NOW FOR THE STADIUM!

that the time has come for pushing the blessoms: plans for building a municipal stadium.

We do not lack the money, and the We do not lack the money, and the need of the stadium is apparent, and we have only to consider the tens of thousands who crowded the stands at the Army and Navy game in New York and overflowed the Bowl at the great Yale games in New Haven to perceive its possibilities as a revenue-producer for the whole city. Now that the leaders of the University

athletic association have become convinced that there should be no more de lay, every one else is expected to fall in line. The thing can be done with a jump if we set ourselves to the job. Get ready! Set! Now go!

EMBARGO IS NOT THE REMEDY

THE causes behind the increased cost I of food are not so simple that they can be removed by an embargo on exportation.

The demand for an embargo come first from German sympathizers who wish to injure the Entente Allies and care little about the effect of the plan in the who say, "Go to, now, let's pass a law," should be, form another class of embargo minship he so often commends. The advocates. A third class is composed of politicians who seek popularity by prom ising to the people what they think the people want.

If the embargo should work as its advocates hope, the farmers would be in the state of the railroads. The price of what they raise would be reduced, while they would still have to pay high prices for

what they consume.

The National Grange has been wise enough to perceive all this and has protested most vigorously against any legis lation deliberately intended to cut down

ers ago. It holds in its hands the pros- there might be some pretext to justify By of thousands of persons and the restriction on exports. But food has risen crity of billions of invested capital, along with everything else. The causes se become one of the most impor- are interseven with the whole industrial

was the chief reason for the persimmon, that they complemented each other; but in certain circumstances Diasperos virginians may be more highly considered—as, for example, when the tree stands against a soft blue sky, a stender leafless staff on the rim hius sky, a stender leafless staff on the rim of a mountain road tooking southward to the sea. The November landscape is still colorful. There are firs in plenty, dotted with dark cones; the oaks retain a share of their tinted leaves; laurel and rhodedendron and galax are all about; and the red clay of roads and torn hillsides adds many splashes of vivid color. The creek, falling from the mountain's top, shows silver through the firs and on the bare ledges. A hawk swims in the haze that hangs over the valley. In such a picture the persimmon tree is not without interest. A slight shaking of the bole brings a shower of the wrinkled pouches of pulp, as nearly of the wrinkled pouches of pulp, as nearly fit to eat as they ever can be. As you crush a date-plum against your tongue you may like it for itself, or because you savor in it the bemiocks and the waterfall, the

THE PEOPLE

"JUST ONE BLARSTED THING HAFTER HANOTHER!"

Protest of 60th and Lansdowne Against Action in Saloon Case. Plight of the Allies

This Department is free to all readers who then to express their opinions on subjects of arrest interval. It is an open forum, and the versag Ledger assumes no responsibility for versag to the versa of its correspondents. Letters must a sumed by the name and address of the riter, no necessarily for publication, but as a saminfee of good faith.

AN APPEAL TO PUBLIC OPINION To the Editor of the Evening Ledger:

To the Editor of the Evening Ledger:

SIT—I wish you would come out to Sixtieth street and Lansdowne avenue and hear the conversation of the people of our neighborhood regarding the opening of a saloon at the corner named. It is all pretty well summed up in the statement of a man who took no part in the fight until a few days ago, when he called this "a miscarriage of justice." The people are highly indignant and feel that they are being wronged.

The law of Pennsylvania provides: The said Court of Quarter Sessions shall hear petitions from residents of the ward, borough or township, in addition to that of the applicant, in favor of and remonstances against the application for such license, and in all cases shall refuse the same whener, in the opinion of said court, having due egard to the number and character of the etitioners for and against such application, uch license is not necessary for the ac-ommodation of the public and entertain-sent of strangers or travelers, or that the pplicant or applicants are not fit persons whom such license should be granted."

In spite of proof that the sentiment of he community is against this saloon the It is a fact that 3492 persons, all living within three squares of Sixtleth street and anodowne avenue, have signed against the Lansdowne avenue, have signed against the saloon. But it was proved in court that a young man, nineteen years of age, having the same name as his father, signed the remonstrance, and also that one man was not aware of the contents of the paper he signed." The judges, in their opinion, however, took occasion to say that "several irregularities in obtaining signatures to the remonstrance were shown, but they were comparatively few in number, and not of serious importance."

The court also made the following dec-

The court also made the following dec laration: "The statement in the sixth para-graph of the petition, namely, that 'the predominant sentiment of the community is against the granting of the license, can hardly be accepted as a fact, in view of the testimony that there are approximately 3500 signers against and about 4000 in favor of the granting of the transfer." The 3757 persons who signed in favor of the saloon signed the declaration, "We, the un-dersigned, being residents and property owners of the Thirty-fourth ward, residing at the addresses affixed after our respective

Nine hundred and sixty-three of these men according to their own signatures, live out side the ward, in all parts of the city and adjoining countles, and yet the judges accept this as "testimony", in favor of the subsen. By actual count only 367 persons living in the district within three squares of Sixtieth street and Langdowne avenue signed in favor of the saloon, while 3493 signed against it.

We appeal our case to the higher cours and trust that this saloon will be kept from our neighborhood. WILLIAM E. LAMPE. Philadelphia, December 5.

THE ALLIES' DESPERATE STATE

of the conclusion of her statesmen that desperate cases require desperate remedies and that Germany has already won the war. Philadelphia, December 5.

THANKS FROM THE FIREMEN To the Editor of the Evening Ledger: Sir - The committee appointed by the members of the Fire Bureau to present their cause to his Honor the Mayor. City Councils and the citizens of Philadelphia appreciates the great assistance rendered to the Fire Bureau by the vast publicity given our cause through your valuable

The result of your assistance is such that the public has for the first time awakened to the true condition of the Bureau of Fire, and its response thereto has been spontaneous, and in conjunction with it the city authorities have been brought to realize that the Fire Bureau must be looked after, and we have their promise that the request of the firemen will be speedily granted. The result of your assistance is such

On behalf of every member of the Buréau of Fire we desire to extend our sincare thanks for your inestimable assistance in our cause during our present campaign, which will be echoed and re-echoed through-out the entire bureau, and we hope you out the entire bureau, and we hope you will always be in the van in all undertakings wherein the citizens of Philadelphia

TRUTH ABOUT COLD STORAGE A New York man with much experience in such matters declares that it come \$1.29 a produce a dorsen east in winter, while a cents a dossen will cover the cost in the spring and summer. This agrees in general with the conclusion of two Nebrania women that a dollar a dozen is not sufficent compensation for the trouble and expense involved in securing a supply of east in the winter. The coming of cold storage to carry the abundant supply of the spring over to the period of famine in the fail and early winter is a blessing that is not yet sufficiently appreciated by the public. The cry the country is now raising against this method of equalising the food supply is an senseless as much of the clasmor heard in recent years against big business. The thing to do is to assail the cris connected with cold storage and with the operations of the captains of industry and finance. Even the much abused speculators in food do a public service that entities them to protection and fair treatment.—Liucoin (Neb) State Journal.
