VYVETTES—A DAINTY FASHION FEATURE—BEAUTY HINTS—DAILY HOUSEHOLD SUGGESTIONS

THE UNAFFECTED GIRL REALLY WINS FRIENDSHIP THAT LASTS

It Is Not What a Girl Thinks She Is or Strives to Be or Has Accomplished That Counts

An amateur performance was given at one of the out-of-town finishing schools the other day, a really very artistic interpretation of an Indian love story with music. While the stage was being set a young woman "rendered" a number of songs for the delectation of the audience.

Her voice was thin and tremulous as cept on the very high notes, when she accomplished a shrill falsetto. The numbers she attempted were difficult and she sang with an air as of "one who knows," opening her mouth in the most approved fashion and letting her voice trail off very effectively, or so she thought.

I could not help contrasting her with the singers who took part in the funtusy. They were very young girls and their voices were wholly untrained; they even at times seemed to experience difficulty. in placing the notes; yet I am sure every one in the audience would far rather bave listened to them than to this other girl with her mannerisms.

Their voices held that unaffected quality of youth and they sang to the best of their ability, though not without a little pervousness. But they possessed charm. And they literally brought down the

BACH CHOIR TAKES TRIP GARBER FINDS FLAWS AS GUESTS OF SCHWAB IN NEW SCHOOL IDEA

Stransky.

Columbia University, Experiment, De- Bethlehem Musical Organization Starts

signed to Eliminate Classics,

An attempt to change the entire American system of elementary and ascondary editionation, to remove the "stead wood and further of tradition" and adapt it to modern needs, will be made in the fall of this year, when a new "modern school" will be opered in connection with the Teachers' College in Columbia University. The general education board, an outsprowth of the Rockefeller Foundation, will feature the new educational legitimates.

An attempt to change the entire Ameri-

growth of the Rockefeller Foundation, will france the now educational institution, which is to be more of an experimental in-stitution than a permanent one. The coefficient will include no study of formal grammar, no layolyed mathematica, no Latin, Greek or other dead language, on ancient history execut as it bears on modern problems—nothing, in fact, for modern problems—norming, in fact, for which no better reason than tradition can be assigned. As few books as possible will be used; the supporters of the movement believe that "if children are to be realities of life and existence, the accessible world is the laboratory to be used for that numbers."

Superintendent of Public Schools, Arr. ohn P. Garber, said the sites was not a to New York.

John P. Garber, raid the sies was not a new one.

"It is in line with the general modernizing of the curriculum, which has been in process for several years past," he said.

"It was partly the man of Herbert Speners to modernize methods of education and the general trend toward vocational training would go to demonstrate a general swing toward this method.

"The new school is to be an experimental one as I understain it. I cannot say just what the results will be. We must remmber, though, that there is a cultural side to education, and to swing entirely away from the classics would be overstepping the mark. I am afraid. There is a something lacking in that man who is only trained with an eye to the realities of life." A New Sandwich Filling

An appetizing filling for sandwiches has recently been introduced. This is thin slices of smoked salmon, curly at the edges and having a particularly pungent flavor. Placed between thin slices of bread, with a fragment of lettuce leaf, it makes a specially tasty sandwich.

Deerfoot Farm Sausage are real food We use the LOINS and HAMS of porkers. No scraps. No waste.

ADOPT THESE HOME METHODS TO MAKE YOUR ELBOWS PRETTY

By LUCREZIA BORI

HAVE you ever boticed how very few have, you will have to admit that many an otherwise benutiful arm is often spoised by a sharp, unattractive eibow. Or, if the bine is well covered with flesh, the skin is rough, wrinkled and off of the spoised by a control of the plane is one of the prime defects that can be sharp.

conship short space of tinte. first step in bony

The first step in padding out a bony elbow with rish is to bathe it in warm water so that the pores of the skin will be opened. Then pour warmed olive or almond oil into the pain of vinc hand and massage the elbow. When the oil has been absorbed apply more.

the oil has been absorbed apply more.

Bind a greased pad over each elbow at night. The best way of doing this is to take a small wad of absorbent cotton, wet, it with oil, place it above the elbow and bandage it on with strips of mustin or authority gause. The strip should be at least two inches wide and should not be tight enough to interfere with circulation.

Cotto butter is also a flesh-builder, and can be used instead of the atmond or olive can be used instead of the atmond or olive

When the skin covering of the elbow is

HENS LAYING BETTER, BUT EGGS STAY "UP"

field Rejoices Without a Blush at Prosperity

Any one who has an idea that eggs are because in the rural communities hereabouts than they are in the city should have attended the annual Parmers' Instituto held at Haddonfield, N. J., yesterday afternoon and last night.

Farmers stood up at the institute and confessed without blushing that they asked and got fifty-four, fifty-five and even as much as accenty-two cents a dozen for here are taying better than at this time one year ago, when the relative prices of eggs were less. One farmer down beyond Berlin says his 600 hens are laying "elegant." That same farmer is getting fifty-four onto a dozen for his eggs, hauling them

only to Camden, sixteen miles.
"Private residents and dealers alike are willing to pay that price," he said. "My eggs are of the Barred Plymouth Rock species, of a dark shell and consequently to not bring as high a price as clear, white-shelled eggs. A neighbor, who has a argo flock of hens of breeds that produce chite-shelled eggs, is getting more than I the old hens which are beginning to lay behind are quickly sold off at good prices,

"We have no trouble getting our prices because the dealers are getting theirs and are willing to pay. Of course, it must be understood that the cost of feeding chick-ens has risen considerably and, like my neighbors. I am feeding especially for eggs.

type, either. She has a memory, not a as well as a year ago and I am not feeding "forgettery"—but she conserves her mem, any heavier than I did then. Of course, blue every one else. I am getting the benefit of the high prices. Only a week ago a number of pullets began laying, and these

normal, all decreases, if any, being due entirely to the winter, which is an annual cause of cut in production.

Another feature of the egg production this winter in Camden County is the fact that residents who keep only a dozen or two hens in their backyards are able to sell eggs, where last year none was to be had. Fifty to sixty cents per dozen is the average price to heighbors who are less fortunate in not having hems of their own, last winter, when prices were considerably seventy-fifth anniversary of the forming of the latter organization. The choir will sing four choruses of the Mose in B Minor, which it gives each year at its spring festival at Lehigh University. In addition, the members will give four charats, unaccompanied. Dr. J. Fred Wolle, founder and conductor of the choir, will direct the charuses from the mass, and the members will be accompanied by the Phil-harmonic Orchestra, under Dr. Joseph F. Strausky. Last winter, when prices were considerably ower, these suburbanites had not even sufficient eggs for their own uses. This year there are "fresh eggs for sale" signs ever

excess. One such resident, who has been feeding skimmed milk to his hens, in addition to the usual grain ration, has been selling steadily, while last year he was steadily turning away would be purchasers.
