Conductor Says Problem Is Too Complex-Clergyman Doubts Teutons' Sincerity

Leopold Stokowski, conductor of the Philadelphia Orchestra, talked today of the declaration bys the Teuton monarcha for Polish independence. His opinions would of interest because he is probably the most prominent Philadelphian born of a Polleb father.

Polish father. Mr. Stokowski taiked generally rather han particularly. That freedom for Yo-iand would be welcomed by the Poles he had no doubt, and added: "It is a sud day for the small nation. With nations it is just as with communi-ties, and the small have to submit to the storag. Because they are often wronged they now resent all interference. You can see for yourself right in your own town; down in the siums the housewives resent pather live and make their own way. rather live and make their own way.

"Poland has hated the domination of-Russia and would, I guess, hate to be dom-inated by the Central Empires. She wants insted by the Central Empires. She wants to be free to govern itself. If one achieves this she will undoubtedly be happy. But what the effect of it will be I can't tell. It's foolish to try. I hate to read these offnand opinions about complex af-fairs and I wouldn't be so concelled as to think mine would be worth any. When one considers the complexity of Austro-Hun-garian politics, and adds to that German-and Polish politics, it is well-nigh impossi-ble to venture an opinion on the future of Poland as an independent state. Besides become the bistory of Poland for the last knowing the history of Poland for the last 100 years, you would have to know all conditions over there now, and we den't know that."

Mr. Stokowski was told that dispatches from England quote the press there as say-ing that the reason for forming the Polish free state was to organize a Polish army and use it for the benefit of the Central Empires. He laughed, then said:

and use it for the benefit of the Central Empires. He laughed, then said: "Isn't it wearlsome to read. Why do three bother to say it? One always knows beforehand what each side is going to say. We could say it for them and save our-polves the trouble of reading it. Everybody knew England would say that. Each side knew England would say that. Each side draws conclusions that serve its purpose best. It is irritating to read, and certainly not flattering to be asked to believe such

Mr. Stokowski would not d'scuss what he himself thought of the granting of Polish independence by the German Kaisef and Austro-Hungarian Emperor. He rested with what he thought the Poles would be-

While the Central Powers are about it they should declare the independence of German Poland and Austrian Poland along with the setting up of Russian Poland as an independent monarchical kingdom, thinks the Rev. Joseph Kuczynski, rector of St. Ladislas's Church, Hunting Park and Germantown avenues. The Polish clergyman believes that Ger-

many's concern for Russian Poland's in-dependence loses its lister while Germany and Austria cling to the Polish territories

they wrested away in 1772. "I think," he said. "that if they return something, they should return everything. Russia, Germany and Austria divided Poland into three parts in 1772, and now the Cen-tral Powers mention the independence of Galaca without mentioning other territories that they took.

That they took. "It is too early to talk about the effect of the proclamation, but I believe that Polish people in America, while thankful for it, do not regard it as a genuine Magna Charta or Declaration of Independence." The Rev. Mr. Kuczynki is inclined to sook with suppicion on the statement that "back

VENDETTA BORN IN ITALY ATLANTIC CITY HOTEL ENDS IN CHICAGO MURDER

Man Killed, Another Seriously Wounded in Dance Hall

CHICAGO, Nov. 6 .- A vendetta born long ago in the hills of Italy culminated early today in the killing of one man and the serious wounding of another as the last strains of a dance were being played at a wedding celebration in the Italian quar-ter.

The slayer, shoving his still smoking pistol into his pocket, seized a girl about the waist and, to the music of a fox-trot, lost himself among hundreds of dancers and

The victims were standing together watching the dancers when high above the music and the shuffling of feet rang out Cry: "Vito Mana."

Mana stepped forward, a revolver spoke and he dropped dead.

"Donato Di Rosa," came the cry and Mana's companion ran for the door. Again the revolver's bark and he spun around in his tracks, a bullet in his chest.

Civil Service Board to Hear Charges Against J. P. Chambers, Highways Bureau Chief

Charges against James P. Chambers, re-Charges against James P. Chambers, re-cently appointed chief clerk of the Bureau of Highways, that he solicited and obtained campaign funds from clerks and subor-dinates, were discussed by the civil service commissioners this afternoon and a letter replying to the Civil Service Reform Asso-ciation, which made the charges, was framed and a date set for a public hearing.

"It is for early to talk about the effect of the proclamation, but I believe that Polish people in America, while thankful for it, do not regard it as a genuine Magna Charta or Declaration of Independence." The Rev. Mr. Kuczynki is inclined to sook with suspicion on the statement that "the glorious traditions of the ancient Polish armles and the memory of the brave com-mideship in the great-war of our days shall revive in a national army." "It is for their own benefit," he said. AGED MAN KILLS LODGER

Mayor Smith said today that he was satisfied to have the public hearing held by the Civil Service Commission.
