# **GOLDEN FLOOD POURS** INTO UNITED STATES FROM ACROSS OCEAN

More Than a Billion Dollars in the Precious Metal Now Held in This Country and More Coming

## PHILADELPHIA MINT BUSY

e amount of gold in the Unted States esent exceeds any amount held at any line by any country in the world's his-and arrangements are being made at Philadelphia Mint to handle a large of this gold, which has poured into country as a result of the European

Since last May the Philadelphia Mint has secvived \$45,000,000 of this European gold in hars and \$25,000,000 in coin. Furthermore, in the vaults of the Mint at present here are new gold United States coins mounting to \$181,575,000. These are ready or circulation when called for.

It's a case of gold, gold, everywhere; yet mancial agents of the Allies have assured imerican financiars that \$400,000,000 worth of gold is yet to be imported here from Surope in the hear future.

MORE THAN A BILLION IN GOLD

MORE THAN A BILLION IN GOLD
Hear this: In the United States Assay
Office in New York the deposits at present
amount to \$150,000,000; then count the
\$400,000,000 which is coming from Europe;
in the Philadelphia Mint there are the new
coins totaling \$121,575,000 and \$80,000,000
in gold coin and bars. In all, it makes a
grand total—grand in more ways than one
—of \$1,011,000,000. Think of it!

Surely "all the king's horses and all the
king's men" could not haul such a load!
But to be more explicit: Every gold dollar
has \$2.5 grains of pure gold, and there are
7000 Troy grains in one pound avoirdupois.
These \$1,011,000,000 would weigh almost
\$6,000,000,000 grains. or approximately
\$250 tons. If loaded on freight cars, 15,000
pounds to the car, it would take a train of
\$15 cars to carry that amount of gold from
one point to another.

The Assay Office in New York literally

The Assay Office in New York literally a loaded with gold. It is found there in loades, bins, bars and kegs. The gold does not all come here in coin; much of it comes in bars. But whether it comes one way or the other, the gold is all melted again into lars at the Assay Office or at the Mint. These Government bars are almost uni-rm in size and weight, and are known "certificate" bars. Many are valued at proximately \$10,000.

More than fifteen big melting pots are used in the work, and they are busy night and day. During the year ending October 1 the deposits received at the Assay Office amounted to \$450,000,000. The daily average was \$1,370,000.

All this gold which has been pouring into the United States is a part of the American balance in trade with the Allies. Another part of the balance has been taken in the form of American securities which were held abroad, and they amounted to considerably more than the combined value of the gold that has been received and what still is due here in America.

Several financiers agree in saying that the influx of this great amount of gold raises a very serious economic question for the nation—one which will require the highest degree of statesmanship to regulate and control.

### BRAINS NEEDED TO BE STRONG. HIBBEN TELLS NEW STUDENTS

#### Princeton President Tells Young Men Nation Needs Wisdom

PRINCETON, N. J., Oct. 11.—The man of brains is the only kind of strong man in the world today, and college students must learn to believe this if education is to profit them, said John Grier Hibben, president of Princeton University, at the the opening of the institution's one hundred and seventieth year. Work in the university classes opened this morning.

President Hibben said, in particular

sident Hibben said, in part There is only one kind of strong man in the world today, namely, the man of brains. No strong character grows out of ignorance or is formed by habits of indolence and a systematic neglect through the college years of those responsibilities which the very privileges of such a place as this inevitably create.

I rejoice in the fact that to the most casual observer of Princeton's develop-ment during the last few years it is evident that there is a growing appra-ciation among our undergraduates of our intellectual tradition. I recognize the fact that there are difficulties which the fact that there are difficulties which deter any young man from the attempt to explore and command the world of knowledge. You would like to have a richly furnished mind and trained intellect and discerning judgment. You would like to have a wide sweep of vision and an extended mental horizon, but you do not wish to pay the price. And the price which must be paid is the hard grind and the daily sacrifice of time and of energy, and the settling down to a routine from which your whole natural instinct shrinks. In a word, you are not strong enough to attempt a man's work. You are not resolute snough to acquire the work habit. You are not courageous enough to tackle a hard job. You are "slackers" at a time when your country needs not only all the strength, but all the wisdom of its young manhood.

### AUSTRIA MAKING CLOTH FROM PAPER AND NETTLES

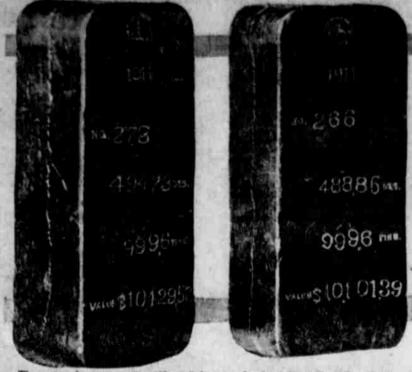

Substitutes for Cotton Yielding Excellent Results, Says Authority

VIENNA, Oct. 11.—Paper in the place of otton has proved of extraordinary value a solving one of Austria-Hungary's greatest problems, according to Arthur Ruffler, resident of the War Association of Coton Spinners, the Government organization controlling cotton consumption.

"The Central Powers," said Herr Kuffler, could use more than a million bales of otton right now, but we are able to get along without it if we must. We are setting 5000 to 10,000 bales a month from Curkay."

Street Lots Mortgage

## GOLD RECEIVED FROM ALLIES

These are known as "certificate" bars, valued at \$10,120 each, which are being melted at the Mint.

## ROOSEVELT ATTACKS WILSON OVER U-BOAT

#### Colonel Says President Has Failed to Look After World's Interests

NEW YORK, Oct. 11.—Taking the exploits of the U-52 as his taxt, Colonel Theodore Roosevelt, in a statement, launched another braodside against President Wilson.

another braodside against President Wilson.

The Colonel traced to the President's policy of inaction when Belgium was invaded the long train of subsequent events which brought this country to the verge of a diplomatic break with Germany, as well as what Colonel Rocsevelt terms England's invasion of American rights on the high seas. The Colonel coclares the conduct of the war has led to a complete breakdown of the code of international rights, and this he blames on the "Pontius Pliate-like construction which President Wilson has put on neutrality."

"President Wilson's ignoble shirking of responsibility has been misclothed in an utterly misleading phrase, the phrase of a coward, "He kept us out of war," said the Colonel in his statement. "In actual reality, war has been creeping nearer and nearer until it stares at us from just beyond our three-mile limit and we face it without policy, plan, purpose or preparation."

ction."

Colonel Roosevelt says President Wilson betrayed his leadership of the neutrals, to which he laid claim in a recent note to Great Britain, when he permitted the sinking of two neutral vessels by the German undersea visitor to pass without protest. He also raises the question whether Germany's guarantees to this country in her final note on the submarine question were lived up to when the commander of the German submersible put non-combatants from the torpedoed vessels in open boats on the October seas. on the October seas.

There were many conferences among leaders at Republican national headquarters at which plans for Colonel Roosevelt's Wilkes-Barre meeting next Saturday night were discussed. A rough draft of the Colonel's speech was gone over minutely. It was decided that after its delivery the speech shall be put in pamphiet form and widely circulated among railroad men and industrial workers.

## FINDS FAMILY UNCONSCIOUS

### Man's Arrival Home Saves His Mother and Two Little Sons

ATLANTIC CITY, N. J., Oct. 11.—When Leslie Coleman, a painter, returned from his work last night at 6 o'clock to his home nother, Mrs. Johnson Coleman, sixty-seven mother, Mrs. Johnson Coleman, sixty-seven years old, and his two sons, Elishs, seven, and Lestie, Jr., nine, unconscious in the grandmother's bedroom. She was seated in a rocking chair and the two boys were in bed. A gas jet was open.

They were taken to the City Hospital, where the boys soon recovered consciousness, but Mrs. Coleman is in a critical concess, but Mrs. Coleman is in a critical concess, but Mrs. Coleman is in a critical concess.

dition. Her son thinks the gas was turned on accidentally.

Accused of Trying to Bribe Judge MAYS LANDING, N. J., Oct. 11.—Attempted bribery of Judge Shinn caused the indictment of Charles P. Brady, a Mispan hotsikeeper, and George Hagner, whom Brady is alleged to have conspired with. When the defendants were called Brady did not respond and inquiry revealed that he had sold his hotel and fied. Hagner pleased guilty.

# **HUNTERS HIE TO BRUSH** AS DEER SEASON OPENS

Game Plentiful in Jersey, but **Hunting Grounds Clogged** With Growth

Hunters from all parts of New Jersey started today for Weymouth, near Hammonton, with an abundance of ammunition and food, for this is the official opening of the deer-hunting season.

While deer are plentiful, the conditions which face the hunter are decidedly depressing. Brush and leaves are thick in the deer-hunting grounds, which is also threaded with entangling bushes and trees. Some parts of the woods are almost im-

Some parts of the woods are almost impenetrable.

It is dangerous to shoot under such conditions, as hunters can see only a short distance from the point of fring. Despite these obstacles, however, quarters have been engaged in nearly every farmhouse which borders the hunting grounds.

Gunners are cautioned against the lighting of matches in the hunting territory, on account of the endiess pyramids of dry leaves. There is an extra force of wardens and deputies on hand to prevent violation of the game laws. The shooting of fawas is prohibited, and those who do not respect this law will be punished with heavy fines. On account of the large number of deer known to be scouring among the brush, many of the hunters have employed small boys to make clearings, in order to reduce the possibility of accidents.

A large number of hunters left from Camden last night and their guns cracked at dawn. Many went to the hunting grounds in automobiles, which they will use also as headquarters while resting between expeditions.

# Farm Sold to Philadelphian

Dr. Thomas Shallow, of Philadelphia, has purchased from H. H. Palmer a farm of 72 acres at Oaka Montgomery County. The sale was negotiated by J. M. Fronefield, of Wayne, Pa. The same broker has sold for John Joyce a farm of 17 acres at Birchrunville, Chester County, to Mrs. Edith Wheeler Johnson, of South Bethlehem.

## JAPAN'S NEW PREMIER HASTENS TO DISCLAIM POLICY OF AGGRESSION

Count Terauchi Says He Plans Only to Protect Nation's "Vital Interests and

## FRIENDLY TO AMERICA

TOKIO, Oct. 11.—The fears of a section of the Japanese public, which have found an echo in the United States and China, that the coming into power of the new ministry may be tantamount to war, were discussed frankly by Premier Count Seiki Terauchi, in giving the first statement he has made in regard to the foreign policy of his administration.

The Premier gave expression in a sentence to the spirit which he declared would animate his dealings with other nations. It was the assertion that Japan would not take any aggressive step toward the United States or any other country 'so long as Japan's vital interests and dignity are not infringed."

"Any idea that I shall wave the sword while I am Prime Minister of Japan is based on a false comprehension of my career and a complete misconception of the

Japanese Empire. Its past and its hopes and ideals for the future," he said. The dramatic summons to the remier-ship of Field Marshal Ternuchi, Japan's ship of Field Marshal Ternuchi, Japan's dominating military figure, has excited a discussion overshadowed by no single event in modern Japanese history. In view of the world-wide interest in the significance of his appointment and the misgivings it apparently has caused, the Premier, who has long had the reputation of taciturnity, consented to break his silence and give to the world a general idea of his purposes and policies.

HIS MESSAGE TO AMERICA.

The Field Marshal said:
Tell the American people that my earnest and constant endeavor shall be to promote the friendly ties which have bound Japan and America for half a century.
"Your people know my administrative record in Korea. Because I am a successful soldier, shall that prevent my being a prudent Minister of State? Say it, repeat it, that I come as a statesman, who is

The Fremier discinimed responsibility for the interview in New York with Baron Sakatani, who was quoted as saying that the repeal of American laws regarded by the Japanese as discriminatory against them was a matter of "justice and necessity"

SILENT AS TO CHINA.

SILENT AS TO CHINA.

He deciared emphatically that, as Premier, he would undertake no new steps in regard to the so-called American problems, including immigration. In this respect, he said, he would follow closely the policies of the outgoing Cabinet.

"What will be Japan's policy toward China?" the correspondent asked.

"As the Ministry was organized only yesterday. I have not discussed China with my associates." he replied. However, possiting generally, Japan's ambition is to have China benefit. like Japan, from the fruits of world civilization and world progress. The Japanese and Chinese peoples have sprung from the same stock. Our future destiny is a common destiny that is historically involved."

Though he was unable to dwell on a de-

historically involved."

Though he was unable to dwell on a detailed pregram, the Premier continued, he could affirm that America's interests in China would be harmed in nowne by Japan, which had no intention of violating China's sovereignity or preventing interested nations from having equal opportunities.
"People talk of chaing the door," he said. "That is a complete nonpossumus.
"Bo long as Japan's vital interests and dignity are not infringed Japan will take no aggressive step against any nation, especially America."
"Will the Japanesse alliance with Russia.

"Will the Japanese alliance with Russia be the basis of policy in the Orient?" he was asked.

be the basis of policy in the Orient?" he was asked.

"Japan, true to her obligations, naturally will be bound in her future policies by her alliances with Great Britain and Russia," he responded, "but that does not imply disregard of fostering amity with others, notably America, whose friendship and cooperation we have every reason to cherish. The empire faces a situation which demands strenuous and unified exertions to secure reforms of the national life, to nourish the strength of her resources and to place the nation on an unshakable foundation of secure and lasting peace in the Far fast. Our supreme efforts abroad should be to maintain faith with foreign Powers and to be strictly fair and upright. Japan's progress as a world Power, which is inevitable, must be marked with prudence and caution, especially in the period of a world crisis."

The Premier said he saw no likelihood of more active participation in the war by Japan. He ridiculed suspicions that Japan

FATHERS' ASS'N TO MEET Frankford School Patrons to Hear To on Liberty Bell's Trip

Independents Hold Conference

The Liberty Bell's epoch-making the San Francisco will be the subject of an instrated lecture to be given to sight in nection with the first fall meeting of Fathers' Association of the Francisch Building. John Sidebeth will preside. The Fathers' Association is said to the first of its kind ever established members look after the welfare of the dents and supply all their needs that not provided by the Board of Education of the said the average attendance is see.

DOVER. Del. Oct. 11.—The Progressives and independent Republicans of Kent County held a joint meeting here late yesterday and indersed the regular Republican county ticket, with the exception of John T. Buckson, candidate for Representative from the Pith District. The independent Republicans agreed to support the third State ticket, to be placed in the field by the Progressives.

The illustrated lecture will be given Joseph P. Gaffney, of Councils the committee. Prof. G. Alvin Snoot, pro-cipal of the High School, will tell of hectivities of the boys and girls attend Mayor Smith is expected to make a the address.

> MANN & DILKS 1102 CHESTNUT STREET

Manufacturers of Shirts, Gowns, Pajames, Etc. Importers of Underwear, Hosiery, Gloves, Cravats

Quality First

After Nov. 30, it will cost you just \$70 more to buy a 7-22 Chalmers. But the price on the 5-passenger 3400 r.p.m. Chalmers remains (for the time being) \$1090 Detroit

Until midnight of Nov. 30 you can get a 7-22 Chalmers for \$1280 Detroit a car of rare ability, fascinating in body equipment, and, like a beautiful woman, of exquisite charm.

After that date the price becomes \$1350 Detroit-\$70 more. The \$70 is just a few dollars less than the increase in cost of manufacture of this car since its appearance in June.

To those who have longed for the 5-passenger 3400 r. p. m. Chalmers—and have not yet possessed one, just a word of warning: the price remains unchanged just now-\$1090 Detroit; we do not know how long this low price will continue. We reserve the right to increase the price without notice.

Only those who are buying materials such as go into high-grade automobiles can begin to realize the steady, upward trend of the materials market.

Just one condition today prevents a rise in price of the 5-passenger 8400 r. p. m. Chalmers—the fact that these care are being made on a factory "work order" dating back several months."

Since the "work order" went through materials have jumped in cost again.
When the current "work order" is completed and if meterials remain at their present level or rise higher, only one course will be possible, an increased price. Those who have been driving Chalmers cars know how diligent has been the Chalmers effort to set down cars of the quality kind.

They will understand how impossible it would be for Chalmers to dodge the increase-in-materials issue and maintain the prevailing price on the 7-22 Chalmers.

Lower the quality of the Chalmers car? Never. The Chalmers men take great pride, not only in the money the car makes for them, but in the car itself. And pride, as everyone knows, is a thing that can never be compromised.

It would be like Tissot trying to paint a picture to fit a price.

As long as there's a name "Chalmers", there will be a quality car, and as long as there's a quality car there'll be a price fixed—not by the Sales Department—but

by cost accountants. And there'll be a fair deal. Chalmers says these two 3400 r.p.m. models will be continued into next season. You can bank on that. So that a Chalmers car you might buy now will be exactly like the one you would buy next spring.

Remember the \$70 you can save now by anticipating the rise in price. There's an old Scotch proverb that says "A dollar saved is a dollar earned". \$70 buys a good suit of clothes, a good pair of shoes, a good hat and some good gloves. Also it just about pays your dues at the club for a year.

Or, if it's a 5-passenger 3400 r.p.m. Chalmers you want, our advice is to get

We are not sure the price is going up and we are not sure that it isn't.
