It's of vital importance to catch the trend of development in a large city. but the trend is so marked in Phila. that almost any man will catch it quickly, for it points almost as unerringly to the North-Northeast Section of Philadelphia

as does a marine's compass to the North Star, and the opportunities are now so remarkable for making hig money out of a sure thing. I use the words "sure thing" advisedly, for I have many tracts up in that section at the present time of from 10 to 100 acres that I feel as sure as anything in human events can be, will double in value in from 1 to 3 years.
