The Leather Market is Paralyzed! Prices For Shoes Are Taking Spectacular Advances! Look at the Facts Squarely and Listen to Reason. Follow Our Advice and You Will Be Money In Pocket. Read Every Word of This Story and You Will Know WHY.

Europe has stripped America of its leather. With not half enough for ourselves-the demand from across the water is for MORE, MORE, MORE! You can appreciate how desperate the situation is when we tell you that a foreign government recently laid down FIVE MILLION DOLLARS IN COLD CASH-before one of the biggest tanners in the United States and said: "GIVE US AS MUCH SOLE LEATHER FOR THAT AS YOU CAN!" Mind you. they didn't specify HOW MUCH they wanted for their money-but as MUCH AS IT WOULD GET FOR THEM! And now they are trying to DUPLICATE that order-and CAN'T. The quantity is SIMPLY NOT TO BE HAD.

In order to get even HALF enough leather for their OWN needs, American shoe manufacturers have had to pay as HIGH a price for leather to the leather manufacturers as THE NATIONS OF EUROPE WERE WILLING TO PAY!

And you see what has happened.

The shoe manufacturer simply HAD to pass the increases in price to the wholesaler; the wholesaler in turn passed it on to the dealer, and the dealer passed it on to YOU-the CONSUMER!

Take your BOY'S shoes for instance.

Two years ago you could buy a GOOD pair for him for \$2.00. Try it NOW! They're \$3.50 NOW-and soon they'll be \$4.00.

And WOMEN'S shoes! Four dollars used to buy a shoe acceptable to the average woman. Today she must pay TEN dollars a pair for them. And unless conditions change very materially very soon -those very ten-dollar shoes will cost her FIFTEEN dollars a pair!

What do you thing of that? It's got you thinking-hasn't it? And you know it's the TRUTH because you have ALREADY PAID THE PRICE!

Now then, see what is taking place in the realm of MEN'S shoes. Manufacturers and Retailers are frankly telling you in the magazines and newspapers that they can't give you at \$4.00 what they gave you in the past, and that you have to pay \$5, \$6, \$7 or more per pair.

And what they say is TRUE! Shoes that you once paid \$4.00 for, are now \$7.00! And pretty soon they'll be \$8.00!

Now follows what is unquestionably the greatest master-stroke of shoe merchandising ever accomplished. Stated in its simplest terms, it means that you may now buy for a very short time :---

No, this is NOT a sale-it is MORE than that. It is giving you a chance-your chance-to buy your shoes at these remarkably low prices, if you act immediately.

Russia,' Germany, France, England, Italy-they all would gladly pay us MORE for them-for that's LESS than the ACTUAL WHOLESALE COST OF THEM TODAY!

We have on hand, made up-and in the process of making-MORE THAN THREE MILLION PAIRS OF THESE SHOES. Think of that-MORE THAN THREE MILLION PAIRS!

We saw this thing coming long, long ago. If we were running a single store, or only a few stores, it would be different. But we operate TWO HUNDRED AND FIFTY-SEVEN NEWARK SHOE STORES in the United States-and when we anticipate, we place gigantic contracts for supplies that run into millions of dollars at a clip!

In the latter part of 1915, we contracted for enough to cover ourselves for all of 1916 and half of 1917-OVER ELEVEN MIL-LION DOLLARS' WORTH OF SHOES!

When these are gone-UP GO THE PRICES-for you can't sell an article for \$2.50 that costs \$4 to make; or one for \$2.95 that costs \$4.50 to make; or one for \$3.50 that costs \$5.50 to make-can you?

So we say to you-BUY NEWARK SHOES NOW at \$2.50, \$2.95, or \$3.50-while you have that chance. And buy enough pairs to last you at least a YEAR.

And don't forget the BOY-buy HIM enough NEWARK shoes at \$1.75 or \$2.50 to see him through the year.

And tell your wife to go to HER dealer and buy a supply for HERSELF as well.

This is not a scheme on our part to make profits-you KNOW that, for, as previously stated, the warring nations would gladly take these shoes at these prices without us spending a dollar advertising them, because, they are less than the actual wholesale cost today.

We are simply inspired by a desire to let our customers in on the ground floor of good value on the theory that it will come back to us ten-fold in their good will and continued support of this great national enterprise, which today is the largest of its kind in the world.

Let us urge upon you not to put off your visit a single day, but to COME HERE TOMORROW. If you can't buy more that one pair tomorrow, we'll gladly lay aside one or two extra pairs for you for future delivery.
