# DOPE EVIL AMONG YOUNG REVEALED

Horrors of Drug "Attics" Aired by Internal Revenue Agents

DOCTOR JACKSON HELD

Accused of Giving Prescriptions for Total of 7000 Grains of Heroin

The horrors of drug "attics," where young school how and girls are brought clandes/first to learn the evils of marcotic drugs for the first time, were aired today by internal revenue officers, following the arrest of Dr. John O. Jackson, of 1527 Jackson street, who was held in \$4000 ball by United Biates Commissioner Charles W. Edmunds. According to Deputy Collector Joseph Mo-Devitt, the physician has made out hun-dreds of prescriptions for "dope" totaling more than 7000 grains of heroin.

Dector Jackson was arrested by Deputy Collector McDevitt late yesterday. He will be arraigned for a further hearing on De-

comber 4.

McDevitt, in testifying against the accused physician, said that he had been under surveillance for more than four months, and that Government agents knew that two druggists were filling prescriptions made out by the physician on a wholesale scale.

McDevitt said openly that he had no doubt that many of the prescriptions made out by Doctor Jackson had found their way into the hands of young boys and girls.

ont by Doctor Jackson had found their way into the hands of young boys and girls.
"It's rather a startling statement to make," McDavitt said, "but I am convinced that it is the truth, and we might as well face the facts. It is well known that many drug habitues in this city are under the age of twenty-one. It may be that young people are more sunceptible to the influences of drugs. I think they may be more inclined to try the use of drugs for once, just to see what the effect is like. They take the first step, and they become ensarged at tonce by the wiles of 'dope.'" Older people once by the wiles of dope." Older people know better, no doubt."

CHARGED WITH CONSPIRACY McDevitt said that according to the war rant issued for Doctor Jackson's arrest, the physician is accused of conspiracy with Samuel Toplin, who has a drug store at Sixteenth and Tasker streets. An attempt will be made by the Government, it was said, to show that an understanding existed between Doctor Jackson and the druggist to supply drugs for other than medical purposes. Many of the prescriptions held by McDevitt were filled at the Toplin drug

D. Clarence Gibboney, president of the Law and Order Society, replied today to wharges that the granting of a mortgage on a building at Sixtieth street and downe avenue by the building and le of which he is president had ined him in not opposing a saloon transfor to the place. Mr. Gibboney said he had no hesitancy

in admitting that he was president of the company. He said he was out of town at

ompany. He said he was president of the company. He said he was out of town at the time the mortgage was granted, but added that he would have sanctioned the transaction had he been in town.

"No mention was made at the time of the fact that the place was to be used as a shoon," said Mr. Gibboney. "nor is it being used as such now. The question is still to be decided by the License Court, the question was purely business, inasmuch as question was purely business, inasmuch as the mortgage was for \$4000 and the property could be sold at any time for twice that amount at least, assuring the association an ample margin to cover their account. It is ridiculous, therefore, to assume that I fa-wored the granting of a license to the place, as the association would not be favored financially whatever business might later be transacted there."

Randall goes on to swear that these applications for fictious insurance were issued each year of the company's existence except in 1969 and 1913, "and various amounts of this fictitious insurance were issued in different years, sufficient to make total unpaid premiums of from \$175,000 to \$350,000." \$350,000.

\$350,000."

The names for these policies, Randall says in the affidavit, came, at the direction of Byrnes, from telephone directories of outside cities or from Dun's or Bradstreet's. Supplec's affidavit is principally an indovement of that to which Randall swears. Sander's affidavit declares that in 1915 Mershon drew \$2505.50 for traveling expenses, and Byrnes drew \$4050, although each traveled very little, according to the declaration. He mentions that on January 11, 1916, Byrnes drew \$500 for traveling expenses, but cannot remember that Byrnes xpenses, but cannot remember that Byrnes expenses, but cannot remember that hyrness took any trip for the company during that month. He also says he knew of the fictitious insurance policies, and mentions the George W. DaHaven Company, which he said bought the Union Casualty stock and then sold it to the public at an increase in price. The officers of both companies were the cases by says. creass in price. The efficers of panies were the same, he says.

BYRNES SARCASTIC Mr. Byrnes was naked for an explana-tion of these affidavits against him and the men formerly associated with him in the management of the Union Casualty. He took the view that any one damned by Wood was famous and said:

I have felt that something good was going to happen. I always wanted to be a candidate for high office and now that Mr. Wood has seen fit to bring my name into his troubles, undoubtedly both Senator Penrose and Governor Brumbaugh will resign so that I might have my choice of either office.

Mr. Mershon referred all questions to Mr

Insurance Commissioner O'Neil is in Philadelphia buttressing his position in the developing scandal with such facts as he needs in this part of the State.

Next Monday in the Harrisburg courts his plea for the appointment of a receiver for the Pension Mutual Life Insurance Compiny will be answered. Wednesday his plea for a receiver for the Union Casualty Company will be answered.

It is expected that the former will go through without contest. There is no such certainty about the Union Casualty Company, however. From as much as can be learned Lyndon D. Wood and his "associates," as he so frequently calls his subordinates, want to keep that. According to Commissioner O'Neil, there is not much left of the Pension Mutual to be kept. He says the capital of that company is impaired almost \$1,000,000 and the reserve \$150,000.

A BITTER CONTEST

The Union Casualty fight is going to be bitter, though. bitter, though.

The Commissioner was asked if he was going through with the insurance investigation to the end, and he answered; "I don't see anything that can stop me." He went on to say that he would give Mr. Wood a full opportunity to make under oath his charges that the State Insurance Depart-ment was crooked. This was in answer to an invitation to comment on Mr. Wood's latest statement, which goes into detail about examiners of his department doing things they should not have done. The burden of Mr. Wood's complaints is all before Mr. O'Neil took office, and Mr. O'Neil said he had no knowledge of what happened before July, 1916. His name is happened before July, 1916. His name is mentioned in the latest statement by Mr. Wood, who says he told the Insurance Commissioner about the conduct of the examiners. It was then that both sides were brought to Harrisburg and made charges which led Mr. O'Nell to assert they all ought to be in jail.

It is likely that once Mr. O'Nell gets into this insurance investigation—and he cannot until the receivership proceedings are under way—that Pennsylvania will see a procession of her prominent sons, former officeholders and such, parading to the wit-

officeholders and such, parading to the wit-

PROMINENT WITNESSES

Mr. O'Neil intends to have Former At-torney General John C. Bell answer questions as to why the receivership proceed-ings were not begun two years ago, as re-quested, and ex-Insurance Commissioner Charles Johnson will probably be a witness, also ex-Governor Stone, who, as a member of Stone & Stone, was legal adviser of the Pension Mutual Life Insurance Company. Commissioner O'Nell's only uneasiness Commissioner O'Nell's only uneasiness thus far in the insurance situation is a fear that the people of the State will get the idea that he is posing as a crusader. In all fairness to Mr. O'Nell, it should be sald he is doing exactly what he thinks is his duty and has no particular regard for the way it is put before the public, so far as he is concerned.

Mr. Wood's statements in the last twenty-four hours include an appeal di-rected to Governor Brumbaugh asking him to stop the campaign of abuse which he says the insurance department is directing against him and his companies The Governor has told the EVENING

Students and faculty members alike admit there are a number of outsiders' names on the list of possible presidents for Haver-ford College. The list according to faculty members contains about ten names.

There may be an even more radical departure in the naming of a president who is not in academic work at all. There has been some agitation, according to information secured at Haverford College, that the new president may be a business man, chosen directly from the business world.

Police, After Searching Countryside, Promise to Arrest Intruder Before Tonight

The police of Woodbury, N. J., hope to arrest today the man who entered the home of David Tweed there early yesterday morning and who was frightened away as he was attempting to chloroform Mr. Tweed's nineteen-year-old daughter. Mr. Tweed's three daughters were alone in the house at the time. A description of the man has been given to the police, and, after a search of the countryside, they said they would land him in jail before nightfall. The man could have escaped with loot if the motive had been robbery, but he made his way into the girl's room and was fright-ened away by her sister. Nothing was

Miss Blanche Tweed was awakened when she heard a noise and as soon as she started to investigate she heard the front door close, some one evidently leaving the house. She aroused one sister, but when she went to the bed of the other, she noticed that a stocking soaked with chloroform had been laid on the girl's chest. It was only with difficulty that the girl was revived. Mayor Ladd, of Woodbury, said that the man who had a grudge against the family.
