FINANCIAL NEWS

ADVANCES AND DECLINES IN STOCKS CAUSE CONFUSION THROUGHOUT DAY

13.5*

Professional Element, Which Furnishes Most of Business, Is Easily Sawyed by Vague Reports Having Influence on Both Sides of Market

NEW YORK, Dec. 8.

Acms Te

Fries incomments and market tone on the Stock Exchange were confused all through the day. There was vigorous buying of some issues, causing almost sensational advances at the same time that other stocks sustained violent declines and the professional element, which furnished must of the business on the floor, was extremely nervous and easily swayed by vague reports having an influence on both sides of the market.

The fact that the morning papers had attached little importance to the diplomatic questions arising from submarine activities induced some buying by sommission houses and there was an absence of supply from the banking interests which had for some time exerted a repressing influence on speculative operations

After noon the announcement of the sinking of another British hospital ship was an incentive for some hurried selling, but declines which followed these sales were quickly recovered and the manner in which the market rallied from low levels made many regard the speculative situation as extremely strong.

Among the important movements was an advance of more than 11 points in Atlantic, Gulf and West Indies to above 147, which was partly offset by a break of 12 points in Ohio Cities Gas, which dropped from 117 to 104, with a late rally to 114. The copper stocks continued to be influenced by inside liquidation, which was most pronounced in Chill Copper.

The money situation was without influence on stock market operations, but when March cotton broke more than 100 points and wheat declined 3 cents leading stocks ware sold in fairly large volume by western houses and by brokers for some of the cotton plungers. The pressure against these staples were said to be a direct result of the curtailment of banking accommodation which forced the rate of call money to 15 per cent at the beginning of the week.

The bond market was active, with irregular movements all through the day, Chill Copper 7s being traded in on a large scale and a scale down to 136. but recovered part of this loss in the late trading. The Rock Island issues also shaded off from recent high levels and fractional losses were sustained in many of the other active issues. Anglo-French 5s were stendy, with sales at 93% and 2334.

\$15,800,000 Additional Gold Arrives in New York

NEW YORK, Dec. 8 .- Gold to the amount of \$15,800,000 arrived this morning from Ottawa for the account of J. P. Morgan & Co. and was deposited in the local Assay Office.

tions started and the estimated cost of same over the previous week, says Dun's weekly review of trade. Estimates are being pre-pared on a number of proposed operations. "The figures indicate close competition and the increased expense of carrying on active operations reduces margin of proft." It continues. "The eleven months of this year, compared with same period of 1915, show a decrease of 2302 operations started, but an increase of \$7,694,650 in the volume of business. of business "The local cotton yarn market still con-

"The local cotton yarn market still con-tinues active; prices are still high and firm, with a good demand for most grades. Man-ufacturers of knit underwear are busy, and in some cases report that they can get more business than they can handle at very satisfactory prices. "Towel manufacturers report that their orders have fallen off to some extent, owing to the prices asked in accordance with the high prices of yarn. Conditions generally appear to be satisfactory and dealers look for the present conditions to continue for some time to come. Collections are exme time to come. Collections are ex-

some time to come. Collections are ex-ceptionally good. "The wool market is very strong and prices are high and variable. Manufac-turers are using up their stock and dealers are reported as having much smaller stocks than are usually on hand at this season of the year. It is the impression that yarns will still go higher and the prices of manu-factured upeducts are still tending toward Stured products are still tending toward New Con Cop....... The day was one of the quietest for some time. Throughout the whole week there has been an attitude of caution present in the deal- ings, but this was more pronounced today than for some time. One of the developments of the day was a recovery in the price of Lebigh Navigation, which stock sold off in the late trading yesterday. The stock started with a gain of a full point, and this was extended an- other half before milday. Some of this improvement was lost in the afternoon. Nothing new was heard of the proposed deal between Navigation and the Penn- sylvania Railroad regarding the Lebigh and New England Railroad. The deal, it is understood, is not aff by any means, but until there is something definite officials will not have anything to say. During the morning a little interest was shown in Philadelphia Righd Transit trust certificates and they moved up a little. In the afternoon, however, the improvement was least and a little more besides. When the certificates moved up, Union Traction not up a triffs, too, and the small gain was held to the closs. Throughout the semilon Lake Superior was the most active and it was mostly below the final of yesterday. A development in connection with the focal money market was the additional re- serve Bank of Philadelphia. Today about 1500,000 worth of paper was taken by the Federal institution. A large proportion of this was in the form of collateral loans. Mont of the paper matures in fifteen days. The Acms Tea Company reported good
