PENN ELEVEN IN **DETROIT AWAITING** MICHIGAN BATTLE

Red and Blue to Hold Practice on Navin Field This Afternoon

GREAT MIX PREDICTED

DETROIT, Mich., Nov. 17.—We all detrained here this morning expecting to find the ground covered with snow and the mermary hovering around the zero mark. To six surprise we found the streets free of sow, and although it was cold it was the dry cold that puts pep in a man and makes him feel like going right out and defeating a learn representing Michigan University. Last night we rode through a snowstorm, and we were mighty blue when we thought that we might be forced to play the Wolverings on a simply field.

After breakfast Coach Folwell notified

After breakfast Coach Folwell notified the men that practice would be called this afternoon. Instead of working out on the rounds of the Detroit Athletic Club, which is twelve miles outside of the city, it was decided that we use Navin Field, which Mr. Navia, of the Detroit American League Cub, kindly turned over to us. The work will consist of a light signal drill.

Will Fight Hard We are all pulling for fair and warm weather tomorrow, but if the day is bad we will fight all the harder. The boys are in fine mental and physical condition, better than they have been at any time this eracon and they realize that they must win the remaining games in the schedule.

We won't be holding anything back tomerrow. Every man knows that if we are beaten by Michigan we can't hope for a successful season. Coach Folwell will let us cut loose with everything that we have. The line-up for tomorrow is still in doubt, as far as the backfield is concerned. It is age to say, however, that Berry, Bell, Derr, Quigley, Light and probably Williams and Bryant will get into the action,

The trip from Philadelphia was an en-icyable one and I think the change did the boys a lot of good. We all jumped off the gain at Wilkes-Harre and Mauch Chunk for a short run and some fresh air. We will rest up this morning and take a workmut this afternoon on the grounds of the Detroit Athletic Club, who have extended as the courtesy of their whole establish-

a thorough examination last night on the train and pronounced it in fine shape. We have all been worrying more or less about the result of the injury he received in the artmouth game. The news that he was Il right put a lot of heart into the fellows.

seasons of both schools. Coaches Gillinder and Dickens have worked with their teams all week harder than at any time this season. The elevens apparently are evenly matched, and a close contest should result. Captain-elect Alexander will be at half-back for St. Luke's. His brilliant punting and drop-kicking will be of great service to the Blue and White today. "Aleo" also has been a consistent ground gainer when carrying the ball, and Chestnut Hill's defense probably will have their eyes peeled

The Interacademic League competition will conclude this afternoon with two matches. Episcopai Academy will journey to Queen Lane and meet Penn Charter; Friends' Central tackles Germantown Academy at Germantown. Penn Charter and Friends' Central probably will be the winners. The Northeast-Central contest each year is bitterly fought. Rivairy between the two schools compares even greater than that between Harvard and Yaie. This season there is no doubt that the Hed and Black eleven is the stronger; previous games of both teams this season are used as a criterion. As a result Northeast will enter the fracas a big favorite, but it will have no tea party against the Mirrors. The match will be 'a battle for blood' from whistle to whistle, and the victor will know that it was a stiff scrimmage. Harry Hough, now the Moses of Kenington, last night led the sparkling, flashing Jasper Jewels out of the wilderness and into the Promised Land in the Eastern Basketball League race when he guided Bill Kennedy's gema to victory over the bussing

Kennedy's gens to victory over the burshing Camden Skeeters by a score of \$2 to 20 in Nonparell Hall.

The margin of the Jewels' victory was far more confortable than a seat in the crowd. A greater and larger throng never was housed in Nonparell Hall, which, unfortunately, is not so peerless as its name implies. Referred Gus Maddock hadn't given a thought to header the whisting to be a thought to placing the whistle to his lips for the call to center when the ticket chop-pers were advised to close the windows until next Thursday night.

And the enthusiasm was as great as the throng, Camden obtained the advantage on the tip-off, but Jasper soon brushed into the lead, only to be tied, however, at six, the lead, only to be tied, however, at six, long-distance shots by Adams and Steele squaring accounts. A foul toss by Hough gave the Jewels the long end once again, but Adams immediately tied the count with a penalty throw. Then Hough settled the argument for the night by netting a beauty, and thereafter Jasper remained well in front.

You've Set Us Back Two Months

You men who have been enjoying the fine open fall weather, with its frequent real summery days, have been absolutely comfortable in your summer clothes.

Think of it! The peach trees budding in Delaware and within a few miles of Philadelphia spring flowers blooming! It's no wonder you haven't been buying fall and winter suits and overcoats; but by the great horned spoon it's put the "kibosh" on the clothing business for fair.

We looked forward to a banner fall - money plentiful, times good. We laid in a stock of really superb, all-wool fabrics.

We were especially careful in our selection. We know you men expect to get from us absolutely A-1 fabrics. We've been telling you about them every day, but you haven't been buying

Now we've taken the count. Two months to the bad made us do what we never expected to do in all our tailoring business. We've ripped the price off of every piece of goods in our shop and marked them all \$20 straight. Just think of it!-fabrics bought to sell at \$25, \$30 and \$35. My, my! What a slaughter!
