WHAT HER "JO BOOK" CONTAINS

The matinee girl has her feminine idol just as she has her idol of the sterner sex upon the stage. Florence Huntington, who plays Jo in "Little Women" at the Orpheum Theatre commencing next Monday, is a feminine idol.

There are thousands of girls to whom Louisa M. Alcott's heroines, Meg. Jo, Beth and Amy in "Little Women," are real beings. These are home girls. They have read and rerend Miss Alcott's rainbow comedy until they have formed well-defined ideas of just what they think these "Little Women" should be.

Of the four heroines of this story Jo seems to be the favorite, possibly because she frankly avows she wishes she were a boy. Miss Huntington's mail daily brings ost interesting notes and letters from school and college girl admirers, and she has christened "My Jo Book," in which she records the more demonstrative epistles. From this "Jo Book" may be gleaned that an admiring miss at Lasell Seminary, Auburndale, Mass., thinks that "You were simply ripping and I admired your portrayal of Jo; it was so splfing that I feet that I just have to write you a note." From Summit, N. J., came a letter containing this: "Isn't it just loads of fun to be an actress? I should think the words would stick in your throat. I hate to have plays over. I'd like to sit and watch them for a long time. I have never written to an actress before. You're the first one. Are you busy much?"
