Alexander Crimps the Cubs' Streak

ted went out to Merkle, unassisted. No runs, no hits, one error.

SECOND INNING

Merkie sent a long single to left. Wil-liams fann d. Mann lined to Experoft, who made a great throw to Luderus, doubling Merkie. No runs, one hit, no errors. Luderus was easy for Deal and Merkle. Nichoff smashed a long drive between Wil-liams and Mann, which bounded into the center-field bleachers for a home run. Killefer heat out a bunt and continued on to second on Deal's wild throw. Killefer took third on a wild pitch. Alexander fanned. Paskert filed to Flack. One run, two hits,

THURD INNING

Wilson walked. Whitted misjudged Qeal's high fly and it went for a single. Wilson stepping at second. Douglass forced Wilson, Alexander to Stock, Zeider singled to left scaring Deal. Alexander threw out Flack, both runners advancing.

threw out Flack, both runners advancing. Doyle went out, Bancroft to Luderus. One run, twe hits, no errors.

The Cubs have been wrangling with Umpire Orth since the game started. Every player on the team and several substitutes came out from the bench to protest the decisions on balls and strikes. Orth finally put Pitcher Douglass out of the game and sent Manager Mitchell to the clubhouse. Prendergast went in to pitch for the Cubs. Bancroft popped to Doyle. Stock walked. Stock died stealing second, Wilson to Doyle. Cravath was called out on strikes. No runs, no hits, no errors. runs, no hits, no errors.

FOURTH INNING

Merkle was called out on strikes. Williams fanned again. Mann went out. Bancroft to Luderus. No runs, no hits, no errors. Whitted flief to Fisck, Luderus fanned, Niehoff walked. Niehoff went out stealing, Wilson to Zeider. No runs; no hits, no

FIFTH INNING Wilson struck out. Deal lifted a fly to

The Score Book

Makes a Motor

Goods, Atlantic"

"Today, the specific gravity test is prac-tically worthless as a check on the suf-shility of a gazothae, for example, for a given motor equipment. * * * is assume most probable that the definition of gaz-cine will have so be based on the per-centage that distill over between speci-fied temperatures, when the definitation is cerried out under specified conditions. * * *

"The gasoline must not vaporize too freely for two reasons: One, that it would not be eate, and secondly, its loos in storage by evaporation would be too great. Hence, the specification may have to contain limitations of the percentage distilling over below a certain temperature, coupled perhaps with a provise that certain percentages shall divid over below other fixed temperatures, in order that requisite amounts of low-boiling constituents shall be present to insure easy starting of an engine.

"Likewise the specification must con-tain a proviso that all must distil over tain a proviso that all must distil over Official Press - Statement

by U. S. Govt. Bureau of Standards.

ANK-UP with tried-and-true Atlantic Gasoline. Take the wheel, press the feeder and open your cut-out, if a cut-out there is. Now, listen to what she's saying. Talking,

Clean, sharp, distinguishable explosions. No misses. And every explosion a power-impulse that finds instant response in the rear wheels, whizzing driver and driven through space with a new sensation of motion.

Mayhap you're off the speed-thing, but comes a time when every motorist wants, must have, a "little more speed" —and it's a mighty good thing to have a little more speed up your sleeve at such times.

Atlantic Gasoline gives you the reserve speed, the extra power, you occasionally want. So, get on speakingterms with this go-gettem, eat-'em-up, beat-'em-to-it gas. It sure makes a motor purr.
