Interest centers greatly in the South Philly-Northeant set-to. The showing of the Southwark eleven has been the standing-out feature of the season. For the first time in the history of the school, South Philly is represented by a winning eleven. This year has been the first the downtowners have ever defeated Central High, and the victory came unexpectedly. Folget is estimated to win by any kind of a score, and we hope to get the jump in the Green in order to play a defensive sime and conceal our attack for Michi-in and Cornell. In Good Shape

In Good Shape Every man in the squad is in splendid endition with the possible exceptions of Howard Berry and myself, and we both feel fit. It is hard to tell until we have been in actual combat whether Howard's bad knee or my injured side is well enough to stand the gaff, but we are not worrying my. I will start the game, but Berry will be en the side lines for a time at least, as Folwell does not want to break up a month running combination in the back-field.

Williams and Bryant worked splendidly against Lafayette, and ould be even better against Dart-Bryant has more confidence and a been running his plays off in great style practice, while Light now feels at home fullback. The High Price of Clothing Has Not Yet Reached the Southeast Corner of Sixth and Market Streets Why?

WANAMAKER & BROWN would rather make many sales with a small profit on each than large profits and few sales.

For two years prices have gone steadily upward in foodstuffs and in all the luxuries and necessities of life, including clothing.

But the Price of Clothing at Oak Hall has not advanced and values are as good as they were two years ago.

This does not mean that costs to us have not advanced. On the contrary, they have ; BUT IT DOES MEAN THAT THE POLICY OF WANAMAKER & BROWN TO PURCHASE ALWAYS IN GREAT VOLUME ENABLES US TO MAKE PRICES SO LOW THAT WE ARE ALWAYS ABLE TO SELL IN GREAT VOLUME.

Five hundred finest new overcoats have been added to the great Wanamaker & Brown sale of overcoats, bringing selection up to topmost variety, and the same saving prices stand as heretofore published.

Tomorrow's customers may come to the busiest clothing store in Philadelphia certain of finding the overcoat they want at the price they want to pay, even though that price be lower than they could procure equal value for elsewhere.
