The old man had spales only too truly. There existed no way of convincing these larbarians that their prisoners were not of some initial, lossife tribs. Evidently the tradition of the outer world had long since perislied as a belief among them. The patriarch's faith in it had rous to be considered a mere define second childhood vagary, just as the tradition of the Golden Age was held to be by the later Greeke.

That Sterm and Bentries would in any

That Stern and Reatrice could in any way convince their capture of the truth of this outer world and establish their identity And as the old man's prophecy of evil-interrupted, yet frightfully antinous-re-curred to Stern's mind, he knew the end of everything was very close at hand.

"They won't get me though, without a cliff light, darin them?" thought he. That's me satisfaction. If they imide on extermination—if they want ware—they'll get it, it right enough! And it'll be what Sher-

Came now a long, a securingly interminable wait. The door remained fast-barred, Oppression, heat, thirst, longer tortured them, but relief there was now. And at length the merciful sleep of stopefaction overcame them; and all their pain, their anguish and forebodings were

combed into a welcome oblivion. They were awakened by a confused is the sound of even and shouts, dulled the thick walls, yet evidently mary-jusd-harsh commands, yells, and even one sharp blows upon the prison stones.

"Ready there, Beatifies!" crief he, "Some-thing's started at last! Maybe it's our turn now. Here get behind me—but be ready to shoot when I tell you! Steady now, steady for the attack!"

Tonse as colled springs they waited And all at once a bar sild, creaking Around the edge of the metal door a thin blue line of hight appeared.

"Stand back you!" yelled Stern, "The first man through that door's a dead one!" The line of light remained a moment mirrow; then suddenly it brandened. From without a pandemonium of sound burst in-howls, whiteles, imprecations, cries of pain. Even in that perilous moment a quick wonder darted through Stern's brain, what and the Little Fish in his gies did not dream of danger.

The Indians caught the Little Fish!

For one awful moment the Little Fish thought he was surely going to die. Then the biggost of the Indians said, "He is such a little fish; let us threw him back."

And so back into the stream went the Little Fish, trombiling with fright. And as he said do himself over and over again:

"NEVER PLAY A TRICK ON OTHERS."

FOR YOU ARE APT TO GET CAUGHT
IN IT YOURSELF."

The line of light remained a moment introve: then suddenly it broadened. From without a pandemonium of sound burst in without a pandemonium of sound burst in the precious of pain. Even in that perileus moment a quick wonder darted through Stern's brain, what the meaning of this infernal tumuit might be, and just what ghastly fate was to be theirs—what tormsate and indignities they might still have to face before the end. "Remember, Bestries." he commanded. "If I am killed, use the revolver on rourself before you ist them take you?"
