanced

Since the stout woman requires more prefat corseting than milady of sylph-like conferences, she should be more informed as to the good points of the modern corset. If must of her superfluous flesh is distributed about the hips and abdomen she will re-quire stays that are extra long and are will-bond. It is possible to find such cor-set that are comfortable and pliable so that you will not feel as if you were en-cand in a suit of steel armor. Whale-bound morset is rather high-priced. If you can possibly afford it, however, I advise the suit woman to deny herself something else and invest in a pair of whaleboned stays. Some of the extra-long corsets have sec-tions of slik elastic about the lower edge, the stout woman requires more

Some of the extra-long corrects have sec-ome of side of the front and back. This to prevent any unconifortable pressure of insure perfect freedom of movement dyst at the same time, confine the flesh, ake sure that the bones come in exactly sright places, for frequently, when a cor-the far out suited to the formula is some hat is not suited to the figure is worn, bones press into the fiesh, causing an tation. If the bones are too long they whe same painful effect. he extremely low-busted corset is ex-mit for the slender woman, but her the sister must have a certain amount the more that have a certain amount

port above the waist in order to we a graceful line under the arms.

lines of the figure. The distorted figures, with hips of exaggerated size and small watets are in many instances due to im-proper coresting during young stiribood be-fore the body has fully developed. There are many slightly boned corests and cor-net-walsts manufactured especially for young siris. Nover allow your daughter to wear a stiffly boned corest like her elders. The stout woman should always wear a bransisce waist to obliterate the top line of her, corest and give her that neat, com-pact appentance that is no desirable.

As a site for a large warshouse for Straw-bridge & Clothisr, a plot of ground at the northwest corner of Ninth and Poplar streets, 430 feet on Ninth, 102 feet on Pop-lar and 420 feet on Percy street in the rear. has just been acquired by Mastbaum Broth-ers & Fleisber, Norman 8. Sherwood and Edwin 8. Divon contessming the surveysmert pact appendance that is so desirable. If you desire a graceful, well set-up fig-ure it is imperative to be most careful in the selection of your corset. Edwin S. Dixon, representing the purchasers.
