NEW YORK, April 13 .- The Rev. "Billy" Sunday returned to his recruiting campaign for a few minutes in his sermons and mid his say about the stackers who get married to escape conscription. He had referred to the cosmopolitan population of New York and had told his audience that doubtlers many of their ancestors had come in through Castle Garden or Ellis Island to

Back liberty beneath the American flag. "That flag is now unfurled," he cried. "We have been assailed by the enemy. They've spit in our face and hurled insults into our teeth. Surely when we unfurl the flag we'll not deny loyalty to it.

"The fellow who will make the skirt and petticoat of some girl the shelter behind which he evades the service of Uncle Sam, oh, he's a slacker and a coward and he mes mighty close to being a traitor! It's a disgrace when there are twice as many applications at the marriage license bureaus of Brooklyn and New York as there are at the recruiting stations. "You women have your part for service,

You can all join the Red Cross or take war relief work."

STANLET—"The Tides of Barnegat." Lasky-paramount, with Hanche Sweet and Elliott Dexter Stors adapted by Eve Unself from F. Horkinson Smith's novel, Directed by Mar-shall Nellan. The censors, who must be credited with

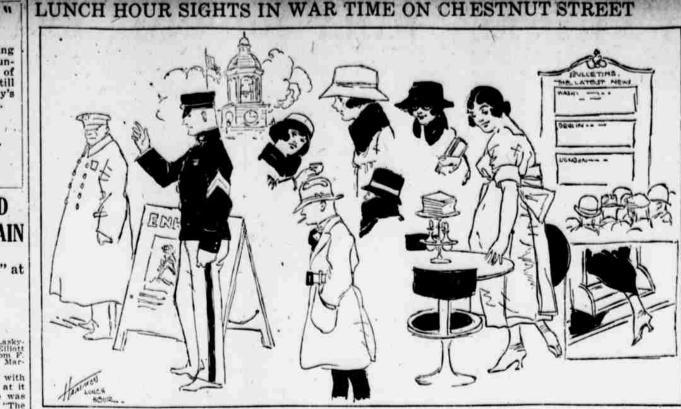

The compose, who must be credited with being preity good children lately, are at it again. The temptation to Bowdlerize was too strong for them in the case of "The Tides of Barnegat." So we are treated to the unadifying sight of the giddy little sister of Blanche Sweet "married" to the young seapegrace before he dies, leaving her to face the world with a baby. If she had really married him there would have had really married him there would have been no story. But that didn't make any difference to the censors. They are going to be sweetly pretty at all costs, and they are going to see that the films are "moral," too. Aside from the funny inserted leaders too. Aside from the fully, there's not a great deal to be said about "The Tides of Barne-gate." Marshall Neilan has preserved the gate." Marshall Nellan has preserved the homely and human qualities of the story well, and his cast is aptly fitted to their roles and nicely trained. The partative is slow in development and not particularly novel. But it has the genuine ring. Miss Sweet appears to better advantage than she has for some time. For one thing her has for some time. For one thing, her make-up is improved. The photography is artistic, though occasionally too dim.

ARCADIA-"The Woman Who Dared." Peer less, with Beatriz Michelena. Stary adaptes from C. N. and A. M. Williamson's novel.

This is a rattling good story of mystery suspense and theatrical effectiveness. True it's not of much moment as a novelty. But it's deftly strung together and briskly and efficiently played. Mr. and Mrs. Williamson are old hands at the game of plotting. They know how to take the ancient ingredients stir them up with a sauce of piquancy, and deceive the spectator into thinking he is enjoying a fresh dish. Consequently, the time-tried situations of "the papers." the theft, the "Tosca"-like climax, and the man who can't explain his allbi in connection with a murder because he was in the apartments of a lady at the time, seem interesting. Especial praise must be given the interior sets, which convey the atmosphere of Romand France beautifully. The camera-work is adequate, not enchanting.

"The Censorship of Moving-Picture Films" will be discussed by prominent speakers at the meeting of the Women's Club Society for Ethical Culture, 1324 Spruce street, tomorrow at 3 in the after-noon. Among those who will touch on the theme are Clinton Rogers Woodruff and Horace Stern. Discussion from the floor will follow the speeches.

A yard of red, white and blue ribbon, seven pins, a spool of thread and a woman. That combination has started something in Camden.

The woman is pretty and unassuming, but she admits that from that yard of ribbon and spool of thread has developed a mes-sage which has gone into nearly 1000 homes in Camden-the message of patriotism and oyalty to the flag.

"How can I serve my country? What can I do to keep alive the spirit of loyalty?" Those questions and others flitted through the mind of Miss Mildred Cole, assistant probation officer of Camden County, after Congress declared a state of war.

She noticed that while the lawyers and she holded that while the lawyers and doctors all talked war and urged men to stand by the flag, they somehow forgot, in the rush of business, to display the colors on the lapels of their coats, "They are all patriotic," she said, "hut—like men—they forget the little details."

afternoon, and you shall have one." "Let me buy the ribbon, then." suggested the lawyer. "How much does it cost?" When told that it was only 715 cents a yard the lawyer donated enough for two yards and asked an additional bow for a friend

BISPHAM ENDS SERIES **OF "MUSICAL TALKS"**

Baritone Discusses English in Song and Speech and Sings Illustration

David Bispham was the artist intrusted with the last of the series of "Illustrated Music Talks," given during the course of the season under the auspices of a committee of women prominent in musical and social circles. Yesterday in Witherspoon Hall the distinguished operatic and concert baritone gave a lecture-recital on "The English Language in Speech, 'Melodrama' and Song," in which his interesting text was liberally interspersed with vocal examples to point his remarks and exemplify the principles of his discourse.

Mr. Bispham has always been a warm adocate of the use of English in singing to audiences who speak that language, and the choice of that subject for him at his forthcoming appearance in this delightful and instructive series was a particularly happy one. He has also championed the cause of the American composer, and his program contained works by two well-known musicians of this country, the prologue to Henry Hadley's "The Atonement of Pan," which was written for the Bohemians' annual celebration at Redlands, Cal., and Henry Holden Huss's musical setting to Shakespearc's "Seven Ages of Man." In addition, the program contained "The Impatient Hus-PASTOR ASKED TO QUIT Former Saloonkeeper Said to Be "Too by Arensky entitled "In Days Gene By" and songs by Mendelssohn and Schumann, all of which, of course, were sung in Eng-

Bill Higgle believes it's time for people to start in and train their appetites. The time to begin self-sacrifice, he asserts, is now. Those who are used to eating roast beef, chicken, potatoes, ple and ice cream, he says, befter try living on mush and milk and plain bread at o buiter. If people fet accustomed to this ane of food for swhile, Higgle points out, it won't be so difficult if they have to do it when a shortage of food comes.

He began his food limit policy right in his own home by clupping five dollars from the allowance he gave his wife. When Mrs. Higgle complained he told her he was doing it for her own good as well as his. The tale of economy didn't sound good to her. There was one dominant thought in her mine—"What's he doin' with the extra five?" She followed Higgle one night and discovered: discovered :
