CHICAGO, Oct. 20.—Wheat halted today after the highest prices since the year of the letter deal in 1908 has been reached. There was heavy profit-taking and the tone became somewhat feverish.

Some traders expressed the opinion that the market was getting dangerously high, notwithstanding the fact that the public was again a purchaser. The bulls, however, were not so worried about the market as had become strained because of the recent big gains.

The Modern Miller's report was bearish. It said the drought in the greater part of the winter belt had been fairly well broken, permitting plowing and seeding where it had been delayed and greatly assisting the germination of the crop.
