

BE RENEWED, BERLIN IS TOLD

Many Will Reopen Negotiations, Says Lokal Anzeiger

PAPERS ALL IN LINE

AMSTERDAM, April 3.—The Central Powers are planning a new peace offer, the Berlin Lokal Anzeiger said this afternoon.

Demands for peace have gained mighty impetus both in Germany and Austria-Hungary. A Bern dispatch says, since Austria-Hungary's Foreign Minister Czernin is in the Vienna Fremdenblatt. The dispatch says that the majority of papers arriving here strongly support Count Czernin, insisting the growing peace wave.

There have been frequent and persistent rumors lately that the Teutonic Powers were preparing to make another bid for peace. The nearest official of these reports came from Count Czernin, Foreign Minister of Austria-Hungary, who recently declared the Central Powers' desire for peace was still open to action.

Continental newspapers have continued to stress on the Minister's statement as indicating likelihood of the Central Powers seeking further concessions in their peace talk. Vienna newspapers regarded Czernin's speech as a "plain proffer of peace."

The Lokal Anzeiger announcement today comes at the same time that an important conference is being held at the German headquarters. Ostensibly the meeting is to discuss the German Empire acquainted with the new Emperor of Austria-Hungary, but an unusually noteworthy assembly of German and Austrian officials is present— including the German and Austrian Emperors, Chancellor Bethmann-Hollweg, Foreign Minister Czernin and others.

Conditions in Austria are known to be grave, and a peace movement of great magnitude is being gained ground there. The Austrian Emperor has for some time been reported personally as favoring peace. One story early in the year declared he had sent a peace messenger to the Vatican. Another separate peace move was reported to emanate from Vienna after the success of the Russian revolution.

Austria was probably more affected than any other nation by the success of the democratic movement in Russia.

A revival of the peace talk occurred Sunday when announcement was made in Vienna that American Ambassador Penfield was departing for three months' leave.

PENFIELD REPORTED PEACE MESSENGER

By a Staff Correspondent WASHINGTON, April 3.—While Secretary of State Lansing today declined to discuss any phase of the Austro-German situation, the return of United States Ambassador Penfield from Vienna at this time is regarded in high Administration circles as very significant.

The representation generally placed upon the move is that Austria-Hungary is sending Ambassador Penfield to his country with proposals to keep Austria out of the war with the United States, despite the fact that she has ally, Germany, has become involved in it.

For weeks it has been reported that the failure of the United States to break diplomatic relations with Austria-Hungary at the time they were severed with Germany has been a source of great irritation to the latter country. Last night President Wilson in his address emphasized the line of separation by pointing out that Austria-Hungary had not pursued ruthless submarine warfare against the United States. He said that it had been impossible to accept the credentials of Count Tarnowski, the new Austrian Ambassador to the United States, but made plain his intentions to treat with that country so long as she did not participate actively in unlawful submarine warfare against the United States.

Since the arrival of Count Tarnowski in the United States, officials of the State Department have refused to discuss the Austrian situation. It has been apparent that this Government was willing to breed distrust between Germany and Austria by dealing with one and not treating with the other so long as that course remained possible.

It is believed here today that Ambassador Penfield carries a message from the Austrian Government looking for a more friendly relations between the United States and Austria regardless of the decision of America to war with Germany.

20-YEAR-OLD YOUTH HAS INFANTILE PARALYSIS

Young Man in Lebanon District Attacked by Baby Plague—Family Quarantined

LEBANON, Pa., April 3.—Leroy, the twenty-year-old son of Jacob Heagy, a South Anville township farmer, was this afternoon declared by Dr. E. B. Marshall, family physician, to be suffering from a fully developed case of infantile paralysis. Heagy's entire left side is affected.

The Heagy home is under strict quarantine and the State authorities have been notified.

BARNS CLOSED FOR 18 DAYS

BUTLER, Pa., April 3.—The bars of twenty-five hotels in Butler County were closed to remain so until April 20, when James Raiber is expected to give his final opinion.

Court has granted the application of Independent Brewing Company of Pittsburgh, operating a brewery in Butler; closed all wholesale and two retail applicants and held up three retail applicants without a date and twenty-five applicants in the county and borough closed until April 20.

Spring Hats in confined styles.

AMSTERDAM, April 3.—The President having asked Congress to declare that a state of war exists between this country and the Imperial German Government, the Navy and Naval Reserves will be immediately called into active service.

The men of the Naval Coast Defense Patrol, being in small boats, must at times suffer hardships and exposure, and to keep well will need such woolen garments as caps, mufflers, gloves, wristlets, stomach bands, sweaters and long stockings, also scarves, slinkies and sou'westers. These articles are indispensable to their health and efficiency, and in the present emergency must be supplied by civilian aid.

The mobilization of public service to help in this work should instantly begin, and this appeal is made to every citizen in Philadelphia, to all business houses, clubs and religious and patriotic societies to co-operate without delay in collecting these absolute necessities which have been approved as part of the uniform by the Navy Department.

The department also has officially approved the co-operation of the Navy League in the vital need of recruiting for the regular navy, marine corps and the naval reserves; bids to secure an enthusiastic response to the call for volunteers, men must be assured that a grateful city, relying for protection upon their valor, will in return do its full part by caring for their welfare and for the comfort of the families they are leaving behind them.

We all must give and get others to give time, money and materials. Let all patriotic citizens, men, women and children, come forward now and register for this auxiliary service.

Detailed information can be had at headquarters, Home Defense Committee, Room 302, City Hall; also at headquarters of the War Relief Committee, Woman's Section of the Navy League, 225 South Eighteenth street, or at any naval reserve; bids to secure an enthusiastic response to the call for volunteers, men must be assured that a grateful city, relying for protection upon their valor, will in return do its full part by caring for their welfare and for the comfort of the families they are leaving behind them.

The Astec, a slow-moving freighter of 3727 gross tonnage, steamed from New York for Havre March 18 with a full cargo of foodstuffs and general supplies valued at more than \$500,000. She was due at Havre tomorrow and probably was less than 100 miles from that port when torpedoed. This fact has given hope to her owners that all the crew may be saved if they had an opportunity to take to the boats.

U. S. ENVOY SPEEDS INQUIRY INTO SINKING

PARIS, April 3.

An investigation of the destruction of the armed American merchant ship Astec by a submarine off the French coast with probable heavy loss of life, including Americans, was begun at Brest today by representatives sent by William G. Sharp, United States Ambassador to France.

According to advices received here and based upon early fragmentary reports of survivors, the ship was torpedoed at night in a gale, without warning, after which the submarine made off without giving any help to the sailors.

Estimates of the missing ranged from ten to thirty.

Nineteen of the Astec's men were picked up by a French patrol boat and landed at Brest. They declared that twenty-eight men were missing.

The torpedo struck the ship squarely amidships inflicting a vital wound and immediately putting the vessel out of commission. Lifeboats were immediately cast off, but one of these was smashed at once. Eleven are believed thus to have perished. Another boat was picked up. A third is missing.

RECORD IN GOLD HOLDINGS

Holdings in U. S. Treasury Greatest in World's History

WASHINGTON, April 3.—Gold holdings of the United States Treasury were the greatest in the world's history.

The total value of the currency and bullion in the vaults was \$3,044,299,292.

The sum is virtually double during the last five years. Most of the accumulation, of course, is due to the inflow of gold during the war.
