CHICAGO, March 26.—After having shown considerable strength, due to unfavorable crop news and the announcement of additional military and naval preparations by the Government, heavy profit-taking forced a reaction in the wheat market today, with final prices irregular, May being lower and July and September higher.

Buying fever seemed to have cooled down temporarily in the afternoon following an excellent demand in the forenoon. Longs in general found the advance very tempting and turned paper profits into cash. Good cancellations of old hard wheat for shipment from local elevators were reported.

Bears asserted that bad advices from the winter belt were exaggerated. In the forenoon belated shorts bought with a rush, but they displayed less anxiety later.

May, after having risen to $1.93¼, dropped to $1.90⅝, closing at $1.90⅝ to $1.90¾, against $1.91, Saturday's last price. July's high was $1.66¾, from which it fell to $1.63½, ending at $1.63¾ to $1.63⅝, compared with $1.63 at the end Saturday. The best on September was $1.52, made at the outset, and the lowest $1.49⅝, with the last price $1.50¼ to $1.50, compared with $1.48⅝ at the close Saturday.

Private advices said that a large part of the area in Kansas and Nebraska would have to be abandoned and predicted a condition below 70 in those States next month. Reports from Indiana and Ohio were better.

The visible supply in the United States decreased 1,268,000 bushels for the week to 40,142,000 bushels. The market at Liverpool was dull but firm.

There also was active general selling of corn by the larger longs, which sent prices down after having been strong. The close was irregular, with May lower and July and September higher. The weather was favorable for the movement and fresh outside support lacking.

The visible supply in the United States decreased 378,000 bushels for the week to 12,396,000 bushels. The market at Liverpool was firm.

Profit-taking was free in oats. General trade was good. The visible supply in the United States decreased 1,221,000 bushels for the week to 34,880,000 bushels. The market at Liverpool was dull but firm.

Shipments from North America for the week were 1,032,000 bushels.

Traders Show Waiting Disposition, but Prices Rise on Weather Report

COTTON BELT WEATHER CONDITIONS

NEW YORK, March 26.—The following temperatures were recorded in the cotton belt this morning: Oklahoma and Raleigh, 46; Asheville, 48; Abilene and Knoxville, 50; Del Rio, Macon, Nashville, Augusta, Atlanta, Charleston and Wilmington, 54; Chattanooga, 56; San Antonio, 56; Memphis, Birmingham and Savannah, 58; Little Rock, 62; Montgomery, Shreveport and Jacksonville, 64; Vicksburg, Meridian and Thomasville, 66; Galveston, New Orleans, Mobile and Pensacola, 68; Corpus Christi and Tampa, 70.

There was .01 inch of precipitation at Montgomery; .05 inch at Pensacola; .08 inch at Mobile; .22 at Birmingham; .26 at Jacksonville.

NEW YORK, March 26.—Liverpool cables were below expectations, but much more attention was given to the weather in the South and the fact that it was raining in Alabama and Georgia, with cloudy conditions elsewhere in the East, caused a firm tone at the opening of the cotton market. Prices were 6 to 8 points net higher.

Probably the greater part of the training might be attributed to short covering and profit-taking. There was uptown buying and Wall street and Liverpool purchased moderately. Some commission houses sold.

After the call business fell off considerably and there appeared to be a waiting attitude all around, but quotations held at about the initial levels.

The early advance carried prices about 8 to 17 points net higher, with old crop months making new high ground for the movement on trade buying and covering. Wall street interests were good buyers of new crop deliveries, but sentiment seemed to be rather nervous and the market became less active during the middle of the morning, with prices losing about half the advance under realizing.
