The olympia Club was jammed to its interest capacity and the big crowd gave the New York Italian a thunderous reception, the greatest ever accorded a visiting boxer. Australian papers are at hand, and 'tis a rather remarkable coincidence that they arrived the very day Les Darcy was sup-posed to make his debut in America. The journals do not use up columns lauding the young man that left them flat, but at the same time they don't swing the hammer as viciously as would be expected.

What they particularly dwell upon is the tale that Durcy left home to aid his family. It's all "bunk," they say. The sob stories of Darcy coming here

# Hudson Super-Six

### Special Showing This Week of Spring Models

The motor-world looks each season to Hudson; for Hudson creates modes. Not a line or detail is plagiarized. We make it unnecessary to buy custom-made bodies for exclusiveness in design. This spring, on Chestnut Street, on the parkways and boulevards, observe the closed cars that pass, for more and more are being used for all-year service. The finest are Hudsons.

In no car at any price is found such sumptuous luxury, restrained in the excellence of good taste. Limousine and Town Car upholstering is done in our new two-tone effect. You have a wide range of choice in hues and tints.

The handles, the telephones, the dainty clock are all finished in French enamel. Every convenience is at your hand. At right, the woman's vanity box, with places for card case, perfume, toilet whims. At left the men's smoking service. Both fit flush in the sides.

A step-flash illumines the opening of the doors. Inside the lights are diffused through a specially tinted glass.

Our two convertible models have wide vogue. They are the Touring Sedan, seven-passenger enclosed, and the Cabriolet, or three-passenger type. The convertible principle is identical in both-sound, simple, facile.

The eight Hudson closed models comprise an absolutism of design. To persons sensitive of beauty, their serene, thoroughbred poise will appeal as kind to kind. They join luxury and serviceability in an exquisite unity.

The Hudson Super-Six closed cars are for men who prize endurance and superlative performance, and for women who seek true beauty.
