Men who have an interest in the city and State have expressed keen regret at this indifference to the memory of the man regarded by many as one of the world's greatest statesmen. There are many who believe that nothing short of a Statewide holiday should be observed in memory of the man who established valuable institutions for the benefit of others who now enjoy them.

Among those who believe that some definite steps should be taken to impress the memory of William Penn upon the public is former Attorney General Hampton L. Carson. "I think something should be done," he said, " to observe fittingly the memory of William Penn Me. was unquestionable. of William Penn. For if men be good and government be bad they will mend it; but if men be bad and government be good they will warp and spoil it to their turn.'
