NEW HAVEN FALLS TO NEW LOW MARK AS RECEIVERSHIP RUMORS CIRCULATE

Rally Comes When Strong Interests Assert That There Is No Indication of Taking Step—Much Speculation of Steel Dividend

High Points in Today's Financial News

Bear plungers made vigorous efforts to depress prices of stocks in Wall street, with New Haven selling at a new low mark. Boyds active on New York Curb and Philadelphia Stock Exchange. Foreign exchange market dull. Wheat advanced and cotton declined. Price of bar silver higher.

NEW YORK, Jan. 29.

Trading in the stock market today included more vigorous efforts on the part of the bear plungers than have been noted for some time. There was constant pounding of many stocks like New Haven, Reading, United States Steel common and St. Paul all through the morning, and under this pressure New Haven was forced down about 4 points to a new low record of 39½. The bear raids were accompanied by the usual flood of rumors, most of them being about the possibility of a receivership for New Haven, but the strongest interests in the Street made positive statements that there is no indication of the property being put in the hands of a receiver.

The same statements were made in the short-term note market, and attention was attracted to the fact that the New Haven notes, which mature on May 1, were in good demand at 99 bid. From a low point of 39½ the stock rallied to above 42.

United States Steel common was sold in large blocks by the same houses that were heavy sellers and borrowers of the stock yesterday. Nearly all the trading element joined in offering Steel down to 111⅝, and this trading was supplemented by large bets as to the amount of the dividend to be declared just after the close.

Many $500 bets were made that the dividends would be under or over 1 per cent. Many wagers were also made that the extra dividend would not be more than 1¾ per cent, which would be equal to a total of 3 per cent for the regular and extra payments. In the late afternoon United States Steel developed a strong tone, moving up to above 113. Nearly everything on the list followed the movements of these two stocks, weakness being shown in the early trading, with vigorous buying and pronounced strength the feature of the trading late in the day.

The bond market was generally strong, with most attention devoted to transactions in the foreign issues. There were large transactions in the Anglo-French 5s, which advanced to 93¾. Atchison convertible 4s of 1960 were also traded in on a large scale, advancing from 105½ to 106. Baltimore and Ohio 4s were active and strong.

IRREGULARITY MARKS TRADING ON CURB, WHICH FOLLOWS 'CHANGE

NEW YORK, Jan. 30.

Dealings on the Curb followed the trading on the New York Stock Exchange closely today, with some issues showing pronounced weakness, while others were in good demand and were firmly held. Most interest was attached to the trading in bonds, with large dealings in United Kingdom one and two year notes, at an advance above the subscription price. The new St. Paul bonds were quoted at 96¼ and 96½.

United Motor opened at 42 and dropped to the new low record of 40⅜. Midvale Steel, which opened at 58, declined to 56⅞, and fractional losses were recorded by Wright-Martin Aircraft and Submarine.

The oil stocks were fairly well held, with the new low-priced issue, American Ventura, selling at 28 to 30c. Royal Dutch ranged from 67⅞ to 68¼. Sinclair sold at 61⅝ to 62. Sequoyah was traded in at 1⅞ and 1 15-16. Cosden Oil sold at 14 and 14⅛.

The mining stocks were quieter, with Globe Dominion selling at ⅞. Cerro de Pasco at 39 to 39½. Butte Copper and Zinc at 10 and Magma at 46½ to 46.
