WHEAT THE HIGHEST SINCE LEITER DEAL

James A. Patten, the "Grain King," Says It Will Reach \$2—Supply Small

CHICAGO, Oct. 18.—Not since the days of the Leiter deal has wheat been as high as the level established today. An enormous business was transacted, and in spite of the fact that wheat was a great deal of profit-taking by traders, there was good purchasing on all reactions, which prevented anything like demoralization.

Special reports to the Price Current said that the soil was too dry in the winter of the present situation. Drought in Argentina is cutting the crop there. There is a broadening demand for American wheat from all importing countries.

Leading futures ranged as follows: Wheat—Open High Low Close. October 1.04 1.04 1.04 1.04. November 1.03 1.03 1.03 1.03.

NEW YORK, Oct. 18.—Much interest was aroused in banking circles in Wall street today over the arrival of a fresh consignment of gold from Ottawa.

NEW YORK, Oct. 18.—A rush of buying sent July cotton up 74 points to 19.17 cents a pound at noon today. The general list was 52 to 59 points above yesterday's close.

Earlier in the day very heavy realizing sales seemed to be readily absorbed on a rising market. The market was quiet with prices about 20 points under the high of the morning.

Commercial bar silver was quoted in New York today at 57 1/2, unchanged. The price in London was 52 1/2-1/4, also unchanged.
