Gli austriaci hanno tentato diversi violestissimi attacchi contro le posizioni italane delin zona delle Delomiti, ma sono
stati respinti dappertutto. In un solo punto
essi ripscirono a penetrare in una trincea
taliana, ma soltanto in un brevissimo
tratto. Ecco il testo del rapporto del generale Cadorna aulla situazione generale
alla fronte itale-austriaca:

Nella valle del Travignolo, nella
notte del 3 Ottobre, il nemico, dopo
parecchie azioni dimostrative contro le
nostre linee sulle niture a nord della
valle, lancio un nuovo violentinsimo
attacco, ripetuto parecchie voite, contro
le nostre posizioni del Col Bricon, sulla
parte neridionale della valle. Esso fu
respinto dappertutto.

Jeri, dopo una intensa preparazione

Jeri, Gopo una intensa preparazione di artiglieria, il nemico rimpovo' con truppe fresche i suoi sforsi nella regione del Travignoto e riusci' a riprendere una delle nostre posizioni avanzate verso Monte Coi Bricon, nella valle del Piccolo, posizioni che noi avevamo conquistato nella mattina precedente.

Sul resto di questo settore il nemico stato respinto con gravi perdite. Nell'alta valle del Cordevoie noi re-spingemme un attacco di sorpresa fatto dal nemico contro le nostre posizioni sulle faide del Monte Sief.

L'artiglieria nemica ha ripetutamente bombardato luoghi abitati su diversi settori della fronte, ed ha fatto qualche danno nei villaggi di Sano, in Val d'Adige; Avoitri, nell'alta valle del Rio Degano; Timao e Pajlaro, nell'alta vella del But, e Gorizia.

Le nostre batterie hanno risposto efficacemente con una rappresaglia, bombardando gli accampamenti nemici a Birnoaum, nella valle del Gali, e econvolgendo le linee austriacho del Carso.

SULLA FRONTE BALCANICA Mentre le truppe rumene che avevano at-traversato il Danubio ed invaso la Bulgaria sono state costrette a riattraversare il flume davanti a forze superiori bulgare che ten-tavano di accerchiarie, le forze serbe ope-ranti nella Macedonia hanno guadagnato nuovi successi contro i bulgari ed hanno attraversato il flume Cerna in direzione di Monastir, che e' il loro obiettivo immediato, Nel Caucaso i russi hanno ripreso l'offensiva ed hanno battuto i turchi in diversi punti constringendoli a battere in ritirata.

Revealing Today Chalmers Enclosed Cars Interiors by Lady Duff-Gordon

I am revealing today the new creations in Chalmers enclosed cars. The bodies are the best that the Chalmers Company has built.

The lines are different from anything you have seen. You'll find them refreshing—like a breath of crisp autumn air drawn deep into the lungs.
But your first glance inside—that is the revelation. You open the tonneau

door with a little feeling of expectancy, the lights flash on and the whole picture is before your eyes.

No, it is not a painting or a vision. 'Tis reality; entrancing reality.

The interiors, you know, are done by that celebrated artiste, Lady Duff-Gordon, the world's most eminent designer of gowns. She has applied her great knowledge most wonderfully in choosing materials and interior fittings for these great Chalmers cars.

What a privilege to have her name stamped as fashion's final touch on your town car or limousine! What a delight and source of pride to the ladies

And what a comfort! For, as Lady Duff-Gordon says, she has "tried, above all, to make the cars livable."

The woodwork is of inlaid mahogany. The floors richly carpeted. Windows are silk curtained. There's a lounging pillowsof eiderdown and silk, a dainty hassock. Press a button and a toilette case, or a gentleman's smoking set, come out from concealment in the side of the body.

The soft, harmonious colorings which Her Ladyship has specified can be seen far better than described.

There are two Chalmers enclosed bodies, either of which will bring a gasp of admiration from any man, or any man's wife:
