Zurich Military Critic Sees No Possibility of Either Group of Belligerents Crushing the Other

DEADLOCK BY WINTER

ZURICIL Oct. 16.—The military critic of the New Zurich Gasette, who has proved a rewed commentator, predicts the world ar will end next summer with a community between the Allies and the Central owers. He says:

There is no possibility that one group the belligerent powers or the other will crushed. On the western front the Geran lines will not break, and it is even ubtful whether they can be pushed back the frontier. So far the powerful oftaire of the Allies has netted but small pults.

with enormous sacrifices in men and mitions, the British and French troops are reconquered some ninety or one hundled highest and sumber of villages, but the tactical and ategical advantages gained by them are near all.

BRITAIN'S GIGANTIC TASK inue their progress for some time, but ell may be doubted that löngland will the enormous cost in man. To clear see of the Germans is impossible withloss of from three to four million men, the gigantic army which will have to sacrificed must be furnished by England, auso France has almost exhausted her

reserves.

'The Germans, of course, also will have large losses, but the advantage still remains on their side if their lines are not broken. Should they really be compelled to withdraw from French soll they will have not only their own immensaly strong frontier fortresses, but also the Belgian bulwarks of Antwerp, Liege and Namur, which can be held with comparatively small forces for a long time.

'In the East the prospects of the Allies are no better. The Russians, despite their successes, are still hemmed in between the Pripet marshes and the Carpathian Mountains, and will exhaust themselves if they continue their efforts to reach Lembers much longer. The lines of the Teutons in Volhynia and Galicia have been greatly atrengthened, and their defense will surely turn into an offensive as soon as the collapse of the Russians becomes evident.

ALLIES' SOLE HOPE IN BALKANS

ALLIES' SOLE HOPE IN BALKANS "The sole hope of the Allies at the present time seems to rest on a possible victory in the Balkans, but even there their chances are not bright. Rumania, instead of being an aid to them, is already in a sad plight, and can oily be saved from utter defeat by the assistance of Russia.

"In Macedonia the British-French-Serb-

"In Macedonia the British-French-Serbfan-Russian-Italian offensive is still in its
initial stage. The successes of the Allies on
this front are confined to their western
wing, where they have made some grogress.
Monastir may fall into their hands, but even
then they will still be far from their objective, the Oriental Railroad. To isolate
Bulgaria and Turkey from the Central
Powers they will have to cross the Balkan
Mountains, which will soon be covered with
snow and impassable.
"As things stand now a new deadlock
may be expected on all fronts with the beginning of the winter. This pause will be
used by the Allies to store up mountains
of ohells and to strengthen their artillery
still further for the final "big drive," which
may begin early next spring. If this greatest effort also falls to crush the Germans
and their Allies peace will come. The war
will then end in a draw."

TEUTONS BREAK THROUGH GYMES PASS INTO RUMANIA;

LONDON, Oct. 16.

Tsutonic troops have broken through Gymes Pass and invaded northwestern Rumania, according to Berlin dispatches today. Severe fighting is going on on Rumanian soil near the town of Palanka. The Austro-Germans are attempting to drive southward along the Tergu-Ocua Raliway to cut the main raliway line supplying the northern Rumanian armies.

The fighting in southern Transylvania is becoming more violent in the region north of Vulcan Pass. There the Rumanians are pressing their counter-attacks and have thrown hack Austrian troops for a considerable distance.

"All along the Danube there has been artillery and infantry activity."

This statement is contained in an official bulletin received from Bucharest. No details are given as to the exact locality or importance, or the turn taken by the activity reported. Official bulletins from both Sofia and Berlin recently, however, have announced attacks on the Danube, in which several small islands were wreated from the Rumanians, although there has not been bitherto any official news of the crossing of large bodies of troops on either aide, with the exception of the Rumanian demonstration east of Rustehuk, Bulgaria.

In Macedonia the battle around the bend of the Czerna Rivar, where Bulgars and Serba have been engaged for several days, is continuing with the outcome still in doubt. The British are bombarding Seres.

PEACE WITHOUT ALLIED VICTORY TREASON, SAYS ITALIAN LEADER

By JOHN H. HEARLEY

ROME, Oct. 16.

A USTRIA must be destroyed as a State and Germany deprived of every thought of dominating the world before the war can end, Signor Leonida Blasolati, Civil Commissioner for War, Socialist leader, soldier and one of the most powerful figures in the Italian Cabinet, said today. To consent to peace now would be an act of treason on the part of any Allied nation, he declared.

"I am convinced that War Secretary Lloyd George's statement to the United Press and Premier Asquith's words in the House of Commons exactly interpret the thoughts and express the firm resolve of all the Allies," said the Italian Cabinet member,

"The peace to which the whole world aspires after so many horrors and sacrifices must be real and lasting, not a mere truce. Civilization must safeguard itself against attempts similar to the one against which she is now reacting with all her strength. This means that we must create in Europe such conditions as to render it impossible for Germany to resume her criminal designs.

"I, therefore, think that any State or States of the Entents who would today harbor the thought of peace would be guilty of an act of treason.

would be guilty of an act of treason.
Rather than accept a peace contaminated by the germ of other wars, it would have been better not to embark on the present war at all.
"The deadly germ of war can only be killed by destroying Austria as a State and depriving Germany of every illusion of predominancy.

It is necessary to proclaim this fearlessly and openly as Premier Asquith and Lloyd George did."

VIENNA SAYS CADORNA'S DRIVE HAS BEEN CHECKED; CARSO FRONT IS QUIETER

VIENNA, Oct. 16 .- The Austro-Hungar-NIENNA, Got. 16.—The Austro-Hungar-ian War Office announces that the new Italian offensive movement has been checked. Between the Adriatic and the heights southeast of Gorizia the Italians used \$20,000 infantrymen in their attack upon the Austro-Hungarian position. The following official statement was made rubble today:

the fighting which thus developed is continuing, according to the communique.

After entering the German position at Sailly Saillisel, the French engaged the Germans in the streets and were able to occupy some of the houses along the Bapaume highway.

The fighting then extended to the ceitars and subterraneon forts of the Germans, where, in the darkness of these caves, the men fought hand-to-hand with bayonets and homes.

The French attack at Sailly Saillisel fol-lowed assaults by the British near Thiepval and French attacks around Abtaincourt, at the extreme southern end of the front. The text of the official communique fol-

GREECE TO PRESENT NEW NOTE TO ENTENTE TODAY; WILL BE FRIENDLY IN TONE

An Athens dispatch to the Chronicle says that the Greek Government is expected to present a note to the Entente Powers today on the future foreign policy. It is understood in diplomatic circles that the note will be friendly in tone, but that it will aim to prevent further discussion on the main point at issue.

ENEMY BATTERY ON PASUBIO:

NEW YORK, Oot. 16.—A nation-wide organization of Greeks in a "Venizelos party" favoring Greece's intervention in the war on the side of the Allies, was planned by Greek leaders here today following a big demonstration last night. Ten thousand Greeks tried to crowd their way into a hall where the new party was formed, and \$4000 was subscribed in a few minutes. It is planned to enliet \$00,000 Greeks in the movement.

on only hig guns. In another building smaller guns were being delited. In still another thirty-seven ton pieces of armor plata were being baked, rolled, pressed and polished before their final marine inspection and shipment to Kiel.

We were the guests of Director von Bodenhausen, who has visited the steel works both in Pittsburgh and Gary, ind, and has met Judge Gary and other American steel officials. Bodenhausen said he saw no chances for peace now, but he echoed the views of some other industrial leaders that if the United States would stop ammunition shipments to Europe the war would end.

Bodenhausen contradicted David Lloyd George's statement that England didn't complain when the war went against her. Just the reverse is true, he said. Regardless of whether Germany pursues a vigorous submarine warfare during the coming months, he is convinced that England's food situation will be uncomfortable by next spring.

ian attacks was transferred yesterday from the Carso to the Trentino front, where the Austrians were forced to give way, the War PARIS, Oct. 15.—An official statement just issued says that during the recent hombardment by French aeroplanes of the Mauser factories at Oberndorf, Wurtemberg, Sergeant Lufbery, of the Franco-American air squadron, shot down his fifth aeroplane. Sergeant Lufbery comes from New Haven, Conn. Austrians were forced to give way, the War Office announces.

The Italians, while continuing their bombardment of the Austrian lines on the Carno plateau, proparatory to a renewal of the drive for Trieste, are vigorously pressing the fight in the Trentino.

After rolling back an enemy assault on the slopes of Monte Pasubio, Hersaglieri and Alpine troops counter-charged with such ferocity that they swept the Austrians back toward Monte Roite. In the region of Cosmagnon an entire battery of Austrian guns was selzed, seriously crippling the enemy's defense.

Cadorna, it is believed here, is awaiting reinforcements before launching another attack on the enemy's lines in the Gorizia sector and against the defenses of the road to Trieste. The Austrians are in none too strong force here, but they have constructed an elaborate system of defenses that the Italians are finding it difficult to pierce.

STROUD **PIANOLA**

\$550

The Stroud Pianole

The Stroud Pianola at \$550 gives you a playerpiano with all the patented Aeolian features. This instrument contains not only the Themodist, but even the world-famous Metrostyle patent, which invention has caused such eminent critics as Paderewski and Rosenthal to pronounce the Pianola as "the best, unsurpassable, supreme."

In all, 312 patents protect the Pianola from imitation, but yet here is a style in the Stroud at a price much lower than that asked for undeniably artless imitations. Terms as low as \$3 per week will be accepted on the Stroud; and even your piano will be

accepted as part payment. Remember, in purchasing the Stroud you secure an instrument made completely by the great Aeolian Company, the world's largest piano manufacturers.
