Be Fair to the Firemen

Philadelphia, November 7.

WHERE THE WATER GOES

I owe my life, my all: Thy very name my soul inspires; With thee I'll stand or fall.

So young in years but brave deeds,
I glory in thy fame:
he colors of thy gorgeous flag,
Before me ever flame.

From sea to sea thou holdest sway,
A great and mighty realm;
With loyal men to sing thy praise,

With God to guide the heim. CARRIE YAEGER FRAZIER

What Do You Know?

QUIZ

What is meant by "voting on ago"? What was the origin of Thanksgivin

Answers to Yesterday's Quiz

Convassing the vote: counting it.
 The five candidates: Wilson, Huxbes, Hanty (Frohibtion), Benson (Socialist), Reimer (Socialist Labor).
 Outstanding stock: stock that has been latted.

5. Outstanding stock: stock that has been is suice.

4. Asymptones can fly 130 miles an hour. Zeppleins do not make much more than 65 or 70 miles an hour. But the secondary.

5. There are no matismal lagral holidars in this country.

6. Builty heaf; said to be a corruption of the Erench "houtille" (holidal.

7. If no person have a majority in the cleotoral college, the House of Representatives, voting by States, about the Francisco News was said to have the died while Rome burned.

8. The Engager News was said to have the died while Rome burned.

9. Proportional representation: this principle, variously expressed in different countries, requires the representation of the parties in inclusionary expressed in the facility of dispirit. The focialism vould thus have about twenty-five souls in Congress.

K.—Mr. Wilson married Etien Louise Arsen, of Savannah, Gs., June 24, 1885, She died August 5, 1915. He married Edith Boiling Gailt, of Washington, D. C., De-bember 18, 1915.

Knowledge advances by steps, sot by leaps, Macaulay.

Happy is the man with a strong cart and a spine of steel to overcome hat sinking feeling.

And yet in 1920 they will trot out ame old doubtful States again just ough nothing had ever happened.

Utah's swing to Wilson is perhaps ost remarkable result in the whole n. Utah and Vermont were the ates Taft carried

Pennsylvania makes one important a. Mr. Knox raises the average tone be State's representation in the United tes Senate appreciably.

The Socialists are claiming six Con-men. With the Republicans and crats apparently tied in the House, hese gentlemen to hold the balance wer in close party votes?

Both houses of Congress are so that no matter who is elected to sidency there can be no contenpartisan legislation for the next

Sald a Democrat: "I don't care hether Wilson is elected or not. I staffed that it is close. All I wanted was that a man who at least tried to do is duty should not be kicked out like a grunken hackman."

The German Chancellor has dis-d the Reichstag because of the unity of further debate. We dissed of a national gubfest yesterday in ses autocratic manner, and for that at st let us all be thankful.

It must be recorded that on Green last night a parade boomed along at of the Thirteenth Ward Repub-Club bearing transparencies with inscription: "Purity! Our next Gov-er, John R. K. Scott."

James K. Polk was the only man ome than he was in the rest of the ountry. Mr. Wilson loses New Jersey or 40,000, and if he is elected will take

Every time there is a presidential on the wisdom of a single term of comes more apparent. For ha every four years business cything else is tied up while the ticians take possession of the stage. s ft necessarily improve our states-sahip. Orderly government means of peace in the streets, and our sidential campaigns can scarcely be sidered as making for that kind of or and stability which is requisite in attent of our importance and size.

What firemen should receive higher is generally scknowledged. The only the seems to be in the financial ability the dity to meet the situation. That is pretty mesger argument, and with it a have no sympathy. The laborer is given to example the high to get ough to enable him to live. His wages could be fixed with some regard for anged economic conditions and the example high cost of living. These men actually getting, in purchasing power, as for their services than they were getting two years ago. The money for the increases can be got, and it should be got.

The doubt has had one excellent
It has held before every man and
a in the nation for hours the imice of the nation's welfare. The
rule is to dismiss the subject in
ment after a glance at the net reThis year there is apparently to
net result if, as it seems, Congress
as divided. The people come to a
surutiny of their leaders' actions
a and by the very division among
leaders are invited to share with
an initiative through the force of
copinion such as they have never

incred to trust ourselves, and to have confidence in the judgment of our neighbors, because we have discovered that we are all seeking the same ends, even though we choose different routes. The railroad, the telegraph and the telephone have made the nation more completely homogeneous than it was in the beginning. These inventions must be credited with doing aimeet as much for popular coverament on a large scale as was done by the Constitution when it provided for by the Constitution when it provided for rule by the people.

THE RESULT IN DOUBT

THE election is in doubt.

Hughes has swept the Bast and carried by large majorities the great industrial sections and centers of population.

In the West there is a marked tendency oward Wilson, and late reports from rural districts show increases in his votes in doubtful States. The result in the electoral college may depend on a few thousand, or even a few hundred, popular votes in close States.

It appears that the Republicans have lost in their difficult fight to win the Senate, although the Democratic majority will be much reduced.

The House is doubtful. It will be so closely divided that the majority for either side will be nominal.

The vote cast has been enormous. The nation itself has spoken. It has not been an "organization" vote, but a vote Irish blarney: of the whole people, the percentage of nonvoters being less, doubtless, than in

The closeness of the vote robs the verdict of that decisive character for which good citizens hoped. It is evident that the country is hopelessly divided by the new issues which have arisen. Many Republicans and Progressives have been the country is hopelessly divided by the new issues which have arisen. Many Republicans and Progressives have been the country is hopelessly divided by the new issues which have arisen. Many Republicans and Progressives have been the country is hopelessly in the country is hopelessly divided by the new issues which have arisen. Many Republicans and Progressives have been that don't give a dam who a keepin' order there? Who's keepin' order there? Who's keepin' order there? Who's heavin' men there that don't give a dam who's heavin' men there that don't give a dam who's heavin' men there that don't give a dam who's heavin' men there that don't give a dam who's heavin' men there that don't give a dam who's heavin' men there that don't give a dam who's heavin' men there that don't give a dam who's heavin' men there that don't give a dam who's heavin' men there that don't give a dam who's heavin' Huerta an' watchin' Carrange heavin' heavin' men there that don't give a dam who's heavin' Huerta an' watchin' Carrange heaving Republicans and Progressives have been led astray from Protection by extraneous issues.

The Wilson managers, in accordance with political practice, are claiming everything in sight. The Hughes managers, on the other hand, may be depended on to protect the interests of Republicanism without impairment. It may take the official count to determine who is elected. The ballot boxes must be guarded and every possibility of fraud excluded.

The nation wants no repetition of the conditions which marked the count of

THE FIRST DOUBTFUL ELECTION ONLY once before in recent times has the result been in doubt on the morning following the election. This was in 1876. The doubt then continued for months, or until it was dissolved by the findings of a special com-

mission created by Congress. There had been a comparatively spirit-less canvass because Hayes was a man without a national reputation. He had received only sixty-one votes on the first rollcall in the national convention, while Blaine had received two hundred and eighty-five. It was not until the seventh rollcall that he was nominated by a combination of the opponents of Blaine. Tilden was a man who aroused no popular desired to the presidency who failed to enthusiasm. He could not make a camparay his own State. Henry Clay, who paign speech, and he had had business running against him, was also a connections which made the country suswomen, two high notes and a miner drop. All picious of him. Yet the Republicans, who were on the defensive because of the

scandals that had marred the second

Grant Administration, expected defeat. The election occurred on November 7, the same date as the election of this year. As soon as the polls closed the Democrats began to claim a victory and to insist that besides carrying every Southern State Tilden had carried New York, Indiana, New Jersey and Connecticut. He did carry these Northern States as the final returns proved. The Republicans, however, sent out word from their headquarters in Washington that Hayes was elected by a majority of one vote through victory in South Carolina, Flor-ida and Louisiana. The electoral commission gave the vote of these States to The margin was so close that there is doubt even to this day as to how these three States actually did vote. South Carolina, according to the accepted returns, gave Hayes 91,870 votes and Tilden 90,898. In Louisiana the Democratic count gave Tilden \$8,723 and Hayes 77,981. The Republican count allowed Tilden only 70,508 and claimed 75,315 for Hayes. The margin in Florida was much closer, the Democrats claim ing the State by 94 and the Republicans insisting that they had a majority of 922. Less than seven thousand votes, according to the Republican claims, elected Hayes.

STUDYING THE "HIGH COST"

THE Pederal investigation into the high cost of milk, wheat, canned goods and coal will be profitable only so far as it discovers that they are removable. So many causes affect the range of prices that it is never easy to put your finger that it is never easy to put your finger on the compelling reason. It has been suggested that the inflation in currency that has followed the establishment of the system of Federal Reserve banks is one of the reasons for high prices. It is known that a shortage in the supply is another reason. The high price of grain increases the cost of fattening cattle and relies the prices of meat. The demand for breakfast cereals has cut down the supply that could be fed to cattle and has affected the cost of feed. The rected the cost of feed. The re moval of the duty on wool has made sheep-raising less profitable and has led farmers to sell their flocks. Because it costs upone to live farmhands have had to get hetter wages, and this extra money must be get from consumers of the prodTom Daly's Column

Making all clamor still. One in belief,

God bless our President! As Thou hast blessed our soil And in Thy mercy sent Harvests of wine and off And ripened sheaf, With strength and fortitude Best to conserve this good, Under Thy Fatherhood,

We remember it was about this time three years ago that we wrote this bit of

Wake, Ol my muse, an' peep over the border

Even their Emperor!
Women would like it, for, sure, 'tis the 'eax'
Blarney in Maxican.
Faith, it would settle things, there's no denyin'

And in April this year Mrs. Edith O'Shaughnessy put forth her book, "A Diplomat's Wife in Mexico." It's full of good things. Here are some of the high Philadelphia Cannot Be the City It Should Until the Citizens Are

To the Editor of the Evening Ledger:

Sir—I believe it is Mr. Bok and the coterie of good citizens laboring with him to make Merion a model suburb who advance the theory that good government begins at home. What kind of a citizen a man it can be gathered with fair accuracy from the character of the community in which he lives, and with absolute accuracy if a record of his activity in promoting the welfare of that community is at hand. Do we not sometimes take too much interest in national and international affairs, about which we know little, while neglecting to take an active interest in community matters, concerning which we ought to know everything? The average Philadelphian seems to be far more concerned about the condition of the streats through which he must pass every day. It has afforded me some amusement during the political campaign junt closed to read the eloquent state ments of local politicians relative to the tariff and national honor, although these same politicians notoriously think nothing the politicians proteiously think nothing the politicians proteiously think nothing the politicians notoriously think nothing the politicians proteiously think nothing the property of the Editor of the Evening Ledger:

Sir—To the Editor of the Evening Ledger:

Sir—To the Editor of the Evening Ledger:

Nelson O'Shaughnessy!

Huerta appears to care very little whom he shoots. He has small sentiment about human life (his own or anybody's else), but he is a strong and astute man; and if he could get a strong with blackbirds, in the shape of patriots to work with him, and if the United States were not on his back, he might eventually bring peace to his country.

Huerta has very little natural regard for human life. This isn't a specialty of successful dictators, anyway. Only by the hand of iron can this passionate, tenacious, mysterious, sifted, undisciplined race, composed of countiess unlike elementa, be held in order. In the States, where, of course, as we all know, everybody and everything are just as they ought to be, this isn't quite understood.

same politicians notoriously think nothing of the honor of Philadelphia, else long since they would have seen to it that the streets were kept clean, hideous trolley and other wires put under ground and the dust evil abated.

Many months ago, when you were fight-It will take the United States 100 years to make Mexico into what we call a civilized country, during which process most of its magnetic charm will go. The Spanish imprint left in the wonderful frams of Mexico is among the beauties of the universe. Every pink beltry against every blue hill reminds one of it; every fine old facade, unexpectadly met as one turns a quiet street corner; in fact, all the beauty in Mexico, except that of the natural world, is the Spanisrds and the Indians. Foor Indians! Many months ago, when you were fight-ing for better housing, you quoted a local statesman to the effect that poor people ought not to have bathtubs in their houses, because they would not know what

ought not to have bathtubs in their houses, because they would not know what to do with them. Yet, a man with such views, it appears, is considered perfectly competent to make laws at Harrisburg or to represent the interests of the community in Congress. Government in Washington, as a matter of fact, is merely the sum total of government in all the lesser political units of the nation. Bad government in the cities or in the States can only mean bad government in Washington. On the other hand, as the different municipalities of the country grow in efficiency in the conduct of their own affairs they incidentally, as a matter of course, lift up national government and make it better.

We are, most of us, proud of Philadel-Clarence Hay brought N. (for Christman) bottle of cognac, inscribed; "Nelson from VI toriano," and a like-sheel bottle of grape Juic "Nelson from W. J. B." I leave you to gue which we opened.

Von Hintze has returned. The excuse given for the murder of a German subject who was quietly asked in the railroad station at Leon was that the guards, who also robbed him, thought he was an American! Well, there are some things one can't talk about, but I seemed to be conscious, botly, of each individual hair on my head.

If poor old Huarta could have begun in some other way than by riding into the capital in a path of bleed splitled by himself and others, he would probably have been able, with recognition, to do as well as any one, and better than most. As it is, he is like a woman who has begun wrong. The neighbors won't let her start again, no matter how virtuously she lives. course. lift up national government and make it better.

We are, most of us, proud of Philadelphia, as we ought to be. But I sometimes wonder if the source of our contentment is not more in the past than in the future. Have we made the most of this garden spot, where was nursed the nation in its infancy? Penn himself had a vision of a beautiful city, with plenty of breathing spaces, a city in which men would delight to dwell. Something of that purpose has remained eversince, but it is more evident in the suburbs than in the city proper. After all, prosperity can mean little unless there is an opportunity to enjoy it in pleasant surroundings. We can think better nationally when we think better locally. I sometimes wonder if sordid politics is not the direct result of sordid living conditions. Men who breathe pure air and eat clean food and wear clean clothes generally think cleanly.

As Mr. Deoley remarks: "There is no such word as Ta-Pristdint' in Mexico. They are known as the late immented, or the furtive from justice; and the only truble the country has with those who remain is to keep the grass cut."

breathe pure sir and eat clean food and wear clean clothes generally think cleanly and honestly. They cannot be driven.

These are random thoughts, but they come to me on the afternoon of this elsotion day, when my brain is still in a whiri as a result of the exciting campaign through which we have passed. I think there are thousands of Philadelphians like myssif, men who would welcome a strong leadership of the sort that would make Philadelphia first and Philadelphia efficient Pirat, not in numbers, but in comfort and facilities and conditions of life; efficient in government and in industry. We do not need reform; we do need common sense in the conduct of our common affairs.

Philadelphia, November 7.

THE POTENT CAUSE But there are certain guys who've found It's merely love of drink.

C. P. T.

JUSTICE FOR THE FIREMENT To the Editor of the Evening Ledger:

Sir—The time approaches when the demands of the firemen will either be granted or refused by Councils.

The threatened division of the factions of the dominant party in Philadelphia may perate to prevent the settlement of their liams in a just manner or with due legard for the weilleing of the city. I magine there is a decided sentiment among ur citizens to do justion to those men—who is a citizens to do justion to those men—who is a virtually all their time to warding it the dangers that heart us.

If I am correct in my imaginings, it between all friends of the Aremon to get any, and not only sympathize with, but making for the furthering in every proper my of a a secsessful termination of the Line in which these men have made to the line.

A SONG OF AVIATION With a humming and a drumming, to announce that I am coming.
Up the long blue slient apeedways of the universe I soar,
Saying "Howdy!" to Canopus, as I meet his

Saying Howay: to Campus, as rays of topas,
Sweeping into virgin spaces where no man has been before.
Far below me flies the eagle, now a bird no
